

Eickemeyer headquarters in Tuttlingen Germany

World class veterinary equipment

Welcome to the latest version of the EICKEMEYER catalogue. We have added more products, and we hope you will find it interesting to browse through this buying guide for the state-of-the-art veterinarian. We believe it represents a perfect blend of modern technology and traditional instruments.

This particular catalogue features instruments and equipment which will be particularly suitable for small animal and equine practitioners, clinics and universities.

We would also like to draw your attention to the unique EICKEMEYER Veterinary Continuing Education Centre. Veterinary professionals from all over the world attend our courses and benefit from the multicultural exchange of ideas; judging by the number of repeat attendances, they are a great success.

This Continuing Education programme is a sign of our long-term commitment to the quality and development of veterinary science and surgery.

Alexander, Gisela and Wolfgang Sprung

The best advice, the best service

Our Head Office is in Tuttlingen, Germany – known the world over as the home of fine instrument craftsmanship. Founded in 1961 by Walter Eickemeyer, the company has become a leader in veterinary equipment distribution.

We have a range of 5000 products in stock; we can supply everything from individual high-quality instruments to a fully-equipped clinic.

Eickemeyer's showroom in Tuttlingen

Our renowned customer service revolves around an outstanding team of friendly, well-trained support staff to answer any questions you may have. Furthermore, our risk-free policy allows you to return any goods without quibble within 14 days of purchase.

We are also highly accessible; our Customer Support phone lines are manned from 09:00 to 17:30 and our answering service is available at all other times. Alternatively, you can access our online ordering service 24/7 at www.eickemeyer.de

The world's best veterinary products, the best local practices

For nearly 50 years Eickemeyer have become experts not just in the science of veterinary medicine, but also in how to build and grow a successful practice. We have always sought to supply the finest instruments and equipment available, carefully sourcing the best and most practical products from all around the world. And where we can't find a product which meets our exacting quality and value criteria, we design and make our own.

Our Professional Support Team has worked with thousands of veterinarians in all kinds of practices. We know what works and what doesn't. We take the time to listen to your needs and to find solutions to the challenges of modern veterinary medicine. After all, your success is our success.

Founder Walter Eickemeyer

We are very excited about the future of this industry, and about our role in it. That future is tightly bound to our ever-expanding family of loyal customers. We are here to support and grow your business with you, assisting your efforts to raise standards in animal health and welfare around the world.

Global

We source worldwide to find the best quality products at the best prices

Veterinary products

We only deal with the veterinary market, so we have decades of experience to support you on a daily basis.

Local

As a family company we try harder every day to meet and exceed your expectations.

Practices

Your practice is a place dedicated to the wellbeing of all animals. This is central to everything we do.

Continuing Education Centre

Eickemeyer Courses - State-of-the-art training

At the EICKEMEYER training centre in Germany we offer superb training and refresher courses. Theory lectures, practical demonstrations and hands-on veterinary seminars in small groups provide the maximum learning in the minimum time. High tech lecture facilities and full operating theatre facilities make training easy, convenient and practical.

Since 1985 about 10,000 veterinarians have attended EICKEMEYER courses; only the world's best speakers are invited to address them. The objective is to improve your diagnostic and surgical skills; while theory is very important, what you try for yourself under the supervision of our course leaders is what will make you a better veterinary surgeon.

Small groups guarantee maximum learning; so popular are these courses some vets have attended more than 30.

We look forward to welcoming you to Tuttlingen.

EICKEMEYER courses – intensive, productive, unique.

Detailed course programme available on request.

Hands-on training sessions

Full operating theatre facilities

“
I cannot imagine
anything could be
improved, congratulations”
Dr K. from F

1. Validity

For our deliveries the following business terms and conditions of sale are exclusively valid, unless otherwise agreed in writing. We do not accept conflicting general business terms, even if we have not expressly rejected them.

2. Prices

Prices are subject to change without prior notice. All prices quoted are ex works Tuttlingen.

3. Shipping/Freight

For all customers outside Germany charges for packing and freight are at buyer's expense.

4. Minimum Orders

We require a minimum order of € 30.– from our retail customers, € 250.– from our wholesale customers.

5. Payment terms

We require payment in advance for all international orders. Freight and shipping charges will be added unless otherwise stated. We accept wire transfers, VISA, MASTERCARD, UC as payments. All goods remain property of EICKEMEYER until paid in full.

6. Claims

Every effort has been made to pack your order with great care. Please inspect the merchandise thoroughly for any loss or damage immediately on receipt and file claim with the forwarding agent. Concealed loss or damage must be reported within 3 days upon receipt.

7. Returns

No returns are accepted without prior notice. Please call customer service to obtain your RAC No. We reserve the right to examine returned goods before issuing credit. A 15 % restocking fee will be charged for all returned goods. Special order products or goods sold on a non-return basis may not be returned. Returns must be made within 21 days of the invoice date.

8. Risk

All shipments are being dispatched at the buyer's risk, even in case of "carriage paid" delivery.

9. Applicable Law

All contracts are subject to German law. Exclusive court of jurisdiction is Tuttlingen.

10. Customer Service

Our friendly and well-trained staff is happy to assist you in any way. Even if you are looking for something not in our range of products we will do our best to help you.

11. Showroom

If you are in the vicinity of Tuttlingen, we would be very pleased to have you visit us. Many of the items in our catalog are best evaluated in your own hands. You will find almost everything on display in our 400m² showroom.

12. Education

Experienced national and international speakers help you to learn the latest diagnosis and surgery techniques in a friendly atmosphere.

13. After Sale Service

Our Service Team will carry out all repairs quickly and reliably.

14. Online Ordering

Our website allows you to choose from more than 5.000 products and also to check availability. Check out our refurbished equipment site for bargains. There is always a special on our site.

15. Specials

In our specials we offer you the best deals around. Just check your mailbox.

16. Product range

Your single resource for a full spectrum of veterinary equipment and supplies offers you more than 5.000 quality products.

DIA-DIAGNOSTIC IMAGING ATLAS – REVOLUTIONIZING CLIENT COMMUNICATION

If a picture is worth a thousand words, then DIA is worth over one million!

This exciting and innovative software allows veterinarians and their staff to better illustrate conditions to clients. There are over 1500 Surgical Animations, Radiographs, Ultrasounds, Endoscopy Images and Clinical Images combined within DIA. The content is the result of contributions from leading board certified specialists.

No more scrambling for books or sketching out conditions or procedures on a piece of paper. This program will drastically improve your ability to validate your diagnostic findings and justify in-hospital and referral procedures. Using cutting edge graphics and imagery, your clients will be amazed with the insight you can provide into their pets health and well being.

EICKFIL

ABSORBABLE SURGICAL SUTURE

EICKFIL

Material: 100% Polyglycolic Acid – Braided & Coated.
Colour: Violet & undyed.
Coating: Calcium Stearate & Polycaprolactone.
Sterilization: Ethylene Oxide.
Shelf Life: 5 years

Features

- ▶ Absorbed by Hydrolysis, Absorption within 60–90 days
- ▶ Minimal tissue reaction.
- ▶ Coating ensures smooth tissue passage.
Outstanding pliability.

Packing

- ▶ Dry
- ▶ Primary packaging – Aluminium Foil.
- ▶ Secondary packaging:
Medical grade paper & Polyester laminated poly film.
- ▶ Packs of 12 pcs

WELCH ALLYN PANOPTIK

Revolutionary concept for visualising the fundus

- illumination system converges the light to a point at the cornea, allowing
- easy entry into small, undilated pupils
- the illumination pathway then diverges to the retina, illuminating a very
- wide area of the fundus
- provides a 5-times larger view of the fundus than with a standard
- ophthalmoscope in an undilated eye
- enables a 25-degree field-of-view
- greater working distance improves the comfort of both examiner and patient
- the dynamic focusing wheel adjusts the focus in a continuous, smooth action
- for more precise control
- focusing range of -20 to +20 diopters

WELCH ALLYN PANOPTIK w/o Battery Handle

301145

Adaptor WELCH-ALLYN to HEINE Battery Handle

302046

WELCH ALLYN Battery Handle for PanOptik and Video Oscope

302045

HEINE OMEGA 500 BINOCULAR INDIRECT OPHTHALMOSCOPE

Based on the market leading Omega 180 the Omega 500 has been optimised for even clearer views of the fundus. A new multicoated illumination system incorporating Xenon Halogen technology, minimises reflex off the cornea and produces high resolution images

- super light weight
- only 450g

173480

HEINE OMEGA 500 unplugged with headband battery

100% freedom of movement

- no cable connections!

The OMEGA 500 ophthalmoscope with mPack UNPLUGGED rechargeable battery allows one-of-a-kind mobility without restriction or hindrance caused by cables, cords, or similar connections. In addition, the OMEGA 500 with mPack UNPLUGGED is the lightest indirect ophthalmoscope of its kind on the market! Direct operation possible while charging through the use of the mobile plug-in transformer. LED charge status indicator. LED indication of remaining operating time. Lightweight with balanced weight distribution. High level of comfort. Charging time 2 hours.

KOWA GENESIS-D HANDHELD DIGITAL RETINAL CAMERA

Small, lightweight, single handed operation for professional documentation

- high resolution (2 megapixel)
- high resolution 2.5" LCD
- recording media: Compact Flash or via USB
- lightweight (only 1070g)
- with diopter adjustment
- Xenon flash-light

173530

Footswitch for GENESIS-D

173531

Tonometer

173560

REICHERT TONO-PEN VET

Applanation Tonometer for the measurement of intraocular pressure

- ideal instrument to screen intraocular pressure
- the easiest way to detect glaucoma
- the patient can be positioned in any way
- fast and accurate IOP measurement with minimal training
- large and easy-to-read display
- less cornea irritation due to smaller sensor
- disposable covers to eliminate cross contamination
- range of measurements: 5–80mm Hg
- lightweight (only 64 g)
- maintenance free
- including OCU-Film tip covers, 150/box

173560

OCU-FILM Tip Covers, 150/box

173565

TONOMETER AVIA

Combines all benefits of the TONOPEN Vet plus:

- ergonomic design
- long lasting battery (more than 2500 measurements)
- no daily calibration
- large display on both sides
- ideal for the ophthalmic specialist

173600

SCHIOETZ TONOMETER

- original improved model with 2 weights
- for intraocular pressure screening
- contains full instructions for use

173551

TEAR TEST

SCHIRMER Tear Test, 100 stripes/box

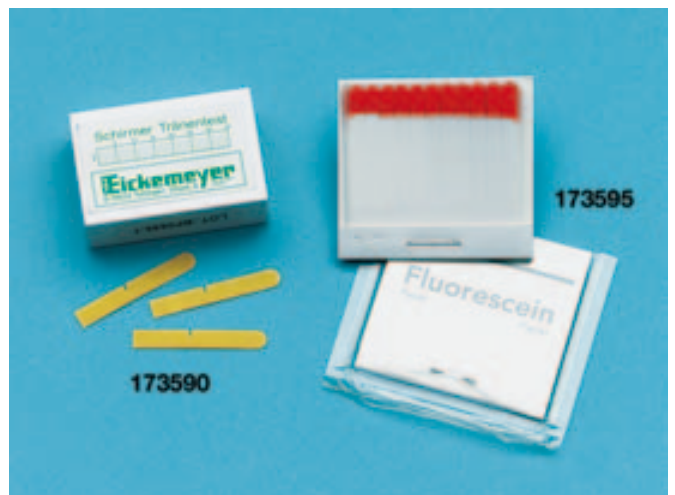

- physiological area: 10–20mm
- suspicious area: < 10mm
- profoundly path. altered: < 5mm(“dry eye“)

173590

FLUORESCEIN Test, 10 blocks with 100 stripes/block

- slight dyeing of the cornea

173595

GONIOSCOPY LENSES

- examination of the eye
- easy to handle
- specially designed for small animals

KOEPPE, 17mm

173574

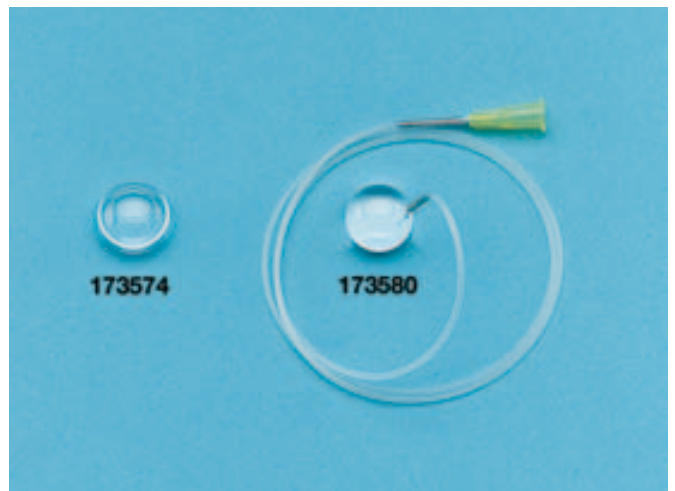

KOEPPE, 18mm

173575

BARKAN

- hydrostatic pressure attaches lens to cornea

173580

173585

EICKEMEYER ERG-SYSTEM

- hereditary and acquired disorders of the retina can be evaluated
- useful in determining if retinal surgery is recommended
- complete ERG and VEP testing
- provides accurate data
- easy to use
- connectable to any PC or Notebook (Win98 or higher)
- incl. white stimulus, 9 disposable lens electrodes and one needle electrode

ERG/VEP System

173585

Needle electrode 12mm 0.28 GA

173586

Disposable lens electrode, 3/box

173587

SURGICAL MICROSCOPE

A new dimension in micro and eye surgery

- ergonomic construction gives a you relaxed comfortable position even when operating for long periods
- 5 magnifying steps:
3.6x/ 5.4x/ 8.9x/ 14.2x/ 22.3x
- Visual field = 56–9mm
- integrated light source, 150 W, delivers bright light
- Micro-focusing 40mm, motorised, pedal operated
- mobile floor stand with 5 lockable castors provides excellent mobility
- available with wall mounting on request

Operating microscope with Electronic Zoom
328140

MAGNIFYING LOUPE

VETERINARY STEREO Magnifying Loupe

- 2.2x magnification
- working distance: 200mm
- lightweight
- can be worn over regular glasses

310602

ESCHENBACH Binocular Loupe

Mounted Galilean systems for near vision

- 4x magnification
- visual field: 35mm / 250mm
- working distance: 250mm

310704

Magnifying Glasses: Glasses, Binocular Loupes

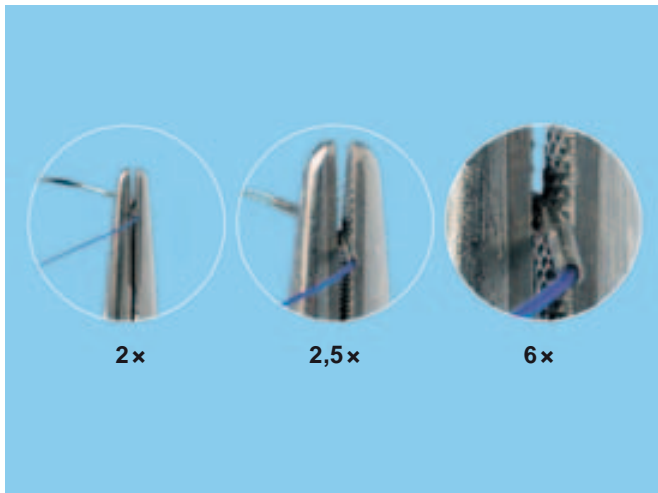

MAGNIFYING GLASSES MAX DETAIL

The economic glasses for demanding detailed work

- Magnification: 2.0 x
- very simple to use due to large PD tolerance range
- large distance of use = approx. 40cm
- weight = only 40g
- also suitable for spectacle wearers as they have right and left dioptre compensation which can be separately adjusted

310600

A GUIDE TO MAGNIFICATION SELECTION

Simply select the lowest magnification that will meet your needs. The lower the magnification, the larger the field of view, and the easier the loupe will be to use. Then determine your working distance, which will also automatically determine your field of view. To determine your working distance, assume a comfortable, posture-correct position for the intended loupe application and determine the distance between your eyes and your working area. Using the chart below, match this distance with the nearest nominal working distance option shown beside the magnification you chose.

Note: The closer the loupes are O3. Finally, select your preferred mounting option, Spectacle Frame or Headband. All options offer the user flexibility and adaptability for precise optical position, alignment and performance.

HEINE HR S-FRAME BINOCULAR LOUPE

- 2.5x magnification, working distance 420mm
- Maximum comfort thanks to modern, ergonomic design
- State-of-the art technologies and innovative materials
- Low weight (only 42g)

310707

HEINE LED Loupelight

- powered by 3.5V HEINE battery or rechargeable handle. Fully portable.

310708

MAGNIFYING GLASSES HEINE HR

like 310707, but with lightweight headband
310710

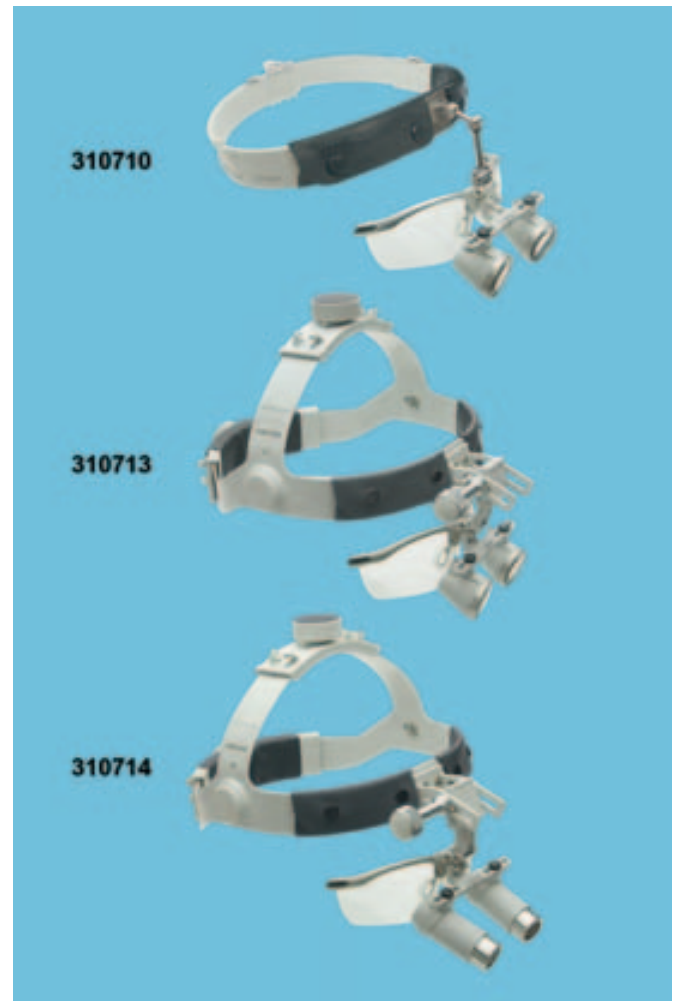

like 310707, but with headband professional L
310713

4× magnification and 340mm working distance
 - with lightweight headband
not illustrated
310711

6× magnification and 340mm working distance
 - with lightweight headband
not illustrated
310712

4× magnification and 340mm working distance
 - with headband Professional L
310714

6× magnification and 340mm working distance
 - with headband Professional L
not illustrated
310715

WELCH ALLYN HEADLIGHT

- cool, bright light for excellent evaluation of tissue colour and structure
- focusable light field of appx. 10cm
- working distance: 30cm
- positioning individually adjustable
- soft headband with Velcro closure
- rechargeable lithium-battery incl. net plug, integrated in the headband
- longlasting lamp

With white headband

311100

External battery power pack. Up to 4 hrs. of continuous illumination
311101

FIBRE OPTIC HEADLIGHT

- fits to universal fibre light cable 306518/20/30 (see page 167)
 - with comfortable headband
 - please inform us about your light source
- 311120**

Headlamp, Headlight

HEINE 3S LED HEADLIGHT

- Reference colour temperature of 6.000 Kelvin and an extraordinary 30.000 Lux of illumination
- compact design ensures clear, unobstructed co-axial illumination
 - weight: only 70g
 - continuously adjustable spot size and brightness control
 - mains or portable power supply
 - integrated attachment options for HR/HRP Binocular Loupes and Prism for Video

311130

like 310707, but with lightweight headband

311132

Guard for 3S-LED Headlight

311131

Unplugged (no cables, headband integrated high capacity battery pack) with Headband Professional L

311133

HEADLIGHT EQUI-LITE

- portable Halogen Headlight System
- integrated bulb cooling
- heavy duty but lightweight aluminium body
- including power supply

177721

SUPERLIGHT HEADLIGHT

With LED-lighting technology

- ultra lightweight, only 70g (incl. batteries)
- bright, white light for optimal illumination of the treatment area
- LED's last for several years of continuous use

Cellulose Spears, Cryosurgery

CELLULOSE SPEARS

- extremely absorbent

Cellulose Spears, wedge-shaped, 200/box
166520

Cellulose Spears, round, length 66mm,
diam. 5mm, pointed tips, 500/box
166530

KRYOSURGERY "CRYO-STICK"

The Cryostick is an evolutionary lightweight multifunctional instrument made up of a cartridge and a body.

- extremely precise, with a constant penetrating temperature of -89°C during work
- rare scares
- ideal for ophthalmic and dermatologic procedures
- special cartridge prevents loss of N_2O

Including 1 cartridge

173443

N_2O Cartridge

173444

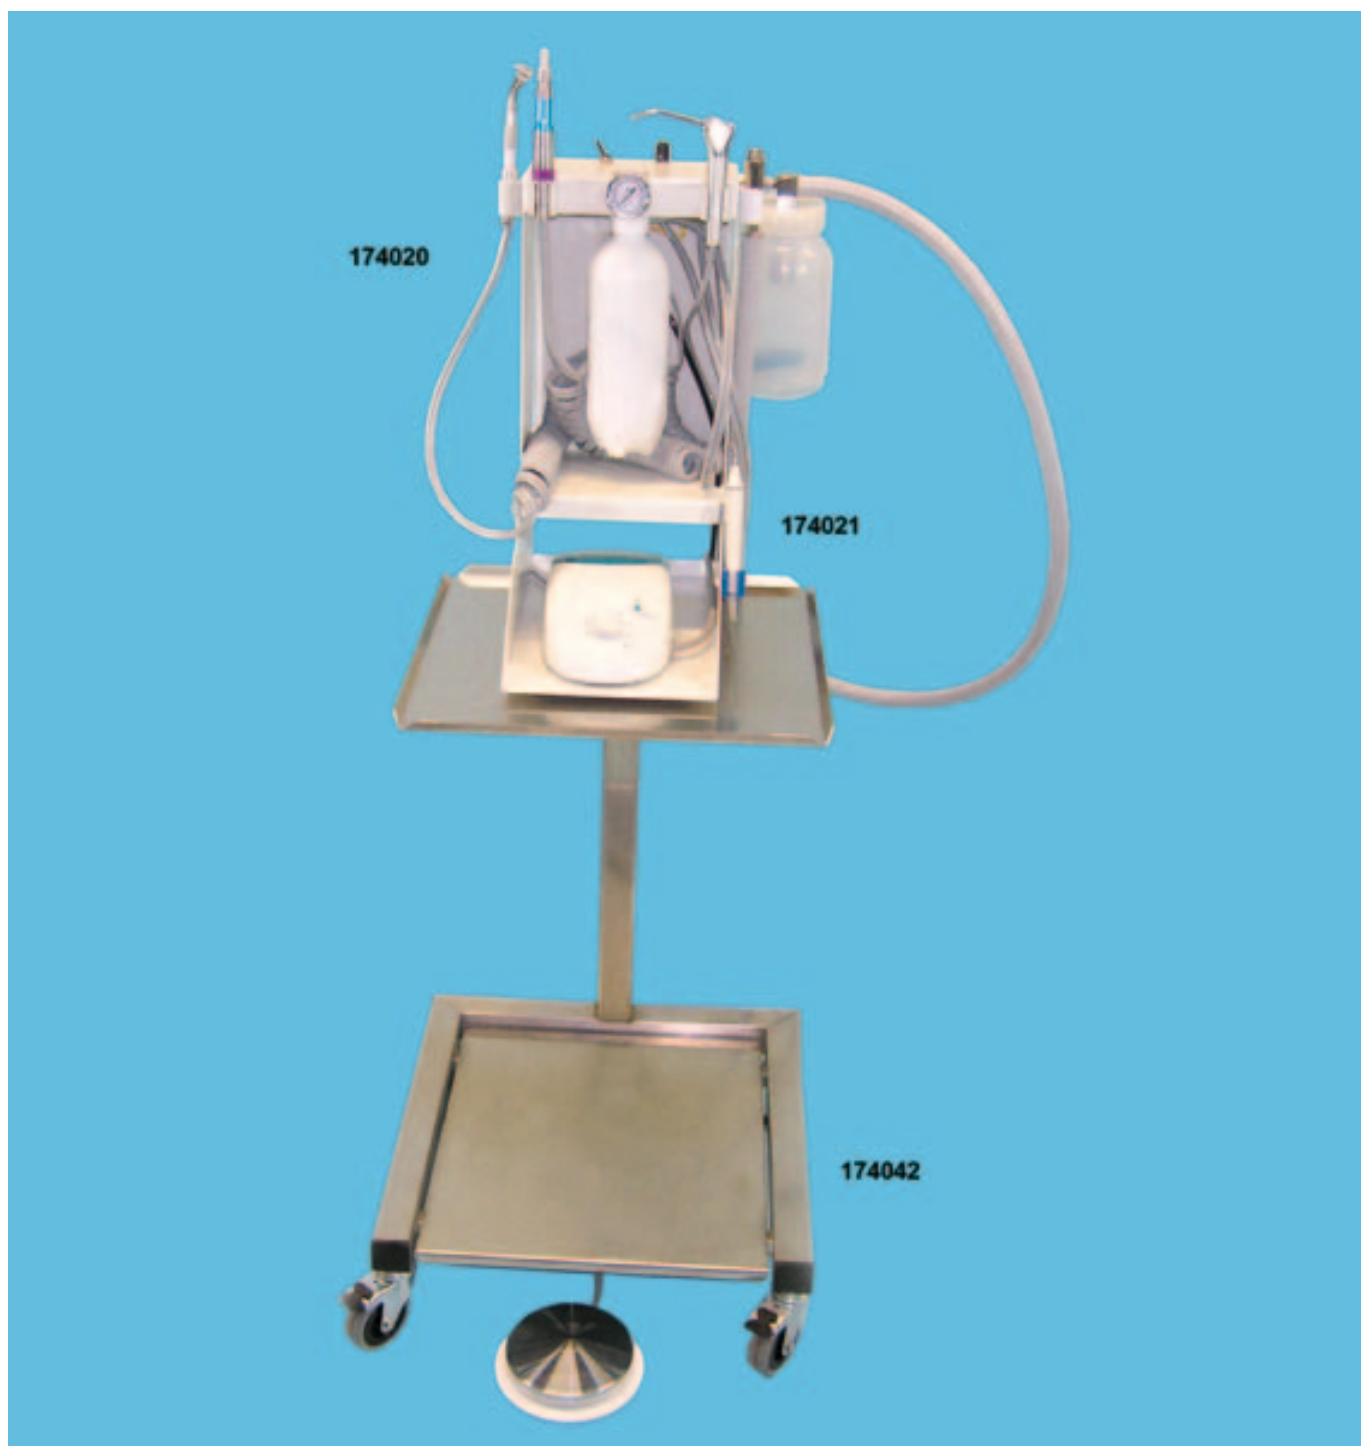

State of the art continuing education centre in Tuttlingen, Germany

Since 1985 almost 10.000 veterinary professionals from all over the world have attended our courses.

Theory lectures, practical demonstrations and hands-on veterinary seminars in full operating theatre facilities provide the maximum learning in the minimum time.

DENTAL CARE UNIT EICKEMEYER PROFIDENT PLUS

Compact unit for professional animal dental care

- high-speed handpiece (water-cooled) up to 400.000 rpm
- straight low-speed handpiece up to 20.000 rpm
- water flow control
- 3-way air/water syringe
- attachment for prophy cups
- integral suction unit with tank
- easy to fill water tank
- foot switch
- unit will be delivered ready for use – just connect a compressor
- table top or wall mountable
- stand not included

Dental Care Unit PROFIDENT Plus

174020

Scaling Extension to 174020 including EICKSONIC Ultrasonic Scaler

174021

Complete stainless steel stand with 4 lockable casters

174042

Disposable Suction Tube, 3 pcs./pack.

174048

Handpieces, Compressor

CONTRA ANGLE HANDPIECES

High-speed Handpiece, friction grip (FG), with key, water cooled, up to 400.000 rpm

- good quality
- reasonable price

174055

Low-speed Handpiece, to use with SCHEIN/PROFIDENT Units, fits burs and polisher with contra angled shaft

not illustrated

174061

STRAIGHT HANDPIECES

Straight Handpiece incl. Low-speed Air Motor, max 20.000 rpm

- used e.g. to cut rabbit teeth
- best price performance

174060

Single Straight Handpiece for use with Snap On Propy Head (174063) and Propy Cups (174014)

not illustrated

17406001

SNAP-ON PROPHY HEAD

Fits on Low-speed Handpieces 174060 and 17406001, for Propy Cups 174065

174063

Disposable, Snap-On Propy Cups for Propy Head (174063), 36/box

174065

COMPRESSOR FOR DENTAL CARE UNITS

340 Watt, 230V, 8 bar, 50L/Min

- silent operation
- compact
- low maintenance
- powerful
- to use with PROFIDENT Plus (174020)

174052

Air Filter

- reduces oil emission to almost 0%
- to extend the life of your handpieces

174043

DENTAL MICROMOTOR EICKEMEYER

- compact and powerful motor
- high-performance 0–35.000 rpm
- variable speed control
- clockwise and counter-clockwise rotation
- best value for money
- including foot switch

Micromotor EICKEMEYER incl. foot switch
174025

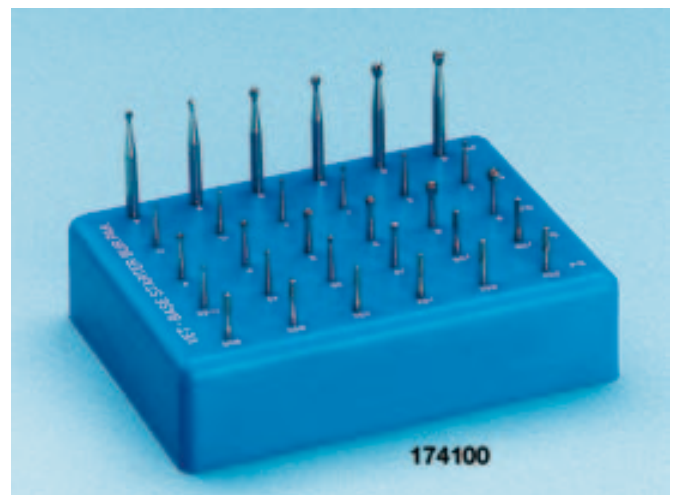

Handpiece, contra angle, autoclavable
174026

Handpiece, straight, autoclavable
174027

STARTER BUR KIT

Including burs for straight handpiece and burs with friction grip (FG) for previously high speed contra angle handpieces
174100

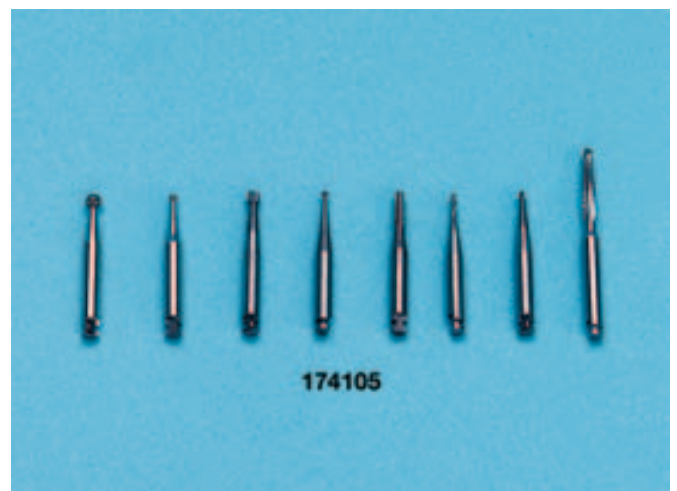

VETERINARY BUR KIT

For low-speed contra angle handpiece, containing:

- 1× diamond bur, size 12
- 1× diamond bur, size 23
- 1× cone bur, size 12
- 1× cone bur, size 18
- 1× straight dome bur, size 8
- 1× straight dome bur, size 12
- 1× wheel-type bur, size 12
- 1× bur, LINDEMANN pattern

174105

Bur Kits, Bur Guard, Cutting Disc

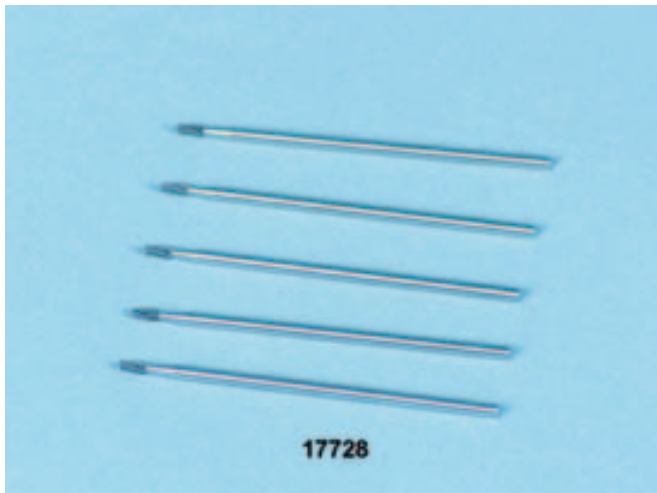

CARBIDE BUR KIT

For LOW-SPEED handpiece, containing:

- 1 excavating bur, size 18
- 1 tapered bur, size 14
- 1 tapered bur, size 23
- 1 cone bur, size 12
- 1 cone bur, size 21

174205

BUR KIT FOR RODENTS

For LOW-SPEED handpiece

- extra long shaft
- length = 44.5mm

177280

BUR GUARD

Mucosa protection – fits on straight handpiece

- prevents injuries caused by drilling

177282

DIAMOND CUTTING DISC SUPERFLEX

flexible, assembled

For straight handpiece

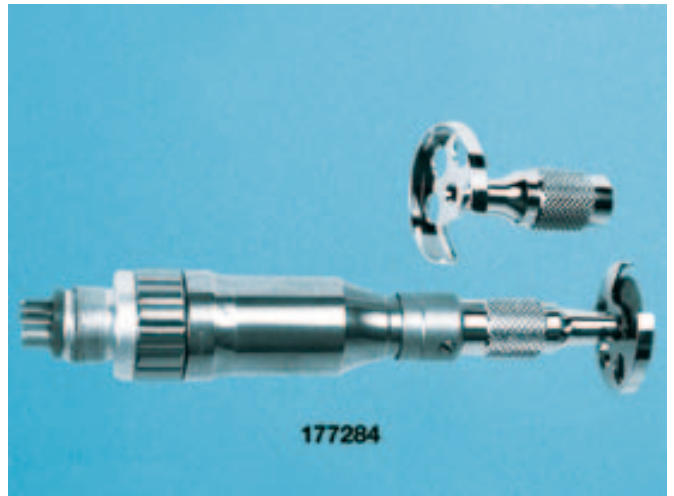

174450

For contra angle handpiece

174451

SAFETY SHIELD FOR DIAMOND DISC

Attaches to the handpiece
- prevents injury to the Vet and patient
- w/o handpiece
177284

ANTI-DUST SPRAY

Anti-Dust Spray, 500ml, incl. spray nozzle
174880

CLEANING BRUSH

To clean burs, drills and milling cutters
174908

OIL SPRAY FOR ROTATING INSTRUMENTS

Spray for handpieces, 250ml, w/o adapter
174010

Adapter for contra angle handpieces
not illustrated
174011

Adapter for high-speed handpieces
not illustrated
174012

Guttapercha Points, Dental Root Set, Expansion Screw

GUTTAPERCHA-POINTS

- coloured
- for cats and dogs
- easy to open packaging

28mm, Set ISO 15–40

174816

28mm, Set ISO 45–80

174817

Absorbent Points medium, 55mm, 100/box

174803

GUTTAPERCHA-POINTS

55mm, 150 pcs assortment

- extra large for dogs

174813

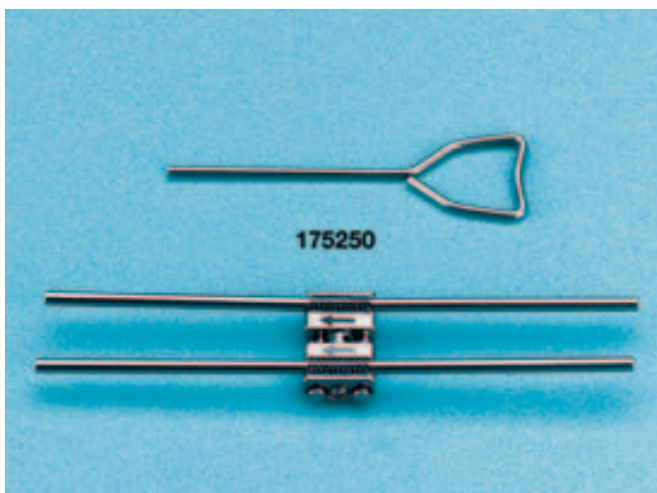

DENTAL ROOT SET 60MM

For small animals

containing:

- 5x HEDSTROM file ISO 20/30/40/50/80
- 2x Lentulo, medium
- 1x Nerve Needle

174814

EXPANSION SCREW

With short (15mm) and long (21mm) screw and wrench

175250

DENTAL PROTECTION SHIELD

Perfect protection during dental treatment, including 3 exchangeable visors
- convenient for all dental procedures
940000

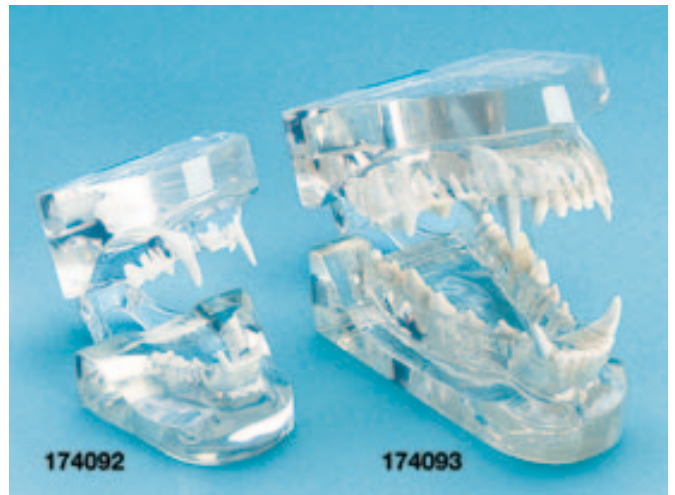

DENTAL MODELS

Transparent canine/feline dental models
- durable acrylic
- three dimensional view
- enables veterinarians to demonstrate the necessity of dental treatment

not illustrated

176405

Hatchet shaped, sharp, heavy

176406

ULTRASONIC SCALER BANDELIN SONADENT C

With handle and 2 inserts

(universal and spatula tip)

Ultrasonic scaling equipment especially for
application in veterinary medicine

- dental scaler with high performance.
- long lasting titan nitride coated tips
- light weight handpiece

176800

Quick Release Attachment

- quick-change valve (for SONADENT / P5
BOOSTER / COCOON / EICKSONIC)

177000

Foot switch for SONADENT

177101

Handpiece with Finger Switch for SONADENT

177105

Ultrasonic Scalers

TIPS FOR SONADENT

Scaler Tip ML61, for SONADENT C, lengthwise
- for general scaling

176903

Scaler Tip ML16,
for SONADENT C,
spatula type
- for subgingival scaling

176904

Scaler Tip ML60, for SONADENT SD3A/SD3B,
lengthwise

176901

Scaler Tip ML15, for SONADENT SD3A/SD3B,
spatula type

176902

Urinary Tip HZ 13 LE, working length = 145mm

- to pulverise wedged calculus
- less traumatic than general surgery

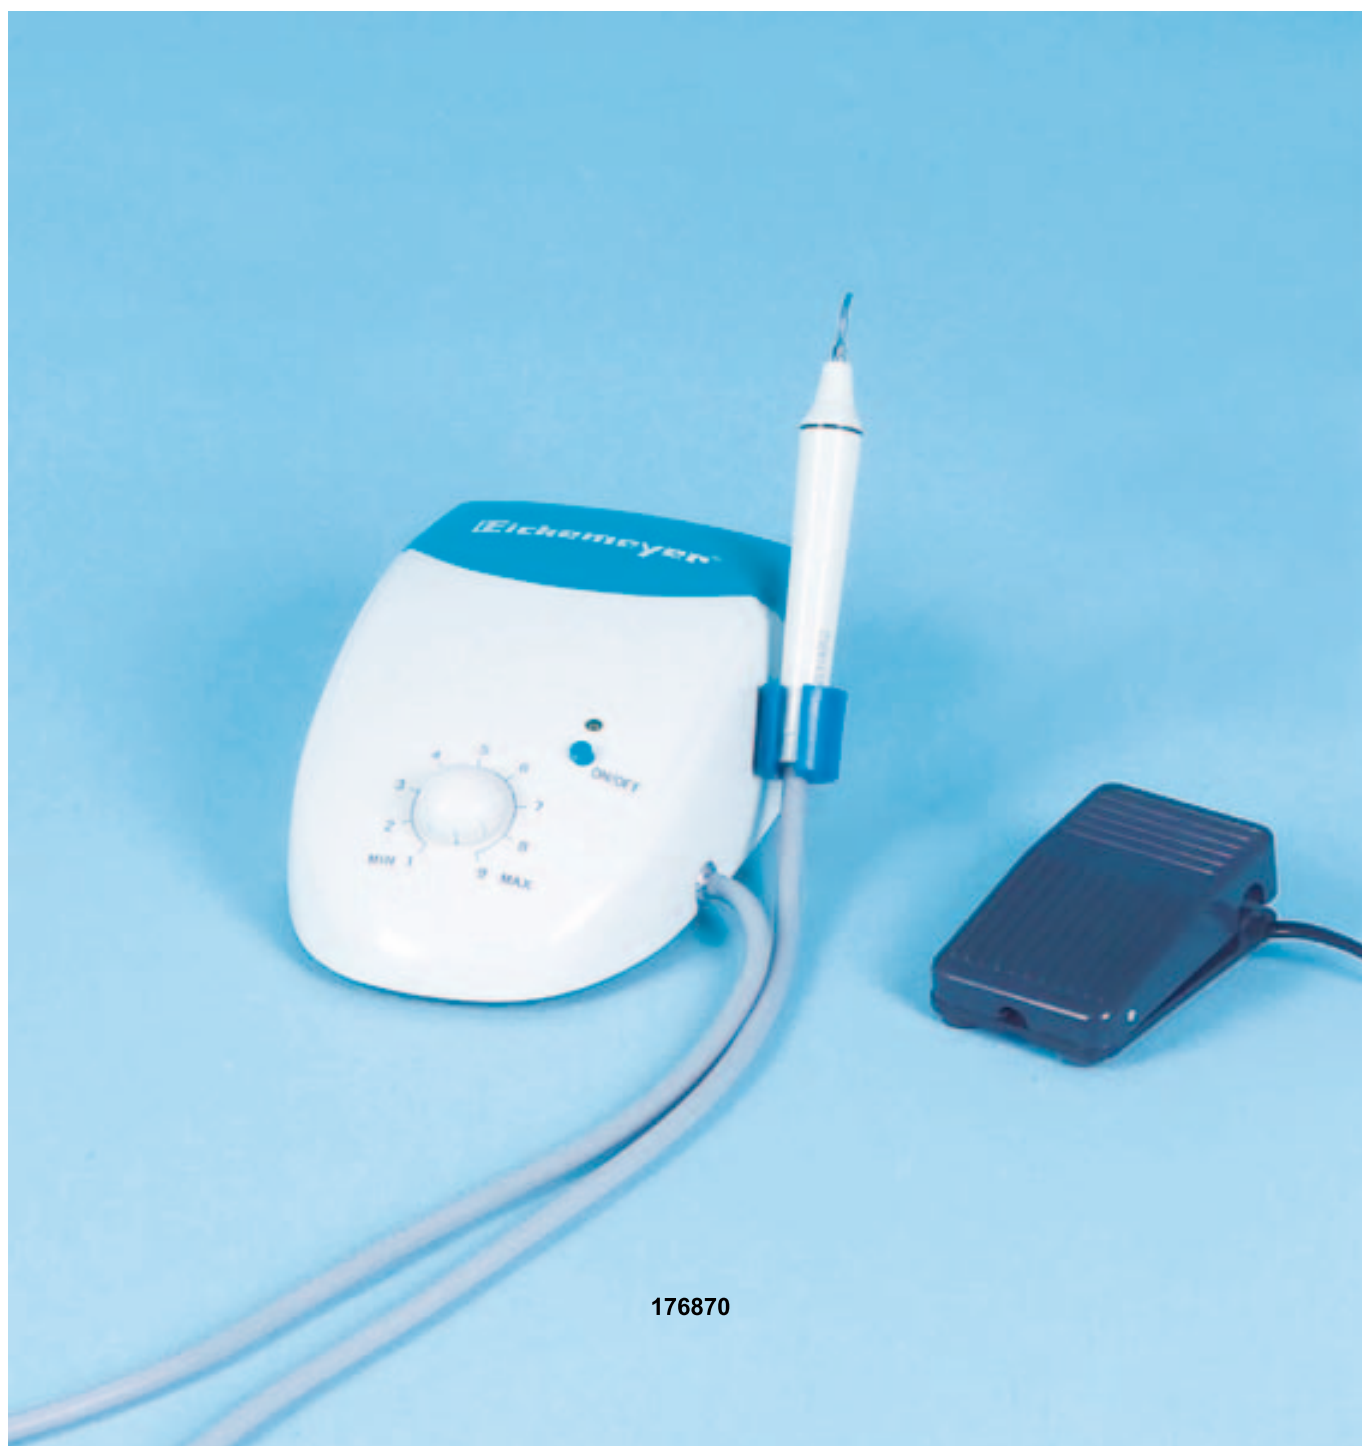

176914

*Just plug in
the new processor
and fill it with chemicals
and the ECOMAX
is ready for operation.*

VEEickemeyer®

So ingeniously simple.

176870

ULTRASONIC SCALER EICKSONIC

- compact and light design
- ease of use
- modern Piezo-Technology
- control switch for easy water flow adjustment
- water source required (e.g. 176875)
- including 5 scaling tips
- very reasonable price

Ultrasonic Scaler EICKSONIC

176870

Scaler Tip No. 1 for 176870, flat, sharp

176871

Scaler Tip No. 2 for 176870, flat, wide

176872

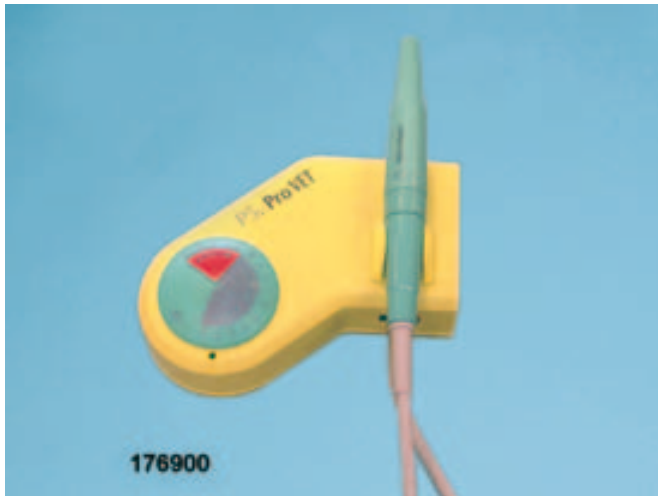

Scaler Tip No. 3 for 176870, pointed

176873

Pump up Portable Water Tank for 176870, 5 litre, max. 3 bar

176875

Ultrasonic Scalers, Water Container, Dental Tray

ULTRASONIC SCALER P5 BOOSTER

- the world's smallest Ultrasonic Scaler
- easy to handle with turn-switch adjustable in 4 steps and 14 power levels
- ultrasonic frequency precisely adjustable
- easy to clean
- lightweight titanium handle

P5 BOOSTER with handle and scalering Tip No.1
176900

TIPS FOR P5 BOOSTER AND COCOON

not illustrated

17690007

Urinary Tip for cats, curved
not illustrated

17690008

Urinary Tip for dogs, large (150mm)
not illustrated

17690009

PORTABLE WATER TANK

- 5 litre
- stainless steel pressure tank, 2–5 bar
- D = 17cm, height: 53cm

177100

5 litre, with quick release coupling, plastic
not illustrated

17690002

Screw Adaptor M10 x 1,5, coupling nut for
portable water tank No. 177100

- fits on P5 BOOSTER and SONADENT
not illustrated

17710001

DENTAL TRAY

- Dimensions: L = 39x W = 35x H = 4.5cm
- stops water soaking back on to patient
 - comfortable positioning of the patients head
 - removable grate
 - easy to clean and disinfect
- 177200**

PROPHY PASTE AND CUPS

- perfectly shiny teeth with a highly polished enamel surface
- prophylaxis to tartar build up

Prophy Paste
176780

Rubber Prophy Cups Kit, containing:
 3x Brownie, 2x Greenie, 1x Super Greenie
 cupform and mini-point
176785

RODENT MOUTH GAGS

Ideal for examination and treatment of
 rabbit molars

SCHMIDTKE, 11.5cm, lightweight
177303

11cm, heavy model
177304

RODENT MOUTH GAG

Heavy model, 11cm, with ratchet, modified acc.
 to BIRKLE

- self retaining
 - one-hand-use
 - easy and fast locking/opening
- 177330**

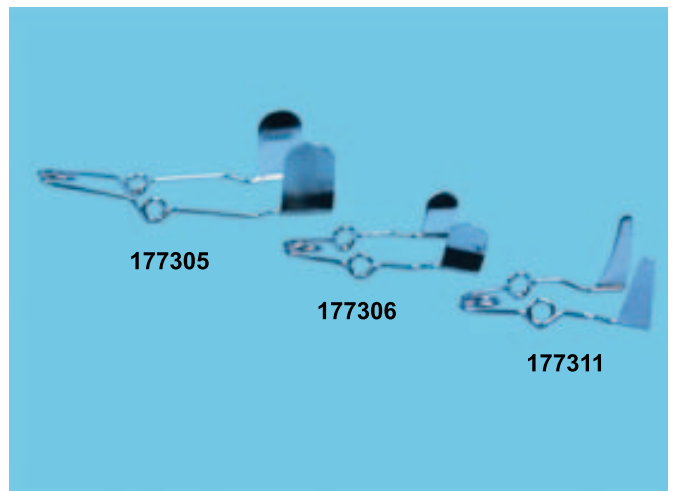

RODENT CHEEK DILATORS

Cheek Dilator, large
 - blade width = 15mm / length = 21mm
177305

Cheek Dilator, small
 - blade width = 11mm / length = 14mm
177306

Cheek Dilator, for chinchillas and guinea pigs
 - blade width = 4mm (tip) / 9mm (back) /
 length = 21mm
177311

Cheek Dilator, small
 - with long blades
 - blade width = 10mm / length = 35mm
not illustrated
177310

Tongue Spatula, Molar Cutters

TONGUE SPATULA

Tongue spatula, 17.5cm

Equine Dental Forceps

WORLD WIDE EQUINE MOLAR FORCEPS

- 48cm, serrated, short jaw, box joint, stainless steel
- with knurled handles
- engineered to be used with one or two hands
- fits short crowned molars and premolar caps well

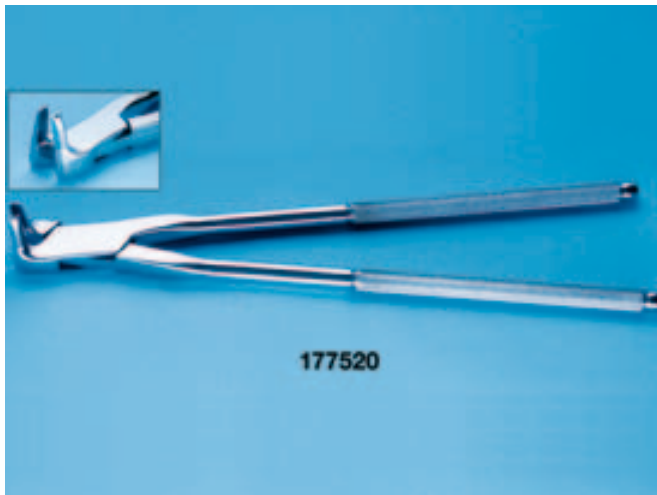

177518

WORLD WIDE EQUINE MOLAR FORCEPS

- 48cm, concave, long jaw, box joint, stainless steel
- concave with knurled handles
- fits higher crowned molars well

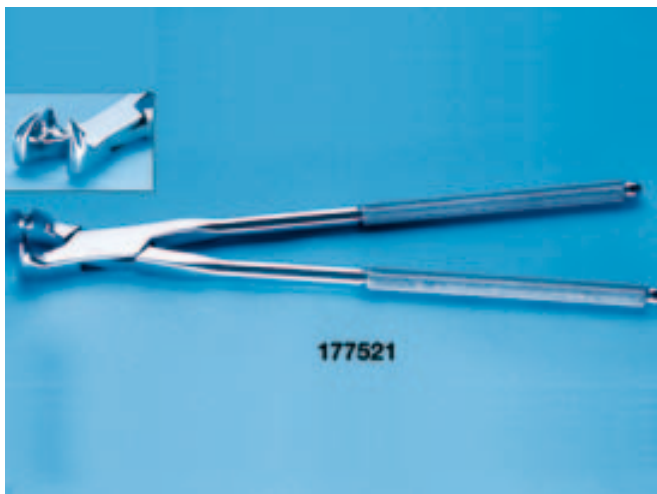

177519

WORLD WIDE EQUINE ROOT FRAGMENT FORCEPS

- 46cm, short jaw, box joint, stainless steel
- with knurled handles
- used for removal of split and fractured molars

177520

WORLD WIDE EQUINE MOLAR FORCEPS

- 48cm, three root, box joint, "off side", stainless steel
- with knurled handles
- for molars with very little crown in aged horses and deciduous premolar caps

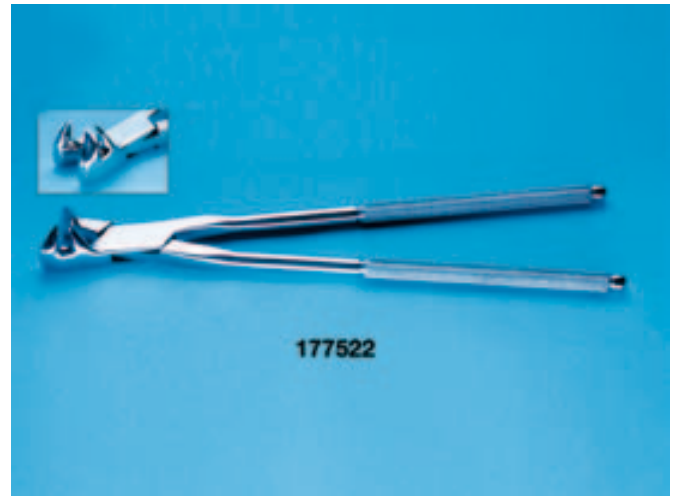

177521

WORLD WIDE EQUINE MOLAR FORCEPS

48cm, three root, box joint, "on side", stainless steel

- with knurled handles
- for molars with very little crown in aged horses and deciduous premolar caps

177522

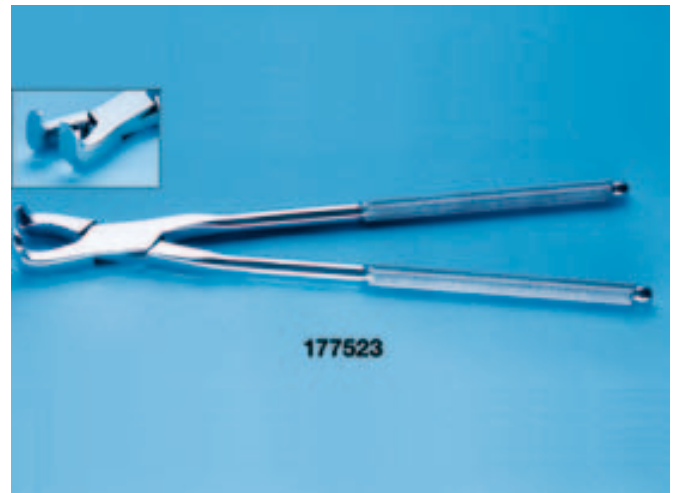

WORLD WIDE EQUINE MOLAR SPREADER

48cm, box joint, molar spreader, stainless steel

- with knurled handles
- for loosening premolar and molar teeth

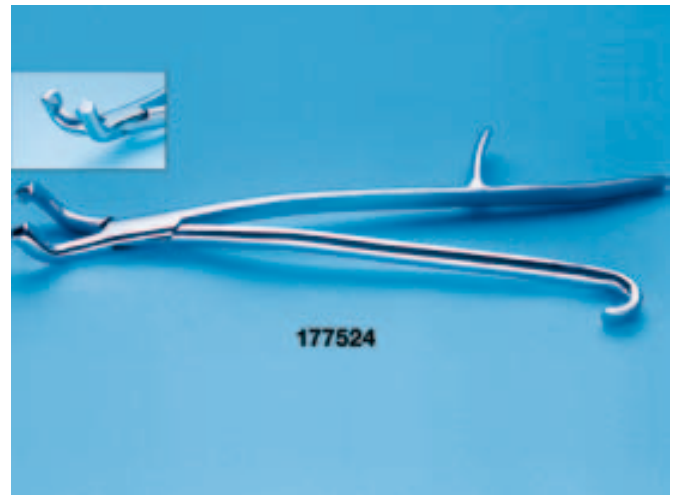

177523

WORLD WIDE EQUINE EXTRACTOR REYNOLDS STYLE

43cm, heavy model, upper

177524

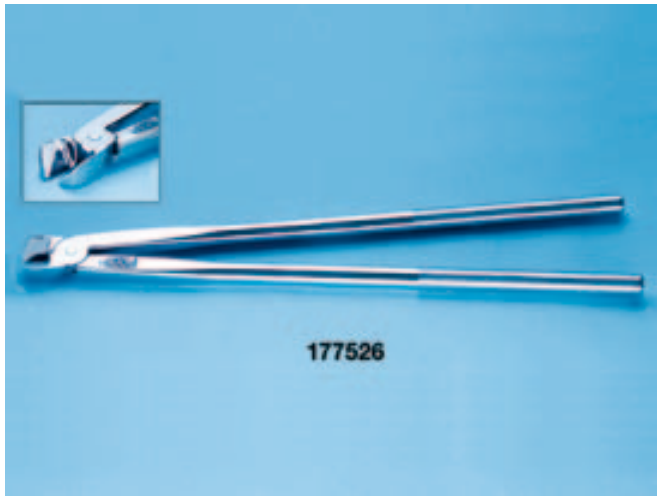

WORLD WIDE EQUINE EXTRACTOR REYNOLDS STYLE

43cm, heavy model, lower

177525

Equine Dental Forceps

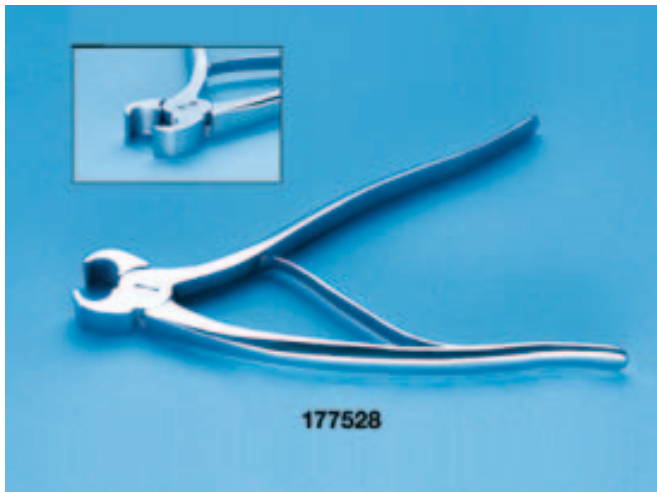

WORLD WIDE EQUINE LOWER MOLAR CUTTER

56cm, simple joint, lower molar cutter, hardened stainless steel
- with permanent handles
- works well on small back ramps and hooks
177526

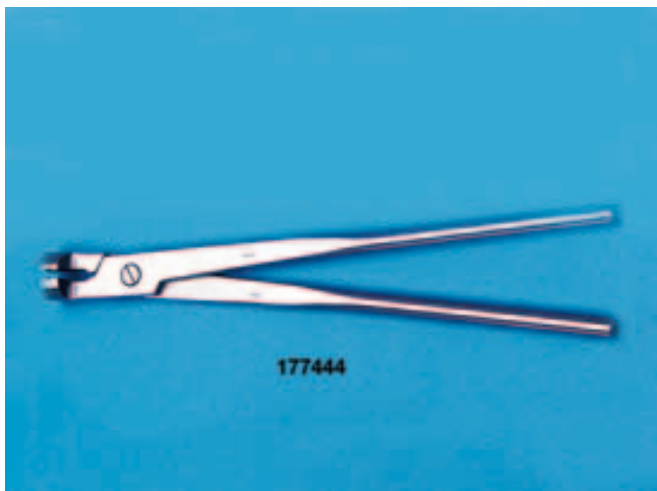

WORLD WIDE EQUINE LOWER MOLAR CUTTER

56cm, simple joint, lower molar cutter, hardened stainless steel
- with permanent handles
- slightly opened head
- best selling cutter
177527

WORLD WIDE EQUINE TOOTH FORCEPS

25cm, Incisor and Canine Cutter
- for incisors that are scored and to reduce protuberant canine teeth
177528

EQUINE EXTRACTION FORCEPS

GUENTHER, 44.5cm
177444

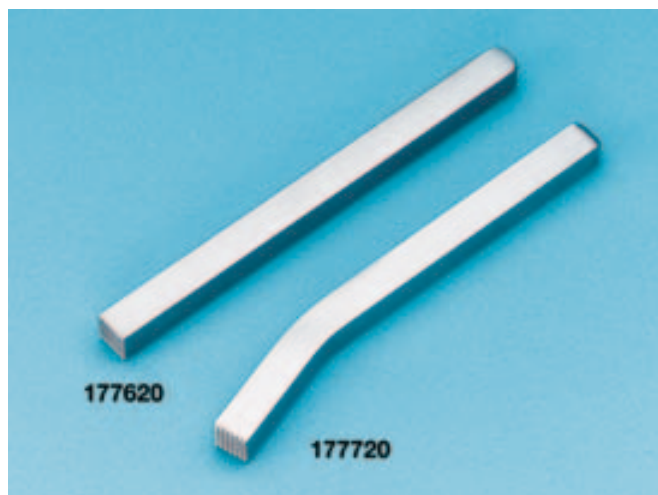

MOLAR CUTTER

- 75cm, hardened stainless steel
 - powerful compound action
 - with detachable handles for easy storage
- 177450**

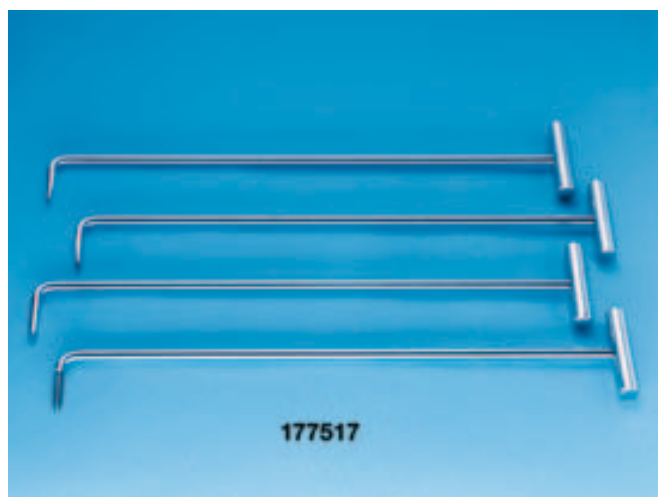

TREPHINE PUNCHES WITH SERRATED HEADS

- 20cm, straight
- 177620**
- 20cm, curved
- 177720**

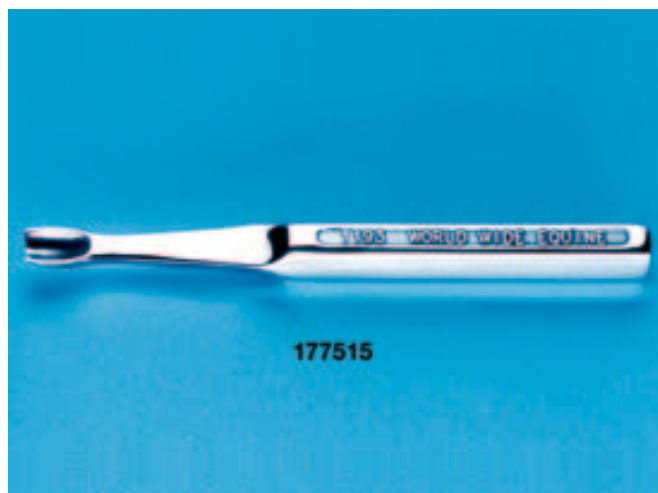

DENTAL ELEVATOR SET FOR HORSES

- contains 4 elevators (medial, lateral, posterior and anterior)
 - works well on incisor or molar fragments
 - length = 40cm
- 177517**

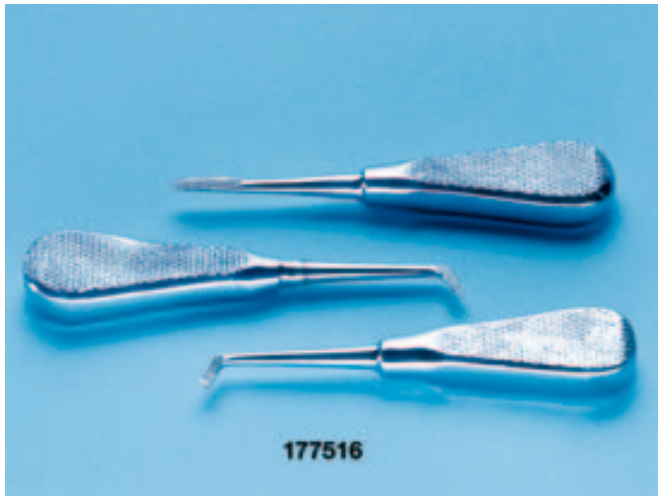

WORLD WIDE EQUINE ELEVATOR

- 8mm head
 - palm fitting hexagon handle
 - especially for elevating incisors and wolf teeth
- 177515**

Equine Elevator, Wolf Tooth Elevator Kit, Trephine, Equine Tooth Rasps

WORLD WIDE EQUINE ELEVATOR SET

- contains 3 elevators (straight, left and right)
 - for removing wolf teeth, incisors, and deciduous tooth fragments
 - length = 15cm
 - 3mm head
- 177516**

WOLF TOOTH ELEVATOR KIT

- Spare Head, small D = 8mm
177761
- Spare Head, large D = 10mm
177762

GALT TREPHINE

- With removable handle
- With cutting head 19mm + 22mm
184910
- With cutting head 19mm + 25mm
184911

WORLD WIDE EQUINE TOOTH RASP

- Pro-Lite
- 28cm, with round shaft, head angle 20°, w/o blade
177505
- 23cm, with round shaft, head angle 25°, w/o blade
177504

WORLD WIDE EQUINE TOOTH RASP

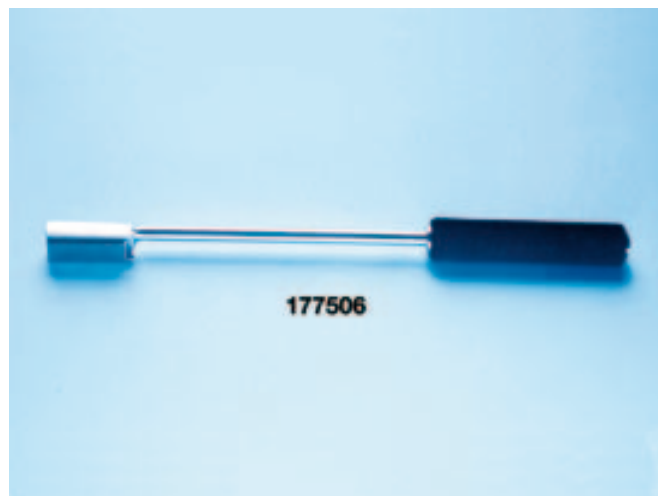

Pro-Lite

38cm, with round shaft, straight, w/o blade

177506

43cm, with round shaft, straight, w/o blade

177507

WORLD WIDE EQUINE TOOTH RASP

Slim-Line Pro-Lite

46cm, with round shaft and marking scale, head angle 15° up, with carbide blade

177510

WORLD WIDE EQUINE TOOTH RASP

Slim-Lin

23cm, with curved shaft, premolar and bit seat rasp, with carbide blade

177511

WORLD WIDE EQUINE CURVED TOOTH RASP

S-shaped, Tungsten Carbide chip

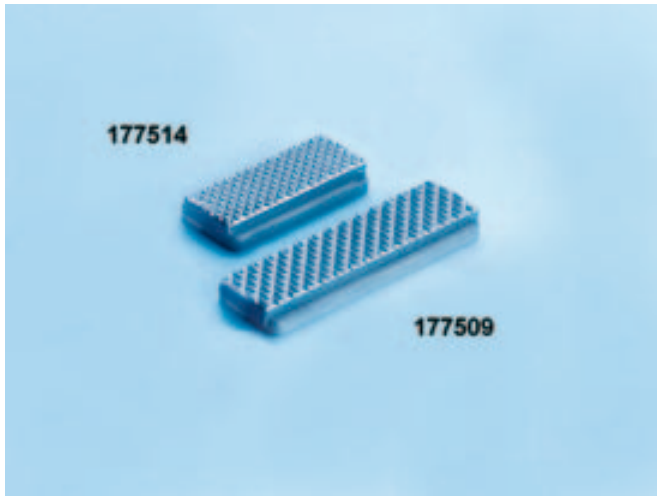

- length = 51cm

- width = 3.8cm

177512

Tooth Rasps Blades, Stainless Steel Bucket, Equine Tooth Rasps

WORLD WIDE EQUINE TOOTH RASP PLATES

Tungsten Carbide, medium, for Peo-Lite Tooth Rasp 3.25 inch

177509

Tungsten Carbide, medium, for Pro-Lite 2.25 inch

177514

EQUI VET BUCKET

Stainless steel, with integrated brush and rubber bottom

- especially for cleaning tooth rasps during treatment
- the rubber bottom keeps noise levels to a minimum around nervous animals

178390

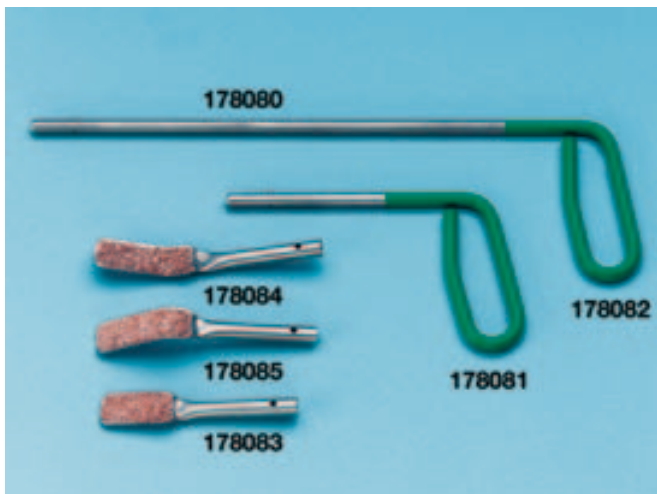

TOOTH RASP MULTIFLOAT

Dental Rasp "Multifloat"

- 12 different angles to perform all dental procedures
- angles can be easily adjusted
- no tools required
- incl. heavy duty Tungsten Carbide chip blade
- easy exchange of the blade
- complete stainless steel construction
- working length = 48cm

177600

TOOTH RASP SYSTEM EQUI DENT

EQUI DENT Set, including:

- 2 handles 17 and 40cm
- 3 exchangeable rasp tops with TC chip blades

178080

Handle short, 17cm

178081

Handle long, 40cm

178082

Top with TC chip blade, straight

178083

Top with TC chip blade, curved up, excellent for rear molars

178084

Top with TC chip blade, curved down
- for use on upper arcade molars

178085

WORLD WIDE EQUINE NYLON DENTAL HALTER

Nylon Dental Halter with quick release, double braided nylon rope and steel bar in halter for hanging heads

177555

Quick release, one handed height adjustment

177601372

177555

EQUINE TOOTH RASPS SLIMLINE

- RECHARGEABLE battery powered (up to 9000 rpm)
- special flat head for reaching the rear molars
- durable stainless steel cabinet
- ergonomic design
- overload protection
- lightweight and easy to use

SLIMLINE incl. charger

178150

Spare battery for Tooth Rasp SLIMLINE

178152

Like 17815502 but with rechargeable power-battery-pack

- lasts more than 4 hours, connectable to a car (12V)

178155

DISCS FOR TOOTH RASP SLIMLINE

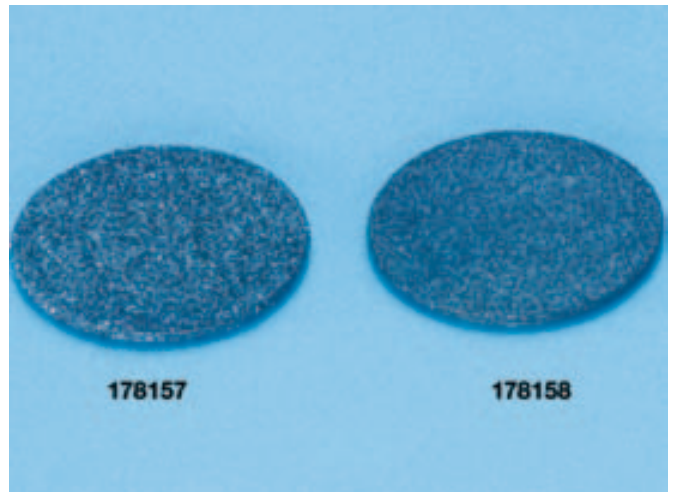

- diamond-plated
- long-lasting

Disc, coarse

178157

Disc, fine

178158

ELECTRIC TOOTH RASP SWISSFLOAT-EISENHUT

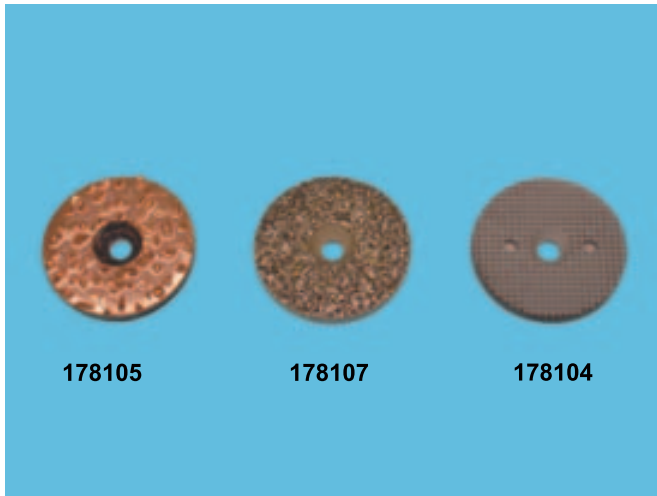

Easily reduces unevenness of equine molars

- slim model, length = 65cm
- very flat head (only 22mm)
- adjustable from 0–1900 rpm
- safety net plug
- low-noise
- saves time and energy
- incl. Tungsten Carbide disk (178104)

178111

Electric Equine Tooth Rasps

DISCS FOR SWISSFLOAT-EISENHUT

Tungsten Carbide Disc

178104

Diamond Disc, fine

- long-lasting, for more than 100 treatments
- quick and efficient

178107

Diamond Disc Golden Line, flat

- plated with diamond chips
 - long-lasting and easy to clean
- not illustrated*

178108

SuperCut Disc EICKEMEYER

not illustrated

178105

ELECTRIC TOOTH RASP EICKEMEYER

EICKEMEYER Motor with foot switch and protective switch

- high performance 300 Watts engine
- foot switch splash-water protected
- dust proof
- electronic speed regulation from 0 up to approx. 12.000 U/min.

177585

Flexible shaft for 177585, length 100cm

177586

ELECTRIC TOOTH RASP EICKEMEYER

- head and blade made of stainless steel
- handle made of aluminium
- including disc and grease gun
- low profile head
- easy handling

177580

Disc for electric toothrasp

177583

WORLD WIDE EQUINE HORSEPOWER HANDPIECE

The handpiece for professionals

- overall length = 45.5cm, shaft = 32cm
- works well in most positions on molars
- low profile head
- incl. diamond disc and guard
- fits on DREMEL/FOREDOM/EICKEMEYER motor

177551

Diamond disc for 177551

177552

Special lubricating grease for 177551

177553

Grease gun "De Luxe" for 177551

177554

**WORLD WIDE EQUINE HORESEPOWER
HANDPIECE APPLE CORE**

Motor attachment

- unguarded handpiece uses the apple core burrs for bucal cusps, bit seats and radius work on cheek teeth battery edges
- comes with a diamond coated apple core burr
- lenght = 45.5cm

177601315

**MAINTENANCE AND REPAIR OF EQUINE
DENTAL EQUIPMENT**

Eickemeyer after sales service.

You can rely on us

- fast and relieable in our own shop

HANDPIECE FOR EICKEMEYER MOTOR

EICKEMEYER Handpiece

- suitable for DREMEL engines with flexible shaft
- large hand piece with 2 draw-in attachments for 1/8" and 1/4" cutter

177531

EICKEMEYER HANDPIECE GUARD

For EICKEMEYER handpiece

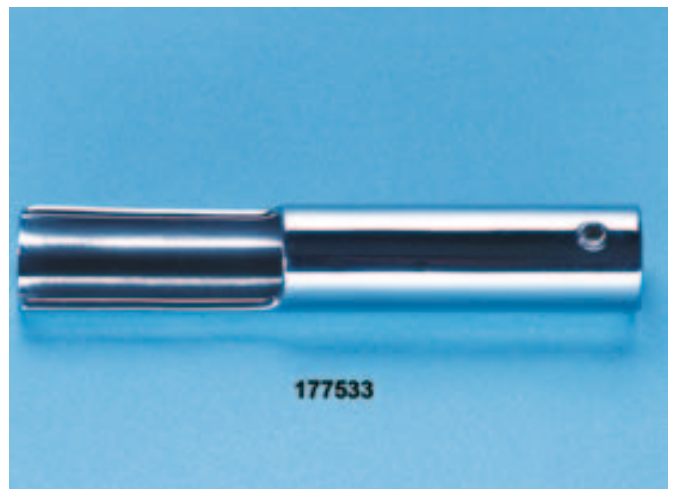

177533

Apple Core, Electric Equine Tooth Rasps

Ear Irrigation, Bulb Syringes, WOODS Lamps

AURIFLUSH EAR IRRIGATION SYSTEM

Faster, easier and more effective way to clean ears of small animals

- especially designed for veterinary use
- max. pressure 10PSI to avoid injuring the ear drum
- latex-free disposable eartips provide a tight seal within the patient's external ear canal
- water flow is regulated easily with the handle actuator
- injection port for administration of ear cleaning agents
- integrated temperature sensor
- easily attaches to most taps
- well-tolerated in unsedated dogs & cats

173940

Disposable tips for 173940, 100/box
173941

BULB SYRINGE

90ml

- red rubber
- to aspirate fluids

453690

WOODS LAMP

- maximum ultraviolet irradiance
- magnification

WOODS Lamp, 230V, 4x 40W

179010

WOODS Lamp with additional lens
(12 dpt, D = 3cm)

- fits on standard cordless drills

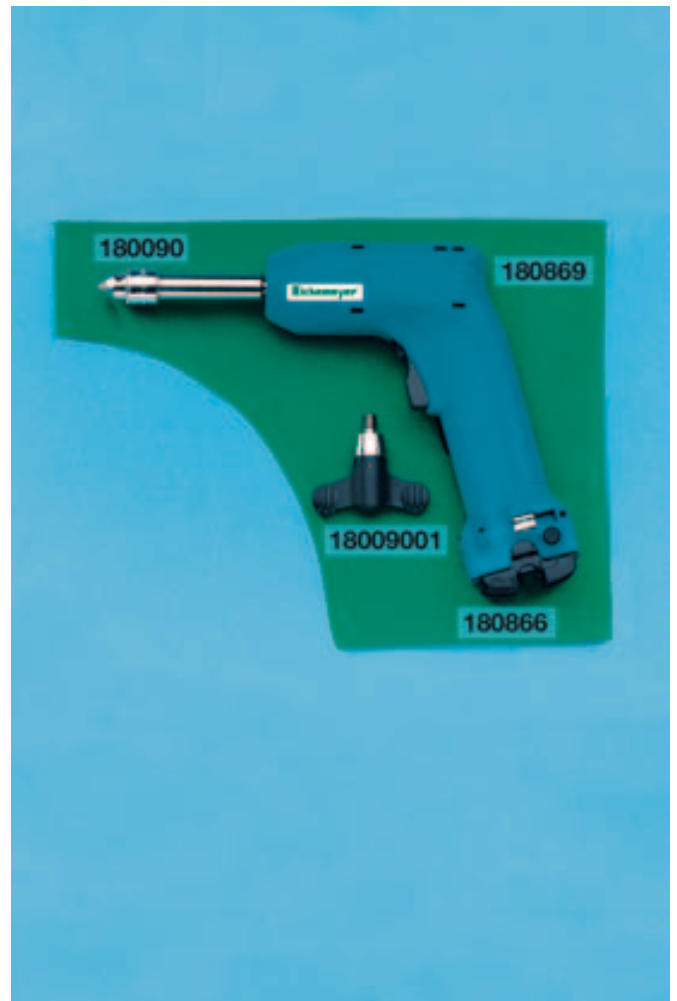

180090

Rechargeable Spare Battery for 180866

180870

T-Handle for JACOBS chuck, for small bone fractures

18009001

QUICK RELEASE CHUCK

- quick and easy instrument change
- autoclavable
- for drills, screwdrivers, etc
- fits for Square and AO-Shaft

180868

STERILISING CONTAINER

For pins up to 16cm

Sterilising container, 23x13x7cm, filter cloth inlays, stainless steel, with locking clamp

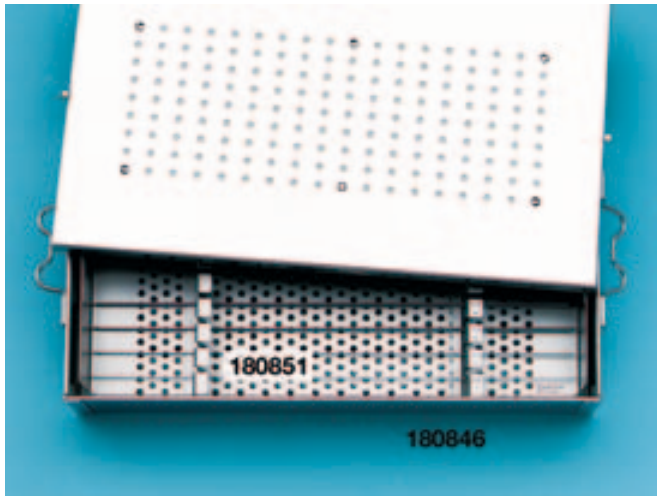

180843

Sterilising rack for pins up to D = 2.0mm, 17x9.2x2.5cm

180845

Sterilising Containers, Implant Cutters, K-Wire Cutter

STERILISING CONTAINER

For pins up to 31cm

Sterilising container 34x20x7cm, filter cloth inlays, stainless steel, with locking clamp
180846

Sterilising rack for pins up to
D = 2.5mm, 31.5x19.5x6cm
180851

IMPLANT CUTTERS

- extremely strong
- durable
- with Tungsten Carbide inserts (TC)

21.5cm, for hard wire up to D = 2.2mm
180921

22cm, for soft wire up to D = 3.5mm and hard wire up to D = 2.5mm
180922

Plate and wire cutter up to D = 3.5mm
180924

K-WIRE CUTTER HERCULES

Approved transmission of power. Rubber jaws keep the Pin ends together after cutting

- over 40% less power required
- exchangeable TC-blades and rubber jaws

HERCULES, 23cm, TC
- for pins up to 3mm
180955

HERCULES, 18cm, TC
- for pins up to 2.2mm
180960

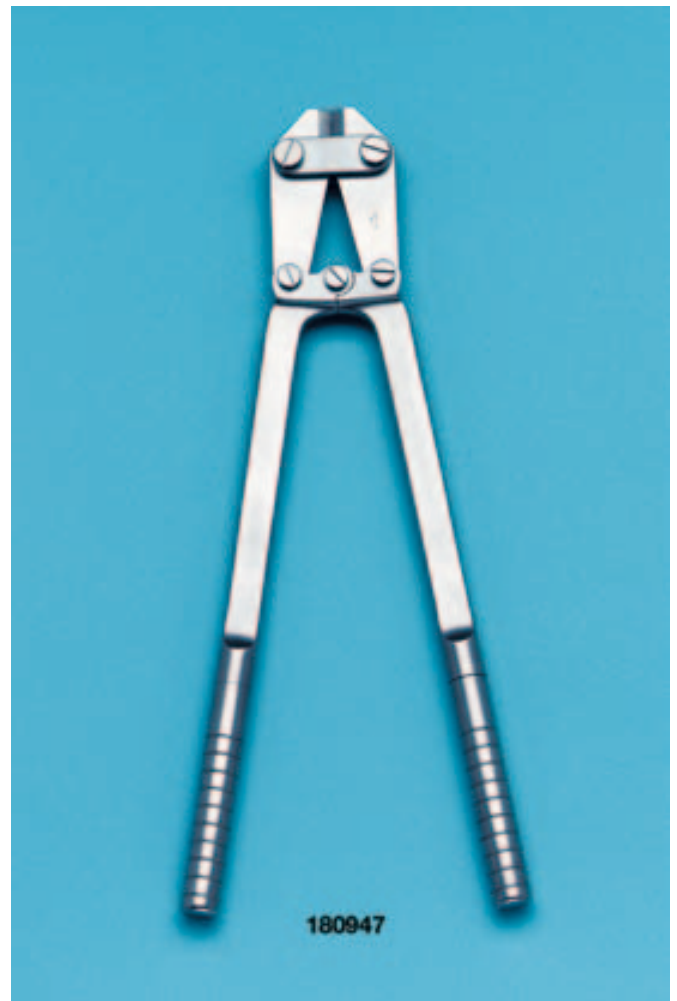

Spare Cutting Plates Set for Wire Cutter
180955
18095501

Spare Rubber Inserts Set for Wire Cutter
180955
18095502

Spare Cutting Plates Set for Wire Cutter
180960
18096001

K-WIRE CUTTER

42cm, heavy model, fits autoclave MELAG 23
- for pins up to 6mm
- stainless steel with Tungsten Carbide inserts
180947

K-WIRE BENDER

For K-wires, 12cm, ID = 2.7mm
181011

WIRE EXTRACTION FORCEPS

For K-wires, 13cm
181213

For K-wires, 18cm
181218

Cerclage Wire Forceps, Cerclage Wire

CERCLAGE WIRE FORCEPS

These forceps guarantee a safe and easy tensioning of all sizes of cerclage wire

Wire tightener, 15cm, TC

Specially designed for tension band wiring and to bend pins to minimise Backing

181315

Wire cutting and bending pliers, 16cm

181316

PARALLEL ACTION PLIERS

18.5cm

- for bending and holding

- industrial finish

- will autoclave with optical deterioration

- lubricate well prior to autoclaving

181318

CERCLAGE WIRE

- highest quality implant steel

- length = 10m

- soft bone wire

D = 0.2mm

181402

D = 0.4mm

181404

D = 0.6mm

181406

D = 0.8mm for animals up to 15kg

181408

D = 1.0mm for animals up to 40kg

181410

D = 1.2mm for animals more than 40kg

181412

D = 1.5mm

181415

Wire Cutters, Orthopaedic Wire Twister, Graft Passers, Cerclage Wire Passer

WIRE CUTTERS

- curved cutting edges with notch
- serrated
- for soft cerclage wire

12cm, with Tungsten Carbide inserts

181012

12cm

181112

ORTHOPAEDIC WIRE TWISTER LOUTE

Loute wire twister

- fits all diameter cerclage wire
- easy tightening
- automatic wire cut
- 22cm length

181622

GRAFT PASSER SCHAWALDER

Specially designed instrument for cranial crucial ligament surgery
Particularly suitable for large dogs

Head diameter = 5cm, L = 18cm

181505

Head diameter = 6cm, L = 20cm

181506

CERCLAGE WIRE PASSER / INTRODUCER SET

Wire Passer, head diameter 2.5cm, L = 21cm

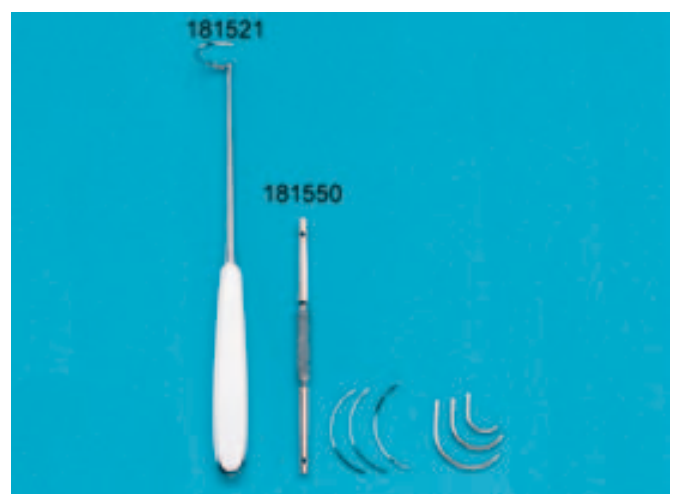

181521

SISMEY'S Wire Introducer

Set of wire passing and suture passing needles for different-sized bones

- handle, double ended (181551)
- 6 suture needles, large (181556 and 181566)
- 3 wire passers, small, medium, large

181550

Graft Passers, CCL Staple Instrument

CURVED GRAFT PASSER

For the repair of the cranial crucial ligament by the, over-the-top' technique
- to pull the graft through the stiffler joint

Head diameter 2.0cm, L = 15.5cm

181520

Head diameter 3.0cm, L = 16.5cm

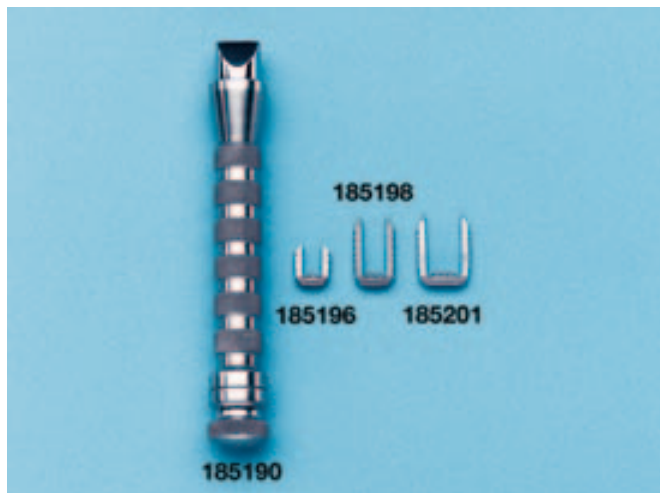

181530

Head diameter 4.5cm, L = 17.5cm

181545

Head diameter 6.0cm, L = 20.5cm

181560

CCL STAPLE INSTRUMENT

For the fixation of the fascia lata graft to the distal femur, 3 different staple sizes

CCL Staple introducer

185190

CCL Staple, L = 15mm, W = 6mm

185196

CCL Staple, L = 23mm, W = 8mm

185198

CCL Staple, L = 23mm, W = 11mm

185201

VET Eickemeyer®

Medizintechnik für Tierärzte

Our family run business has earned a worldwide reputation for the supply of state-of-the-art veterinary equipment. For nearly 50 years Eickemeyer have become experts not just in the science of veterinary medicine, but also in how to build and grow a successful practice. We have always sought to supply the finest instruments and equipment available and where we can't find a product which meets our exacting quality criteria, we design and make our own. We take the time to listen to your needs and to find solutions to the challenges of modern veterinary medicine. After all, your success is our success.

Eickemeyer Headoffice in Tuttlingen, Germany

Eickemeyer Logistic Centre in Tuttlingen, Germany

CRANIAL CRUCIAL LIGAMENT SUTURE SYSTEM

This system helps to make an enduring fixation of the cranial crucial ligament easily and without the help of an assistant

- crimp tubes instead of a large knots
- enduring stretching by strong crimp tubes
- successfully established worldwide

Set of 1 crimp tube 10mm and Nylon 50cm
- for animals up to 10kg, sterile packed
19409501

Set of 1 crimp tube 12mm and Nylon 80cm
- for animals up to 20kg, sterile packed
19409601

Set of 1 crimp tube 12mm and Nylon 80cm
- for animals more then , sterile packed
19409701

Set of 3 crimp tubes 10mm and Nylon 50cm
- for animals up to 10kg, sterile packed
194095

Set of 3 crimp tubes 12mm and Nylon 80cm
- for animals up to 20kg, sterile packed
194096

Set of 3 crimp tubes 12mm and Nylon 80cm
- for animals more , sterile packed
194097

Nylon, 50lb, L = 50cm, sterile packed
194062

Nylon, 80lb, L = 80cm, sterile packed
194066

Nylon, 100lb, L = 80cm, sterile packed
194070

10mm crimp tube, 10/box, sterile packed
194060

12mm crimp tube, 10/box, sterile packed
194058

Crimping Forceps
not illustrated
194090

Fabella Needle, small, 6/box
not illustrated
194074

Fabella Needle, medium, 6/box
not illustrated
194076

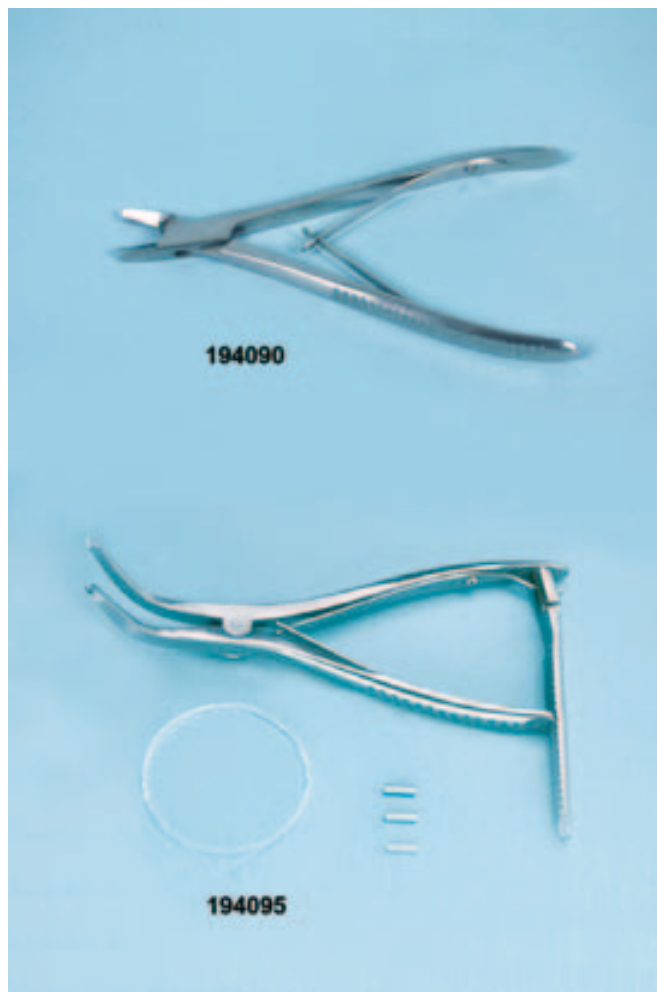

Fabella Needle, large, 6/box
not illustrated
194078

KNEE RETRACTOR WALLACE

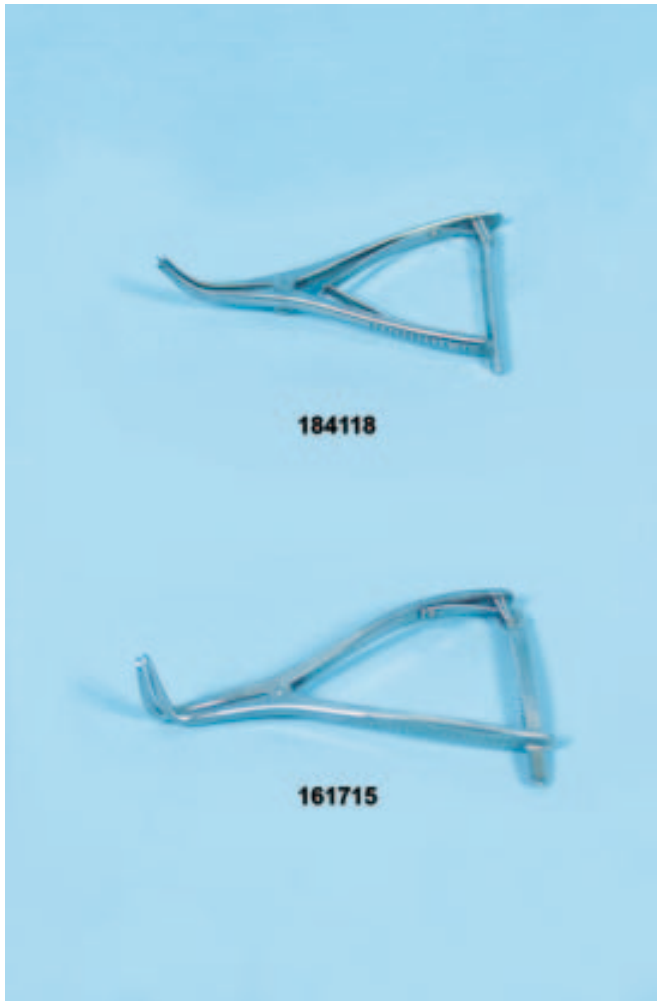

Length = 10cm

- allows gentle retraction between tibia and femur
- visualisation of the entire stifle joint

161710

Knee Retractors, Fixing Arm, Bone Rasps

KNEE RETRACTOR INGE MODIFIED ACC. TO MEUTSTEGE

Knee Retractor, 17cm

- designed to open the stifle joint
- easy to use especially on small dogs
- ratchet lock allows the stifle to be locked open
- very delicate tips

184117

Knee Retractor, with additional slits for tightening the cranial crucial ligament

- the well-known osteotome retractor with an additional function
- the cranial crucial ligament can be fixed in a shorter time and without assistance

184118

Knee Retractor, for small joints, 8mm

- perfect for opening small incisions, as well as meniscus operations either lateral or collateral
- very delicate

164115

FIXING ARM

For easy and comfortable restraint of the extremities, during surgery, X-Ray or arthroscopy

- to locate in nearly every position
- quick fixation because of Velcro closure
- can also be used to hold endoscopes

603850

BONE RASPS

Trochlea Rasp, round, 17cm

- for deepening the trochlea groove in patella luxation
- wide range of diameters

182117

Bone rasp, 24cm, large

182124

Molar Rasp, 18cm, delicate

177318

BONE SAWS

Adjustable Bone Saw with 5 blades, 15 to 19cm

182315

Spare blades, 5/pkg.

182317

LINDEMANN, 20cm

182320

LANGENBECK, 23cm

182323

Sterile Saw Blades for STANDARD Scalpel

Handle No. 3, 10/box

182329

BONE SAW

With interchangeable saw blade, L = 16.5cm

- stepless adjustment of the saw blade

- corrugated handle guarantees a safe grip

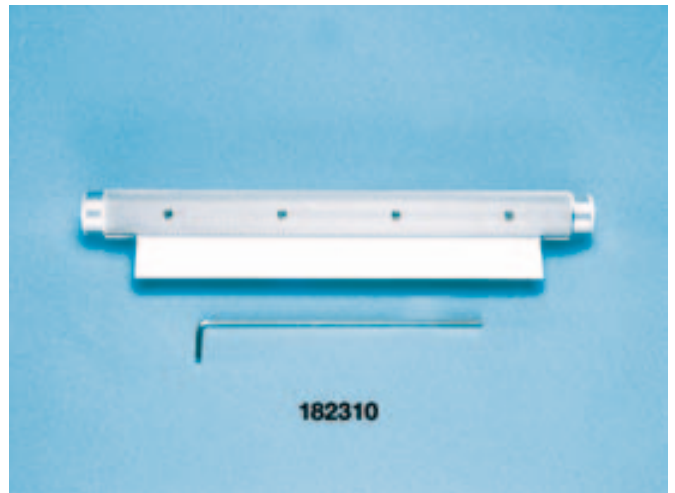

182310

Saw blade for bone saw, L = 13cm

182311

Saw blade for bone saw, coarse, L = 13cm

182312

GIGLI WIRE SAW

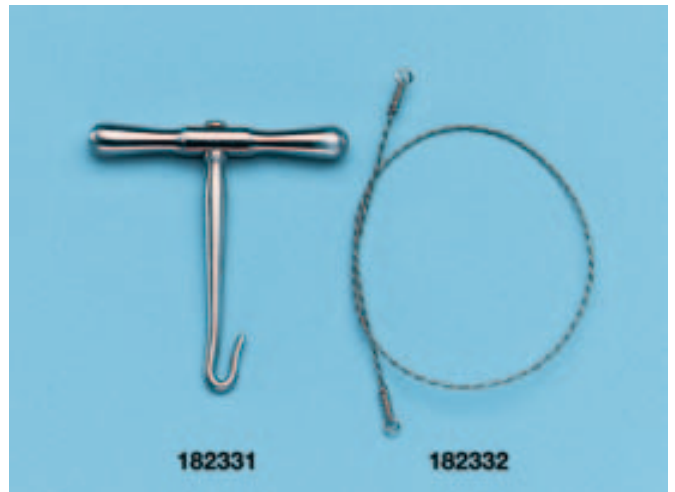

Also works well for femoral head excision in larger dogs

Saw handle, rotational

182331

Saw wire GIGLI, 30cm

182332

OSTEOTOME LAMBOTTE

L = 25cm, W = 8mm

182408

L = 25cm, W = 10mm

182410

L = 25cm, W = 15mm

182415

L = 25cm, W = 20mm

182420

L = 12.5cm, W = 4mm

182454

L = 12.5cm, W = 6mm

182456

L = 12.5cm, W = 8mm

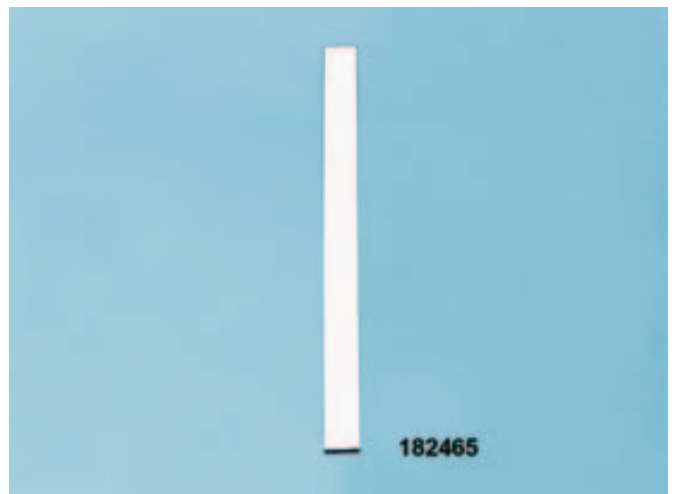

182458

L = 12.5cm, W = 10mm

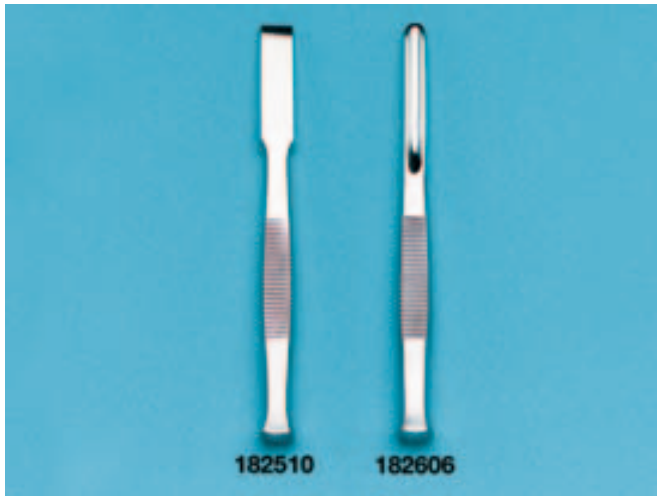

182460

L = 12.5cm, W = 15mm

182465

Osteotomes, Bone Retractors, Retractors, Fragment Forceps

CHISEL AND GAUGES

Chisel, 14cm, width = 10mm

182510

Gauge, 14cm, width = 6mm

182606

Gauge, 14cm, width = 10mm

182610

BONE RETRACTORS

L = 15cm, W = 6mm

182705

L = 16cm, W = 8mm

182708

HOHMANN, L = 22cm, W = 10mm, for knee surgery

182710

HOHMANN, L = 27cm, W = 13mm

not illustrated

182713

Femoral head disarticulator, L = 14cm, with blade to cut the ligamentum teres

182714

HOHMANN, L = 24cm, W = 17mm

182717

RETRACTOR MEYERDING

- ideal for hip surgery

Length = 21cm, width = 50x16mm

182724

Length = 23cm, width = 75x25mm

182725

FRAGMENT FORCEPS

Length = 13.5cm

not illustrated

182813

Length = 17cm

182817

Length = 20cm

182820

Length = 14cm, with closing tips

182914

BONE HOLDING FORCEPS

With central insert for bone screws, angled jaw,
15cm
183016

BONE HOLDING FORCEPS

With ratchet and serrated jaws,
for cats and midsize dogs, 13.5cm
183014

With central insert for bone screws, 15cm
183015

SETTER Reduction Forceps, 16cm
- with serrated jaws and spin lock
183017

SETTER Reduction Forceps, 24cm
- with serrated jaws and spin lock
183020

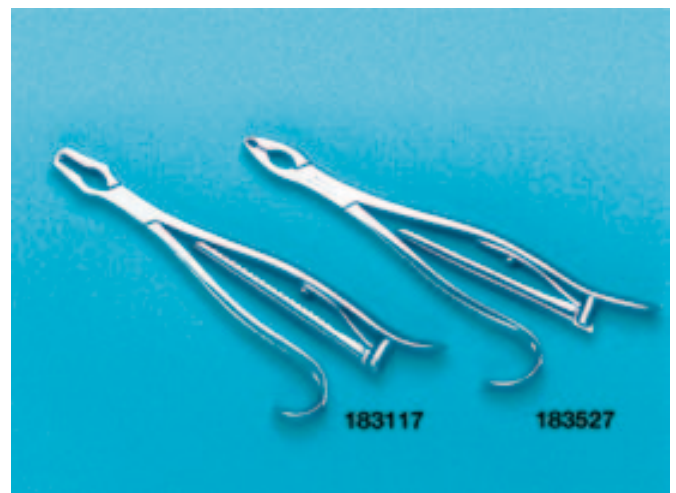

BONE HOLDING FORCEPS

KERN-MINI, with ratchet, 17cm
183117

KERN, with ratchet, 21cm
183121

KERN-MINI, modified for small bones, with
ratchet, 17cm
183527

BONE HOLDING AND BONE CUTTING FORCEPS

Self-Centering Bone Holding Forceps, with spin
lock, 15cm
183415

Self-Centering Bone Holding Forceps, with spin
lock, 19cm
183419

LISTER Bone Cutting Forceps, straight, 17cm
183617

Rongeurs, Bone Laminectomy Forceps, Laminectomy Rongeurs, Meniscal Instruments

RONGEURS

LUER-FRIEDMANN, curved, 14cm
184114

LUER, curved, 14cm
184115

BOEHLER, straight, compound action, 15cm
184215

BOEHLER, curved, compound action, 15cm
184315

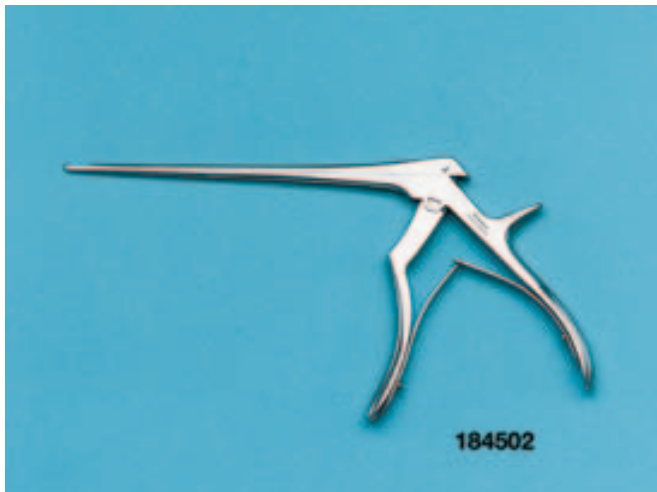

BONE AND LAMINECTOMY RONGEURS

Rongeur BEYER, curved, compound action, 18cm
184318

SCHNEIDEMANN Laminectomy Forceps, 15cm, laterally curved, compound action, very delicate
184414

SCHNEIDEMANN Laminectomy Forceps, 15cm, laterally curved, compound action
184415

LAMINECTOMY RONGEURS FERRIS-SMITH-KERRISON

Traditional design in top-level quality

2mm shank, 18cm, 40° upward cutting jaw
184502

3mm shank, 18cm, 40° upward cutting jaw
184503

MENISCAL INSTRUMENTS

PRIEUR-SUMNER-SMITH pattern
Very efficient use of the limited space within the canine stifle

Meniscus Forceps, 13cm
184813

Meniscus Knife, 17cm
184817

BONE BIOPSY NEEDLE

With mandrin, for taking bone marrow samples

ID = 2.0mm, OD = 3.0mm, L = 17cm

184903

ID = 3.0mm, OD = 5.0mm, L = 17cm

184905

MINI BONE PLATES

- for screws with 1.5 and 2.0mm diameter

- width = 5.0mm

- thickness = 1.0mm

4-holes, length = 22mm (AESCULAP)

187604

5-holes, length = 27mm (AESCULAP)

187605

6-holes, length = 32mm (AESCULAP)

187606

7-holes, length = 37 mm (AESCULAP)

187607

8-holes, length = 42mm (AESCULAP)

187608

4 holes, length = 22mm (EICKEMEYER)

98187604

5 holes, length = 27mm (EICKEMEYER)

98187605

6 holes, length = 32mm (EICKEMEYER)

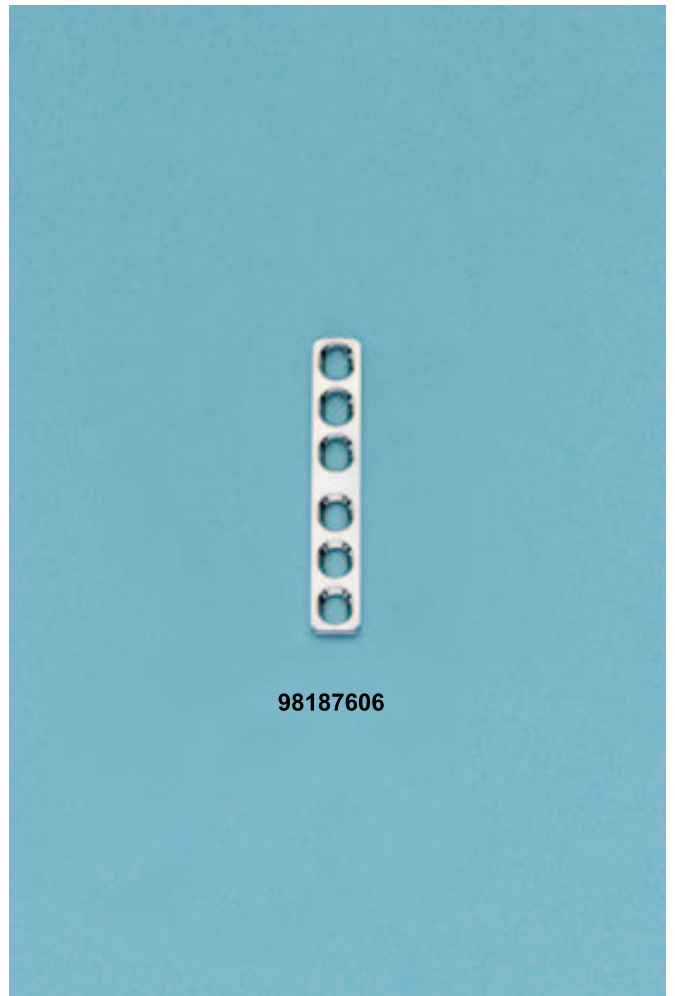

98187606

7 holes, length = 37mm (EICKEMEYER)

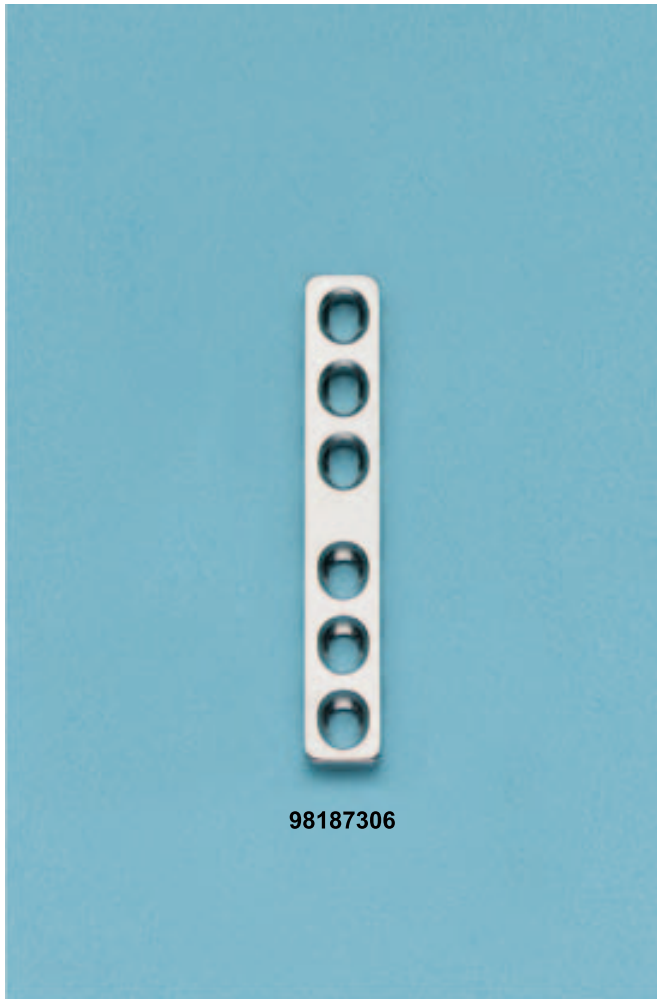

98187607

8 holes, length = 42mm (EICKEMEYER)

98187608

Mini Compression Plates

98187306

MINI COMPRESSION PLATES

- for screws with 2.0mm diameter
- width = 5.0mm
- thickness = 2.0mm

2 holes, length = 12mm (EICKEMEYER)

98187302

4 holes, length = 22mm (EICKEMEYER)

98187304

6 holes, length = 32mm (EICKEMEYER)

98187306

8 holes, length = 42mm (EICKEMEYER)

98187308

10 holes, length = 52mm (EICKEMEYER)

98187310

98187324

MINI COMPRESSION PLATES

- for screws with 2.7mm diameter
- width = 8.0mm
- thickness 2.6mm

14 holes, length = 112mm

187324

98187505

MINI COMPRESSION T-PLATE

- for screws with 1.5 and 2.0mm diameter
- width = head = 12.0mm / shaft = 5.0mm
- thickness = 1.0mm

4 holes, length = 18mm

187505

4-holes, T-shaped, length = 18mm, for screws with D = 1.5 and 2.0mm (EICKEMEYER)

98187505

MINI FRAGMENT PLATES

- with round holes
- curved profile
- for screws with 2.7mm diameter
- width = 7.0mm
- thickness = 1.0mm

2-holes, length = 17mm (AESCULAP)
187702

3 holes, length = 25mm (AESCULAP)

98188327

EXTENSION PLATES

- Extension: 30mm

- for screws with 4.5 and 6.5mm diameter

- width = 1.6mm

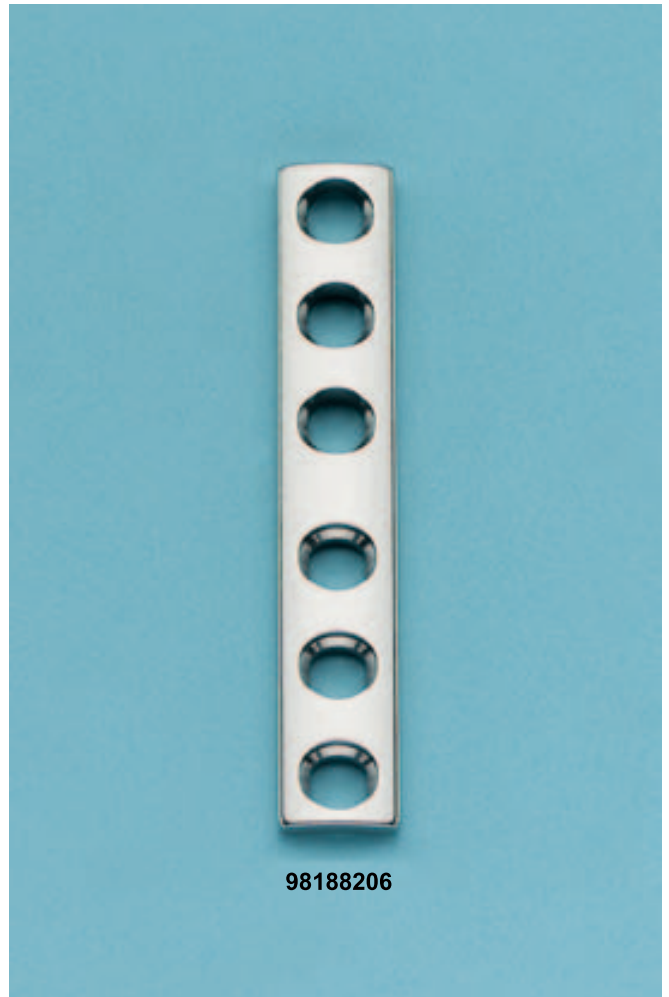

- thickness = 5.0mm

8-holes, length = 135mm, (AESCULAP)

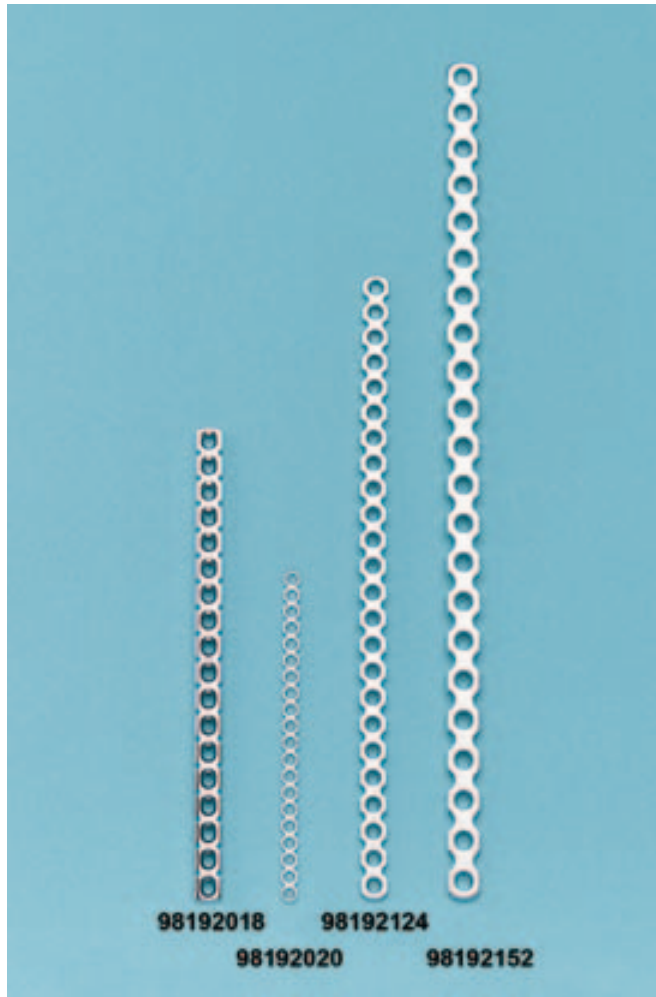

188408

8 holes, length = 135mm (EICKEMEYER)

98188408

Reconstruction Plates, Acetabular Plates

RECONSTRUCTION PLATES

Designed for easy contouring

18 holes, length = 144mm, for screws with 2.7mm diameter, width = 8.0mm, thickness: 3.0mm

98192018

24 holes, length = 192mm, for screws with 2.7mm diameter, width = 7.5mm, thickness: 2.5mm

98192124

20 holes, length = 100mm, for screws with 2.0mm diameter, width = 5.0mm, thickness: 1.0mm

98192020

22 holes, length = 262mm, for screws with 3.5mm diameter, width = 9.5mm, thickness: 2.0mm

98192152

ACETABULAR PLATES

Length = 31mm

6 holes, for screws with 1.5mm diameter, width = 5mm, thickness = 1.5mm

98192304

4 holes, for screws with 2.7 and 3.5mm diameter, width = 8mm, thickness = 2.0mm

98192308

6 holes, for screws with 2.7 and 3.5mm diameter, width = 8mm, thickness = 2.0mm

98192309

TPLO SAW BLADES

Fits on all standard Oscillating Saws

TPLO Saw Blade R = 18mm

192909

TPLO Saw Blade R = 22.5mm

192910

TPLO Saw Blade R = 30.0mm

192911

192910

TPLO JIG

Aluminium blue anodized

- to maintain bone alignment during TPLO

- TPLO jig arms permits flexibility for different breeds

192915

TPLO Rotation Gauge Pack with 10 pcs

192981

192915

TPLO SAW BLADE

- fits to OrthoVet and ELAN Vet

Macro flexible cable, 160cm

(210cm upon request)

195025

Macro Line transversal saw, w/o blades for TPLO sawblades

delivery without sawblades

195026

195025

195026

OSTEOTOMY GAUGE SET FOR TPLO

Simplifies the marking and cutting of the appropriate wedge, proximally and distally

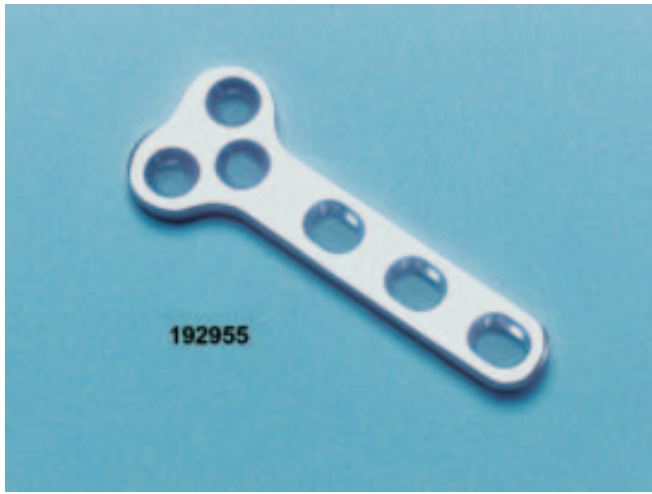

Set 9 to 22

192980

192980

TPLO Plates, Pancarpal Arthrodesis Plates, Pantarsal Plates

TPLO-PLATES

- especially for tibia plateau levelling operation
- shaft with gliding holes for 3.5mm screws
- head with round holes for 3.5mm and 4.0mm screws
- degenerative joint disease changes are minimal

Length = 39mm

192939

Length = 55mm

192955

Length = 77mm

192977

PANCARPAL ARTHRODESIS PLATES

2.0/2.7mm, self compressing, length = 73mm

98193110

2.0/2.7mm, with round holes, length = 75mm

98193112

2.7/3.5mm, self compressing, length = 100mm

98193120

2.7/3.5mm, with round holes, length = 102mm

98193122

3.5/3.5mm, self compressing, length = 140mm

98193130

3.5/3.5mm, with round holes, length = 140mm

98193132

PANTARSAL PLATES

2.7/3.5mm Pantarsal Plate, right

192800

2.7/3.5mm Pantarsal Plate, left

192801

FEMUR CONDYLAR PLATES

For cats, 44mm, right, length: 40mm
- for screws with 2.0mm diameter

98190796

For cats, 44mm, left, length: 40mm
- for screws with 2.0mm diameter

98190797

For dogs, right, length: 110mm
- for screws with 3.5mm diameter

98190798

For dogs, left, length: 110mm
- for screws with 3.5mm diameter

98190799

Y-PLATES

Y-Plate large, left for screws with
2.7mm up to 4.5mm

192990

Y-Plate large, right for screws with
2.7mm up to 4.5mm

192991

Y-Plate medium, left for screws with
2.7mm up to 4.5mm

192992

Y-Plate medium, right for screws with
2.7mm up to 4.5mm

192993

Y-Plate small, left for screws with
2.0mm up to 3.0mm

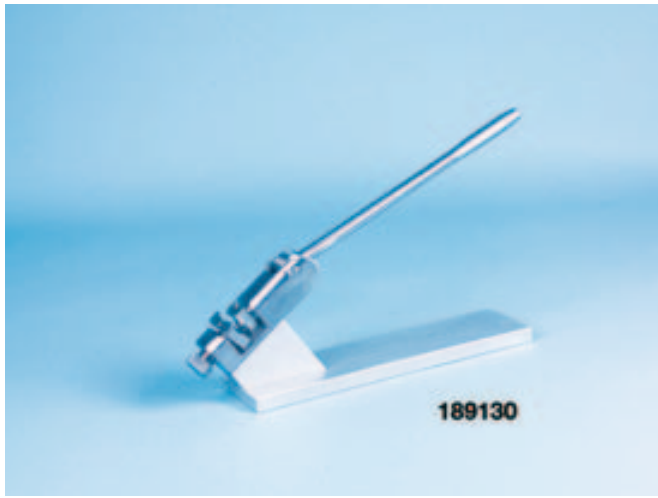

192994

Y-Plate small, right for screws with
2.0mm up to 3.0mm

192995

Plate Bending Forceps, Bone Plate Benders, Depth Gauges

BONE PLATE BENDING PRESS

For easy and safe bending of bone plates,
For screws with diameter 2.7mm, 3.5mm and
4.5mm

- fits into MELAG autoclave

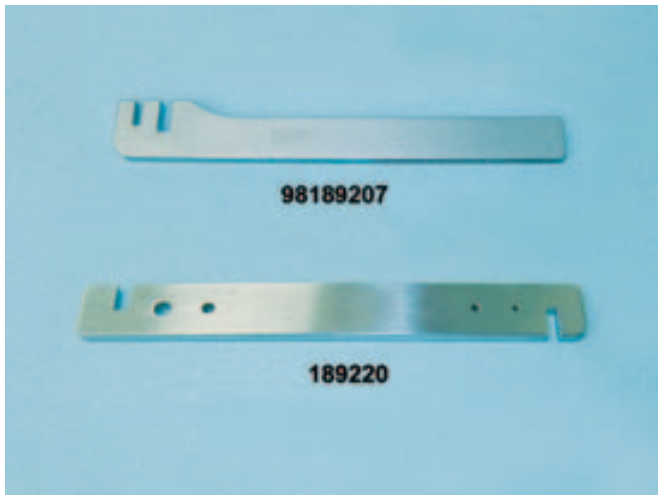

189130

PLATE BENDING FORCEPS

Plate bending forceps for 2.7 / 3.5mm plates
not illustrated

189135

BONE PLATE BENDING IRON

For small bone plates

for plates with D = 3.5 and 2.7mm

98189206

for plates with D = 2.7mm and 3.5mm

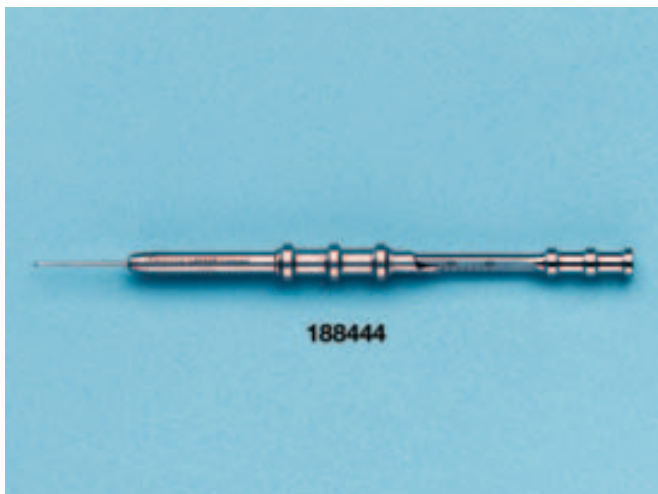

not illustrated

98189207

- length = 20cm

- for 3.5mm bone plates

189220

DEPTH GAUGES

Accurate measurement of hole depth

Range = 6–24mm, length = 14cm

188442

Range = 6–40mm, length = 15cm

188444

Range = 10–60mm, length = 22cm

188447

6 - 26mm, 15cm (EICKEMEYER)

not illustrated

98188442

6 - 40mm, 15cm (EICKEMEYER)

not illustrated

98188444

QUICK RELEASE TAP HANDLES

- specially designed for delicate procedures
- allows fingertip control

T-Bar Tap Handle for instruments with 4 square fit (Aesculap)

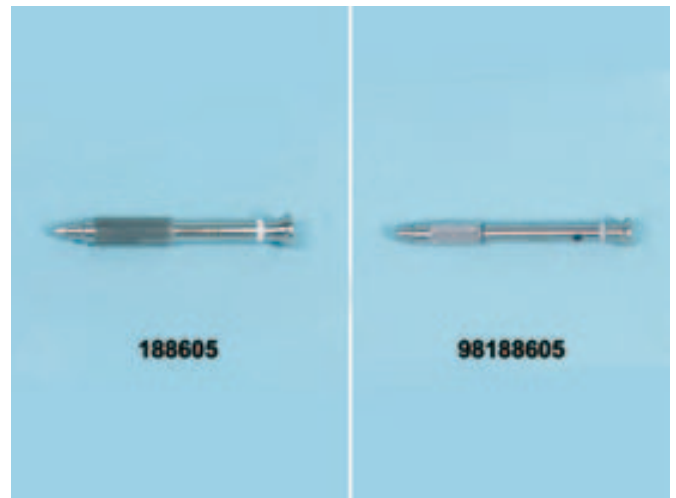

188605

Tap Handle for instruments with dental fit (Aesculap)

188607

with 4 square shaft (EICKEMEYER)

98188605

DRILL GUIDE / SLEEVES

Drill guide for Drills with D = 1.1 and 1.5mm

188811

Load /neutral guides for drills with D = 2.0mm, 3/1 holes

188820

Load /neutral guides for drills with D = 2.5mm, 3/1 holes

188825

Drill guide for compression plates, for drills with D = 2.0mm

188920

Drill guide for compression plates, for drills with D = 2.5mm

188925

Mini drill guide, for drills with 1.1mm and D = 1.5mm

98188811

Triple drill guide / Sleeve for drills with D = 2.0mm, 3-/1-holes

98188820

for self compressing bone plates with D = 2.0mm, 3/1 holes(EICKEMEYER)
D = 2.0mm, 3/1 holes(EICKEMEYER)

not illustrated

98188920

Triple drill guide / Sleeve for drills with D = 2.5mm, 3-/1-holes

98188825

for self compressing bone plates with D = 2.5mm , 3/1 holes(EICKEMEYER)
not illustrated

Screw Racks, Trans Ilias Nut, Drill Guide / Tissue Protector Sleeves, Drill Insert Sleeves

SCREW RACKS

For screws with D = 1.5/2.0mm, 1.5mm screws from 7 to 16mm, 4 each; 2.0mm screws from 6 to 20mm, 4 each

188011

For screws with D = 2.7mm, 2.7mm screws from 6 to 24mm, 8 each

188012

For screws with D = 3.5mm, 3.5mm screws from 12 to 40mm, 8 each

188013

TRANS – ILIAL SCREWS AND NUTS

For the both sided iliosaceal luxation in cats
- for 2.7mm screws with 44–50mm length

185450

Cortical screw, D = 2.7mm, length = 44mm
not illustrated

98185444

Cortical screw, D = 2.7mm, length = 46mm
not illustrated

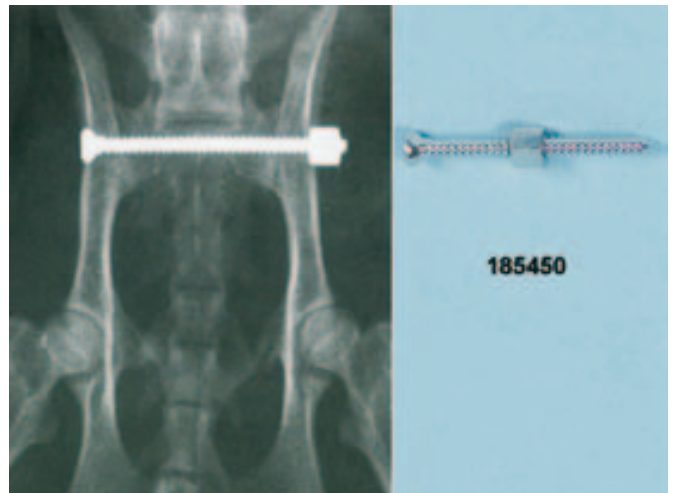

98185446

Cortical screw, D = 2.7mm, length = 48mm
not illustrated

98185448

Cortical screw, D = 2.7mm, length = 50mm
not illustrated

98185450

DRILL GUIDE / TISSUE PROTECTOR SLEEVES

Protection Sleeve for drills/taps up to
D = 3.2mm

189432

Protection Sleeve for drills/taps up to
D = 3.5mm

189435

Protection Sleeve for drills/taps up to
D = 4.5mm

189445

Pointed drill guide, for drills with
D = 3.5mm

189535

Pointed drill guide, for drills with
D = 4.5mm

189565

Aiming device d = 3.5mm (EICKEMEYER)

98189535

DRILL INSERT SLEEVE

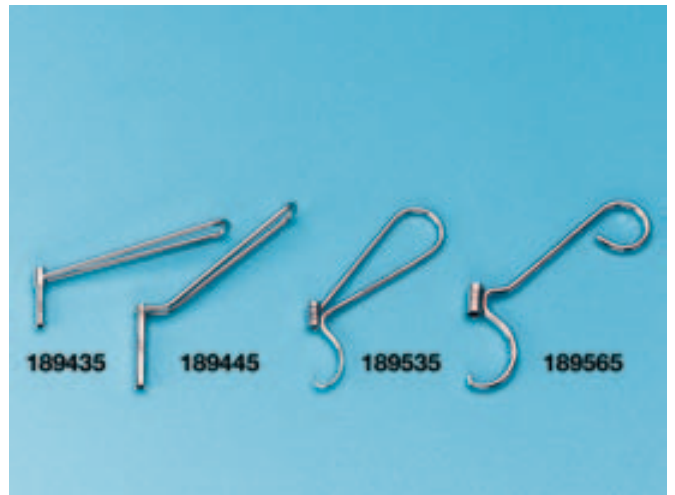

Centre smaller drills for lag screws placement

for drills with D = 2.0mm

189320

for drills with D = 2.7mm

189327

No-Contact-Plates

Osteosynthesis with No-Contact plate (NCP) – A new biological implant system!

This new method of a biological fracture treatment – the No-Contact Plate – describes a new monocortical bone plate system with no contact to the bone. Experimental studies which compared this new method with the established Dynamic Compression Plate (DCP) – osteosynthesis at models and tibia of dead dogs revealed similar results. In the clinical trial, fractures of the femur and the tibia were treated with the NCP. The healing time of the fractures was half the time compared to fractures treated with the DCP. No avascularisation or necrotic defects of periost or cortical bone were seen under the plate.

Set for Screws with D = 2.0mm 192400

192418	10	Corticall Screws, with cone thread, lengthh 8mm

VET Eickemeyer®

Your reliable source for
innovative products

Electrosurgery Set OrthoVET

ELECTROSURGERY SET ORTHOVET

Electrosurgery Set OrthoVET incl. foot control, flexible micro cable, handpiece and JACOBS chuck

- powerful and silent
- infinite variable speed
- flexible micro cable, length = 175cm, autoclavable
- ideal for drilling, introduction of bone pins and screwing
- right/left turn
- fully cannulated handpiece
- universal JACOBS chuck for instruments with shank up to 4.0mm diameter

195060

Intra angle piece, no key needed for tightening, transmission 1:2, up to 36000 rpm

- especially for spinal surgery

19760201

Oscillating Saw compatible with OrthoVet

19600001

AESCULAP ELECTRO-SURGERY MOTOR ELAN-VET-LINE

- The ELAN-VET-LINE combines modern technology with practical application
- providing more power for precise application
 - high-speed and high torque
 - smooth running
 - electronic brake
 - improved visibility of system status by new indication elements
 - universal for drilling, sawing, reaming and shaving in just one system
 - right/left turn

195001

Special Oil for handpiece GA 59, 50 ml, for the care of your flexible micro cable and handpieces

not illustrated

195059

PNEUMATIC SURGICAL MOTOR SYSTEM MINILAN

- For small animal surgery
- micromotor, easy to handle
 - smooth motion
 - powerful (100 Watt output)
 - infinitely variable speed control from 0–20.000 rpm
 - forward and reverse gear
 - intracoupling (suitable for all small animal handpieces)
 - smooth starting
 - optimised air circulation seal

198410

ACCESSORIES FOR MINILAN

Connection hose between MINILAN and foot control with quick-air-stop coupling, length = 3m, autoclavable

198401

Foot Switch for infinitely variable speed control

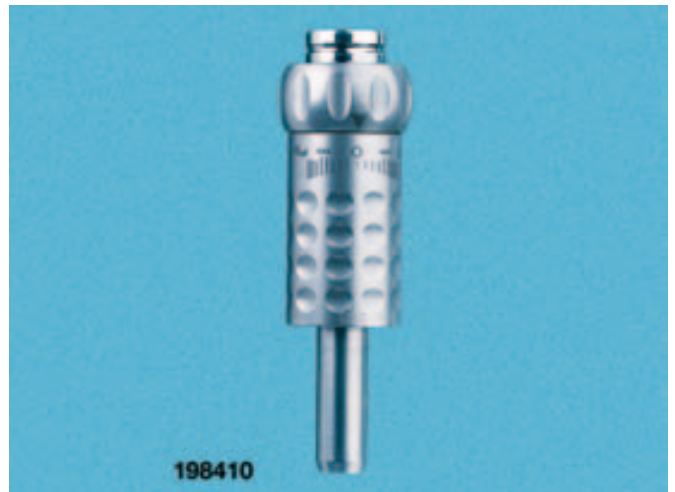

198402

Connection hose, for air supply and extraction with quick-air-stop coupling, autoclavable

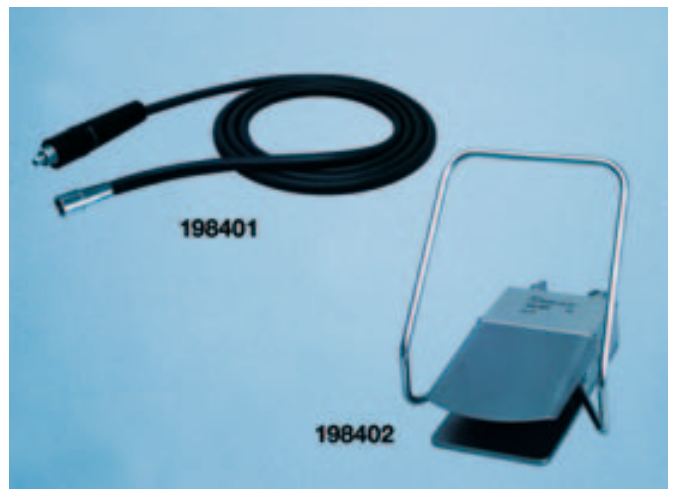

198403

195001

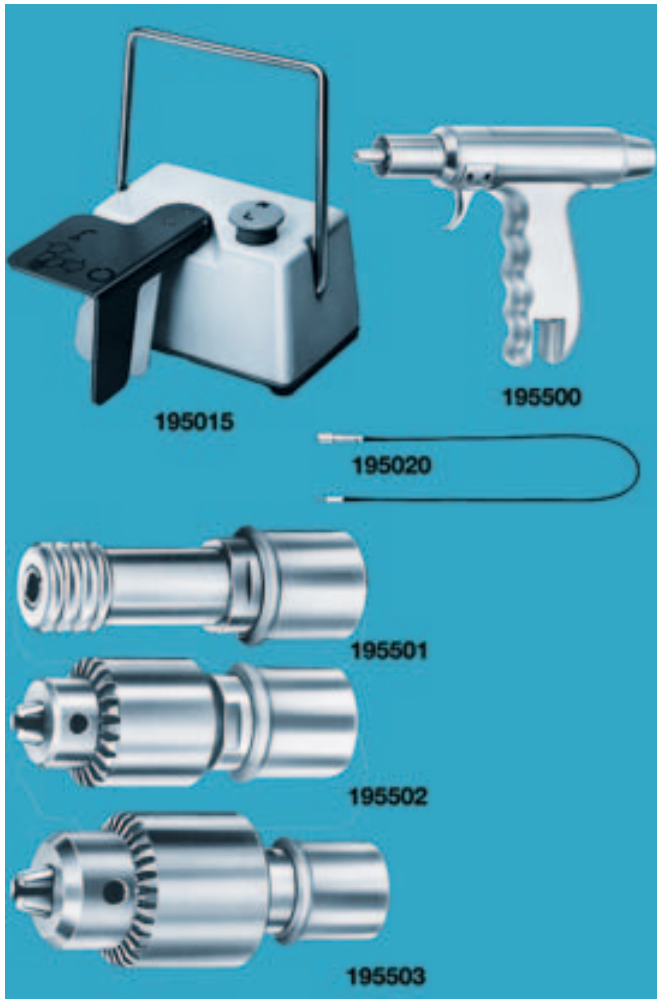

198410

198401

198402

Accessories for ELAN-VET-LINE and MINILAN, Hand Pieces, Oscillating Saw

ELAN-VET-LINE AND MINILAN ACCESSORIES

One power system for all professional surgical procedures

Foot Switch with moveable lever for ELAN-VET-LINE

195015

Flexible micro cable for ELAN-VET-LINE, length = 180cm, autoclavable

195020

Hand piece with forward and reverse gear, fully cannulated

195500

Quick release chuck for 4 square shanks

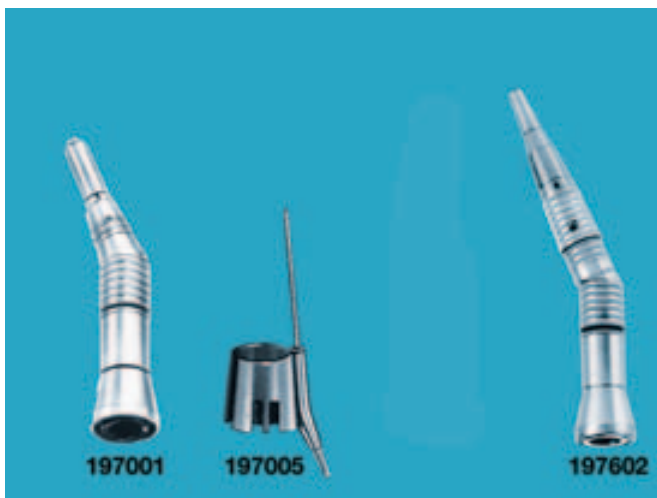

195501

Universal JACOBS chuck for instruments with shanks up to 4mm diameter, with key

195502

Universal JACOBS chuck for instruments with shanks up to 6.35mm diameter, with key

195503

HAND PIECES FOR ELAN-VET-LINE AND MINILAN

- quick exchange

Intra-angle handpiece, transmission 1:1, 0-22000 rpm

197001

Spray nozzle with clamp for 197001

197005

Intra-angle handpiece, transmission 1:2, 0-36000 rpm 0-36000 rpm

197602

OSCILLATING SAW

- 18.000 mpm

- surgical blade swivels up to 75°

Oscillating Saw for flexible micro cable, w/o blades

196000

SAW BLADES

Width = 10mm, length = 60mm

196010

WEDGE MOUTH GAGS

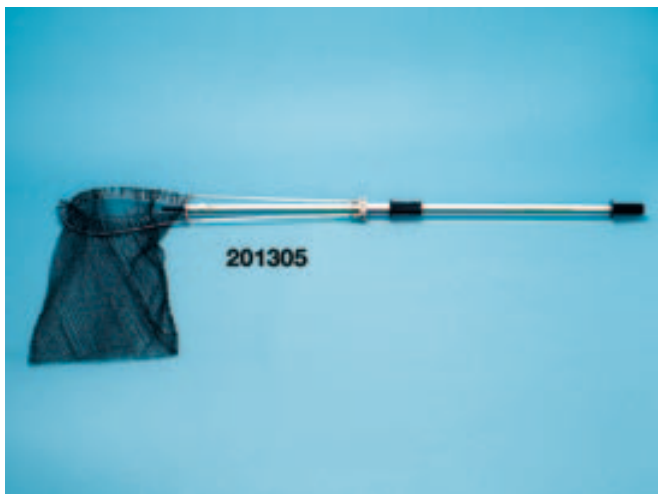

- anatomic design for secure placement
- soft and pliable for cats and dogs
- radiolucent
- autoclavable

For dogs

200206

For cats

200205

201305

CATCHING NET

For small pets and cats

- designed for safe and easy handling of animals
- constructed of tough nylon webbing
- easy to open and close
- Length = 150 cm

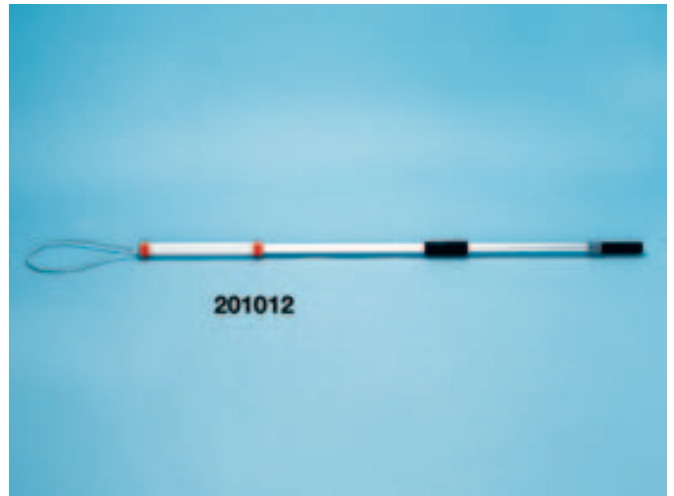

201305

QUICK RELEASE DOG SNARE

Length = 149cm

- quick-release mechanism
- pull handle to tighten, turn handle to lock and release
- plastic coated cable to avoid injuries
- durable and lightweight aluminium construction

201012

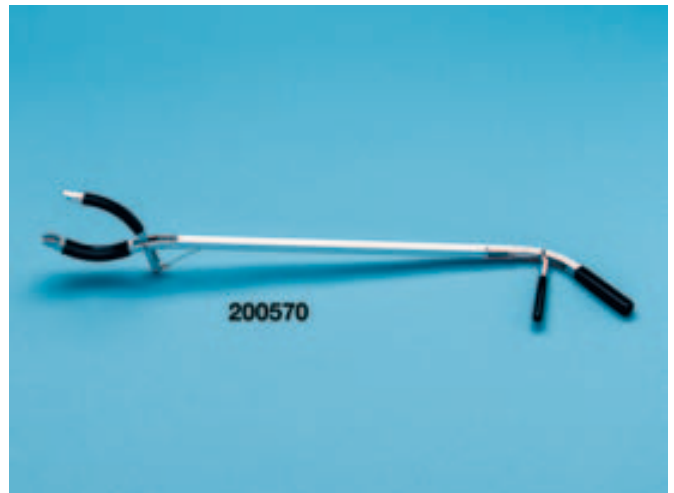

CAT CATCHER

Length = 76cm

- easy restraint of cats at a safe distance
- reinforced aluminium
- curved, plastic covered jaws to minimise discomfort

200570

RESTRAINT GLOVES

Pair of strong leather, double thickness gloves

- heavy-duty material
- increased padding
- 40cm length for extra protection

201500

RESTRAINT GLOVES

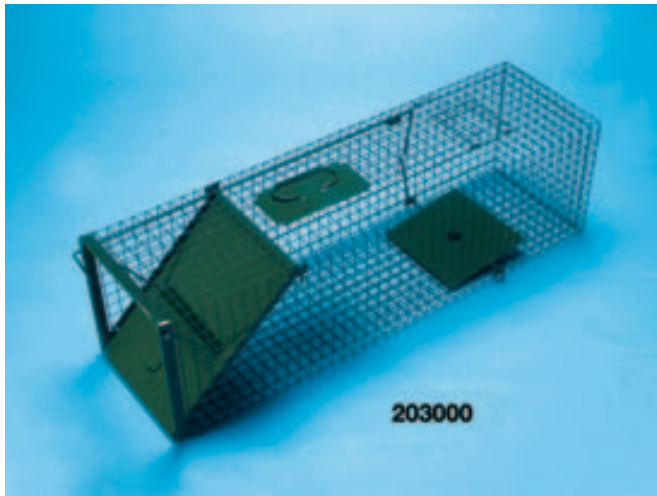

Pair of strong leather gloves

- length = 30cm

20150001

Cat Trap, Restraining Equipment

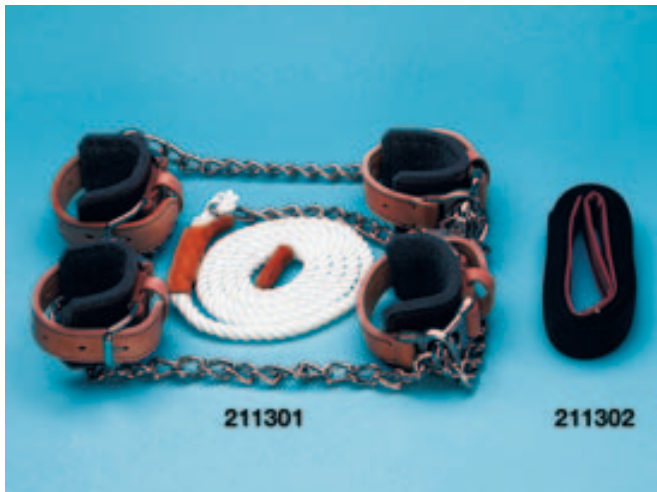

CAT TRAP

- Animal friendly Trap
 - zinc plated, solid metal construction
 - easy to operate
 - safe
 - dimensions: L = 100cm, W = 28cm, H = 28cm
- 203000**

NOSE TWITCH FOR HORSES

- Wooden, 21.5cm
- 211121**
- Light metal, 37cm
- 211137**
- Plastic, 40cm
- 211140**

EQUINE RESTRAINT EQUIPMENT BERLIN MODEL

- Easy and safe restraint of the horse during treatment and examination
 - with 4 soft-padded leather cuffs
 - heavy duty buckles
 - easy adjustment
- 211301**
- Fixation band, polyester, length = 9m, width = 5cm
- 211302**

ANAESTHETIC MACHINE EICKEMEYER

Anaesthetic Machine EICKEMEYER for small animals with reconditioned ISOFLURANE Vaporizor

Complet set with:

- absorber soda lime canister
- flowmeter (0.4–4.4 litre/min)
- mobile stand with mounting support for a 10 litre oxygen cylinder
- Bain Circuit for small animals (less then 7kg)
- patient tubing
- 2 litre rebreathing bag
- table top or floor stand model available

Floor Stand Model

213095

Trolley model with new isoflourane TEC3-style vaporizor

213075

Tray for oxygen concentrator

213098

Tray attachment for monitoring devices

213099

Table top model with new isoflourane TEC3-style vaporizor

not illustrated

213076

Table Top Model

213096

Wall mount for anaesthesia machine

213094

Anaesthesia Machine

212005

ANAESTHESIA MACHINE MARTRX VMS ISO

Anaesthesia machine VMS stand model, TEC3 -style vaporizer including:

- Flowmeter 0.2–4 L/min
- transparent soda lime canister (1500 cc)
- pop-off valve
- Pressure gauge
- Oxygen bypass
- moveable stand with 5 castors

212005

Wall mounted model

212007

With EICKEMEYER stand including tray for oxygen cylinder

212009

212010

ANAESTHESIA MACHINE MATRX VMS PLUS

Stand model with TEC3 – style vaporizer including:

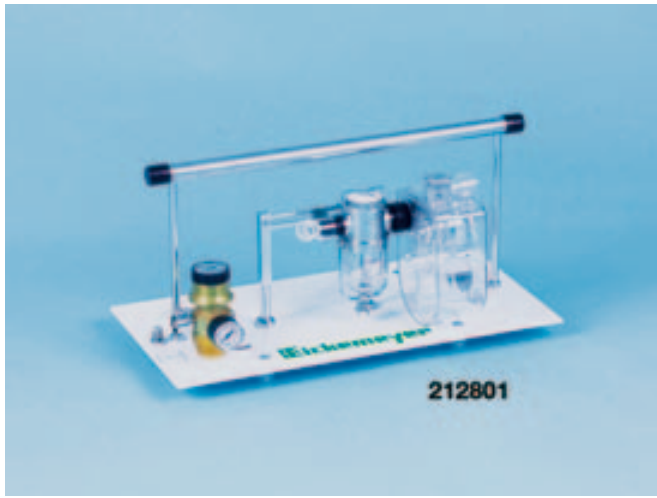

- Flowmeter 0.2–4 L/min
- transparent soda lime canister (1500 cc)
- pop-off valve
- Pressure gauge
- Oxygen bypass
- 2nd vaporizer attachable (optional)
- 2nd flowmeter attachment (optional)
- moveable stand with 5 casters
- tray for monitoring devices
- gas evacuation system optional

212010

equipped with EICKEMEYER stand, including holder for 2 separate

212012

Anaesthetic Machines for Small Animals, Anaesthesia Machine, Oxygen Concentrator

ANAESTHETIC MACHINE MEDVET FOR SMALL ANIMALS

- With universal vaporizer, closed circuit system with low-flow
- complete set with tubing and breathing bag
 - closed circuit with transparent CO₂ absorber
 - universal vaporizer
 - economical
 - portable
 - small dimensions
- 212801**

ANAESTHESIA MACHINE RESEARCH FOR LAB ANIMALS

- With reconditioned isoflurane vaporizer (while supply lasts)
- ideal for all animals up to 3kg
 - simple to operate
 - reliable
 - Flowmeter 0–5 lpm
 - compact
- 213086**
- With Isoflurane TEC3 – style vaporizer
- 213087**

OXYGEN CONCENTRATOR OXYVET

- transfers ambient air into oxygen
 - produces up to 95% pure oxygen, up to 5 litre/min
 - almost maintenance free
 - noise free operation
 - can be adapted to fit all major anaesthetic systems
 - also may be used in critical care
 - mobile with 4 castors
 - including flowmeter and humidifier for oxygen therapy
 - dimension: W = 400 H = 700 D = 350
- 213180**

Y Piece to connect an oxygen concentrator to anaesthesia machines and oxygen dose simultaneously

213185

OXYGENCONCENTRATOR OXYVET EASY

- transfers ambient air into oxygen (45 db (A))
 - produces up to 93% pure oxygen, up to 5 l/min
 - maximum output reached after 3 mins of operation
 - attachable to all major anaesthesia machines including flowmeter and humidifier used for oxygen therapy
 - 3 years warranty
- 213170**

213170

VENTILATOR FOR SMALL ANIMALS SAV 2500

Can be connected on all Anaesthetic Machines with closed and open circuits

- electronically controlled
- time cycled
- pressure controlled
- assures constant volume for each delivered breath
- easy to operate
- ensures safe anaesthesia
- adapts easily to anaesthetic circuits with out-of-circuit vaporisers

213015

Paediatric bellow assembly 0–300ml especially for small animals less than 7kg

213017

213015

Ventilator, Reduction Valves, Central Gas Supplying System, Oxygen Emergency Kit

VENTILATOR FOR SMALL ANIMALS

- For assisted and controlled breathing.
- for animals from 1 to 65kg
 - microprocessor electronically ventilates the patient if spontaneous respiration does not occur
 - sets breathing parameters automatically after entering patient's weight
 - can also be used with masks
 - versatile: critical care ventilation or anaesthetic delivery unit (with vaporizer)
 - assures ideal oxygen level
 - rechargeable battery

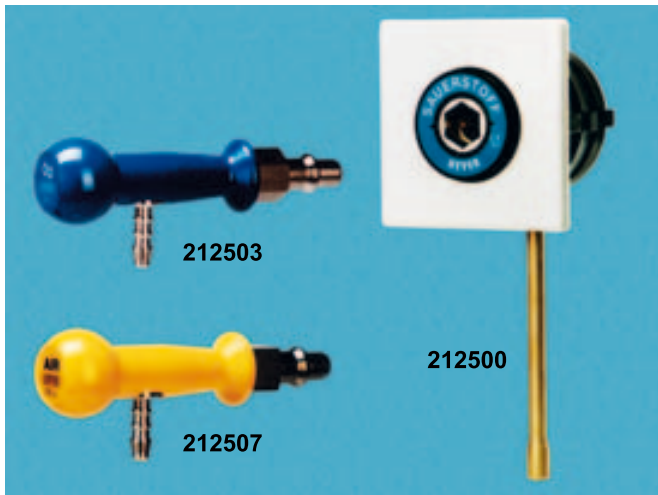

213011

MEDICAL REDUCTION VALVE

- Keyless connection to all DIN bottles
- with flow control

212704

CENTRAL GAS SUPPLYING SYSTEM

Oxygen, recessed
212500

OXYGEN EMERGENCY KIT FOR SMALL ANIMALS

- mobile
- with 2 litre oxygen cylinder
- carrying case

Model I, with Reduction Valve 4 LPM
219013

LARGE ANIMAL ANAESTHETIC MACHINE LAVC-2000D

- with BIRD respirator for spontaneous, assisted and/or controlled ventilation
- Flowmeter (0–10 litre/min)
- O₂-Bypass
- flush valve
- pressure gauge
- two 160cm corrugated breathing tubes
- inhaler Y-piece with 4 adapters (18/20/25/30mm)
- optional foal kit (see below)
- with 30 litre breathing bag

Anaesthetic Machine LAVC-2000 D-2, with each one reconditioned ISOFLURANE and HALOTHANE vaporizer
21320001

With new ISOFLURANE vaporizer
21320201

Utility tray for LAVC-2000D, 700x280x15mm
213205

Anaesthetic Machines for Large Animals

LARGE ANIMAL ANAESTHETIC MACHINE LAVC-2000

- with BIRD respirator for spontaneous, assisted and/or controlled ventilation
- Flowmeter (0–10 litre/min) – Bypass
- flush valve
- pressure gauge
- two 160cm corrugated breathing tubes
- inhaler Y-piece with 4 adapters (18/20/25/30mm)
- optional: foal kit (see below)
- with 30 litre breathing bag

With new ISOFLURANE vaporizer
213201

LARGE ANIMAL ANAESTHETIC MACHINE LAPD-1000

- Flowmeter (0–10 litre/min)
- pressure gauge
- patient circuit with Y-piece and 4 adapters (18/20/25/30mm)
- O₂-Bypass
- with 30 litre breathing bag

With TEC3-Style ISOFLURANE vaporizer
213101

Large animal ventilator LAVC 3000
connectable to all major anaesthesia machines
not illustrated
213120

FOAL BREATHING CIRCUIT KIT

Conversion kit for LAVC-2000 to foal ventilator
213220

Small circuit with adapters for foal conversion
213221

ACCESSORIES FOR LARGE ANIMAL ANAESTHETIC MACHINES

Breathing circuit, grey
215710

Y-piece, plastic, large
E213200159

LARGE ANIMAL BREATHING CIRCUIT

Floor stand for large animal breathing circuit

213022

Foal Set for large animal breathing circuit

213025

LARGE ANIMAL BREATHING CIRCUIT MATRIX VML

Anaesthesia machine VML Stand model,
including:

- large soda lime cannister (5200 cc)
- large volume patient tubing with Y-piece
- 30 l breathing bag
- pressure gauge
- Flowmeter (1–10 l/Min)
- mobile stand

212020

Anaesthesia machine VML, as above, with
EICKEMEYER stand and oxygen bottle holder,
not illustrated

- including FEC3-style vaporizer

212021

Vaporisers

213261

EICKEMEYER ISOFLURO VAPORISER

ISOFLURANE Vaporizer

- calibrated dial (0.5%–5% at 0.5% intervals)
- with key filling
- temperature/flow compensated vaporiser
- large sight glass for easy liquid level checks
- with safety lock
- laser-calibrated (0.25 to 5%)

213261

Selectatec Connector

not illustrated

222227

Sevoflurane vaporizer with key filling

not illustrated

213271

222225

RECONDITIONED VAPORISER

Reconditioned DRAEGER ISOFLURANE Vaporizer

- with certificate
- accurate and reliable
- with key filling

222225

222226

VAPORISER CONVERSION

We convert your Vaporizer from HALOTHANE to ISOFLURANE

Including calibration

222222

Pivoting connection for DRAEGER Vaporizer 19.1 or 19.3

- to connect on a used DRAEGER Anaesthetic Machine

222226

SAFETY KEY FILLER FOR NARCOTIC

Fits only on special bottles and vaporizers with key filling system

- with anti-polluting plug
- allows you to rapidly fill your vaporizer

Safety Key Filler for ISOFLURANE (purple)
213246

Safety Key Filler for SEVOFLURANE
213247

CYLINDER CART

White, for one 10 litre O₂-Cylinder
213465

ACTIVE ANAESTHETIC GAS SCAVENGE SYSTEM

- For better conditions in the surgery room
- the active scavenge system provides a safe, cost effective method of ensuring health and safety of the staff in the operating theatre
 - the system exhausts all anaesthetic waste gases without depleting oxygen and anaesthetics from the anaesthetic machine
 - normal anaesthetic protocols need not be altered
 - easy to install

213480

Scavenger tubing per meter
212729

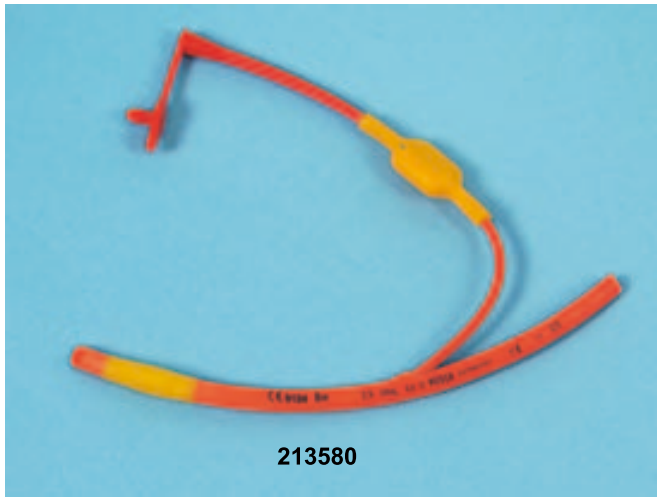

ANAESTHETIC GAS FILTER

- removes excess halogenated gases from the operating theatre
- absorbs up to 200g anaesthetic gas (lasts 20–25 hours)
- easily adaptable

213485

Endotracheal Tubes

ENDOTRACHEAL TUBES, RED RUBBER WITH INFLATABLE CUFF

- curved, easy to introduce
- bevel tip

Anesthesia accessories, Anaesthetic Set, ULMER Fixator

ANAESTHESIA ACCESSORIES

Transparent parallel breathing circuit with Y-Piece and female ends (ID = 22mm)

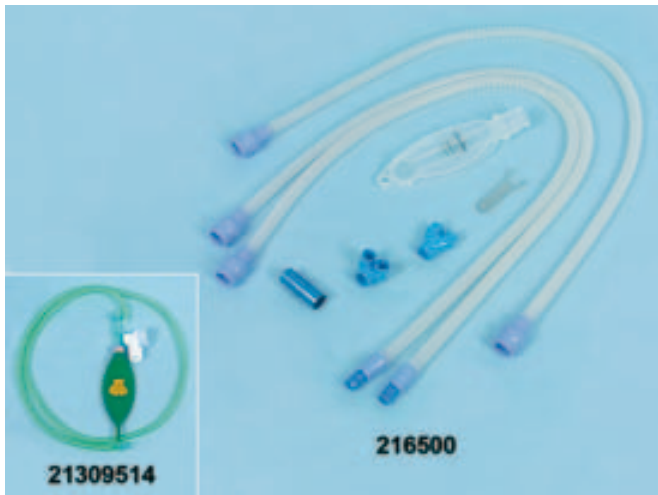

212718

Rubber tube for patients less than 7kg (ID = 15mm)

212805

Rubber tube, length = 1m, diameter = 22mm, for small animal circuit

215507

ANAESTHESIA ACCESSORIES

ULMER Anaesthetic Set for small animals, made of SILKOMED

216500

Mapleson Bain Circuit (open system) for patients less than 7kg.)

Complete with 0.5 l breathing bag, pop-off valve, connector to anaesthesia machine

21309514

ANAESTHETIC SET FOR SMALL ANIMALS

AYRES-T-PIECE for small animals up to 7kg

- connect to standard anaesthetic systems

- open circuit

- low resistance

216000

ULMER FIXATOR

Supporting device for breathing tubes

Perfect for fixing tubes, cables of monitors and electrosurgical devices

215300

Anaesthetic System NarkoPet, Rebreathing Bags, Soda Lime

ANAESTHETIC SYSTEM NARKOPET

Anaesthetic Tube, small, additional for Set
214630
- dimensions: D = 90x170mm
214632

REBREATHING BAG COMBIBAG

Necessary in every clinic
- from 500ml (for cats and small dogs) up to
1200ml breathing volume
- critical care ventilation
- with pressure control valve
- autoclavable
215160

SODA LIME

Changes colour from white to violet as soda
lime is exhausted

5.0 ltr. canister
215205

Pulsoxymeter

PULSOXYMETER OXYVET EASY

- mobile, battery operated unit
- large LCD-screen
- Pulsrange from 25–254 bpm
- complete with tongue clip sensor
- optional PC transfer kit

321600

Data-Management-Kit for 321600 and 321650
(software CD and connecting cable)

321654

Tongue clip sensor for 321600, 321650, 321810
321651

PULSOXYMETER OXYVET EASY PLUS

- high resolution colour LCD-screen
- large, easy to read LCD display with SPO₂,
Heartrate and Pulse strength
- user selectable alarm limits
- adjustable alarm volume
- battery operated (up to 36 hrs)
- including tongue clip sensor
- infrared PC-connection optional
- puls range 18–300 bpm

321650

Rechargeable battery for 321650

321652

Charger base for 321652

321653

PULSOXYMETER OXYVET DIGITAL

Mobile hand-held unit with rechargeable battery

- large LED display for both pulse rate and SpO₂
- pulse range 20–350 bpm
- infinitely adjustable high and low alarms for pulse and SpO₂
- digital processing to eliminate most interference e.g. tremors, shaking etc.
- with 2 sensors: lingual clip and rectal sensor
- controls and displays designed for simplicity and ease of use

321408

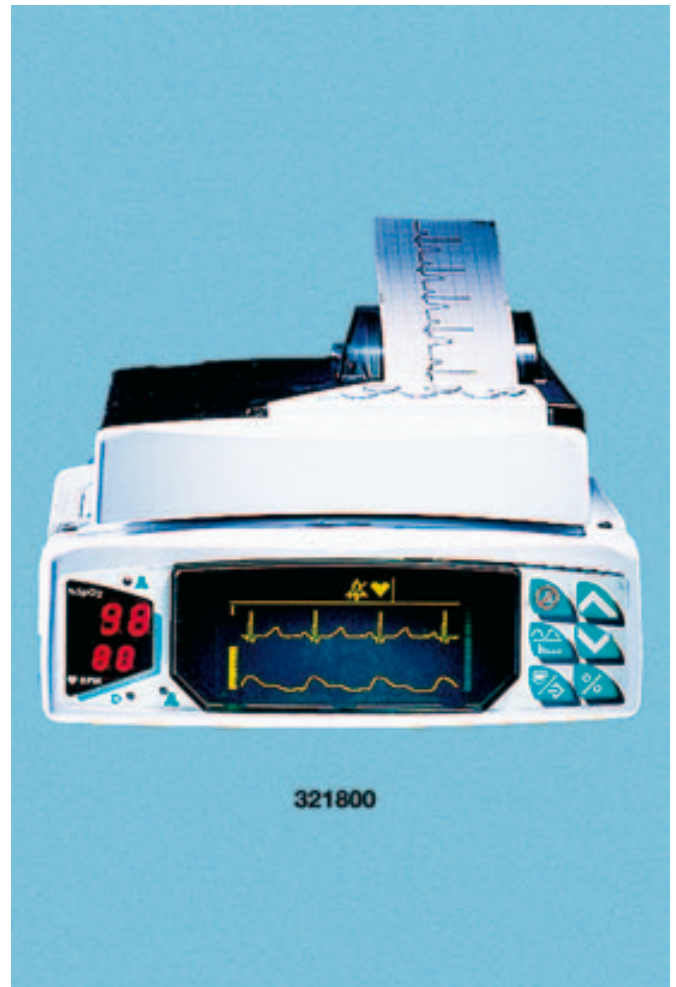

321408

COMBINED PULS-OXYMETER AND ECG OXYVET-CARDIO

Including respiration and temperature measurement

- large, easy to read LCD display with SPO₂, Heartrate and Pulse strength, ECG, respiration rate and body temperature
- user selectable alarm limits
- state-of-the-art digital signal processing
- including tongue and tail wrap sensor
- Heartrate from 20 to 350 bpm
- 3 or 5 lead ECG
- Trends signalling for temperature and respiration rate
- battery or mains operated
- compact and lightweight
- printer optional (321802)

321800

321800

Combined Monitors, Capnometer

OXYVET TEMP

- Combined Monitor for Pulse-Oximetry, Temperature and Respiration Rate
- large and easy to read display showing all parameters
- plethysmographic wave form displayed
- infinite adjustable alarms, audible pulse sound, visual pulse strength bar
- highly compact and portable design
- protective rubber boot
- with lingual clip, rectal sensor, temperature probe and respiratory sensor
- pulse range 20–350 bpm
- mains- or battery powered (mains adaptor included)

321500

COMBINED PULSXOYMETER AND ANAESTHETIC AGENT MONITOR CAPNOVET MULTIAGENT

- large, easy to read LCD display with CO₂, anesthetic agent, exhaled agent and respiration rate
- plethysmographic display of exhaled CO₂
- for Halthan, Isoflurane, Sevoflurane
- patented side stream technology
- user selectable alarm limits

321400

State of the art continuing education centre in Tuttlingen, Germany

Since 1985 almost 10.000 veterinary professionals from all over the world have attended our courses.

Theory lectures, practical demonstrations and hands-on veterinary seminars in full operating theatre facilities provide the maximum learning in the minimum time.

321390

CAPNOVET PRO

Combined Capnometer and Digital Pulse-Oximeter

- specifically developed software for veterinary applications
- easy-to-read back-lit LCD display shows heart rate, respiration rate, inspired CO₂, ETCO₂ and SpO₂
- infinitely adjustable visual and auditory alarms
- provides wave forms, numeric values and on-screen trending
- sidestream technology accommodates intubated and non-intubated patients
- incl. tongue clip sensor
- protective rubber boot
- battery operated
- lightweight, only 630g
- optional: spare battery (No. 32139001) and mains adaptor (No. 32139002)

321390

Rechargeable battery for CAPNOVET PRO

32139001

Charger base for 32139001

32139003

Moisture-Trap for CAPNOVET PLUS, 5/box

E32170001

Combined Monitors

CAPNOVET PLUS

Combined Pulse Oximeter and Capnometer with high resolution vacuum fluorescent display and lingual clip and rectal sensor. The CAPNOVET PLUS offers crisp, clear waveforms with large numerics for maximum visibility. With the optional addition of pulse oximetry and FiO_2 , the lightweight, portable CAPNOVET PLUS has the flexibility to meet the needs of today's demanding environments

- intelligent capnography
- simplified menu structure
- monitoring of both intubated and non-intubated patients of all sizes due to sidestream technology
- patented moisture removal system
- pulse rate: 20–350 bpm
- SpO_2 range: 0–100%

321700

Sample line, length = 1.2m, 10/box

321377

Sample line, length = 2.4m, 10/box

321378

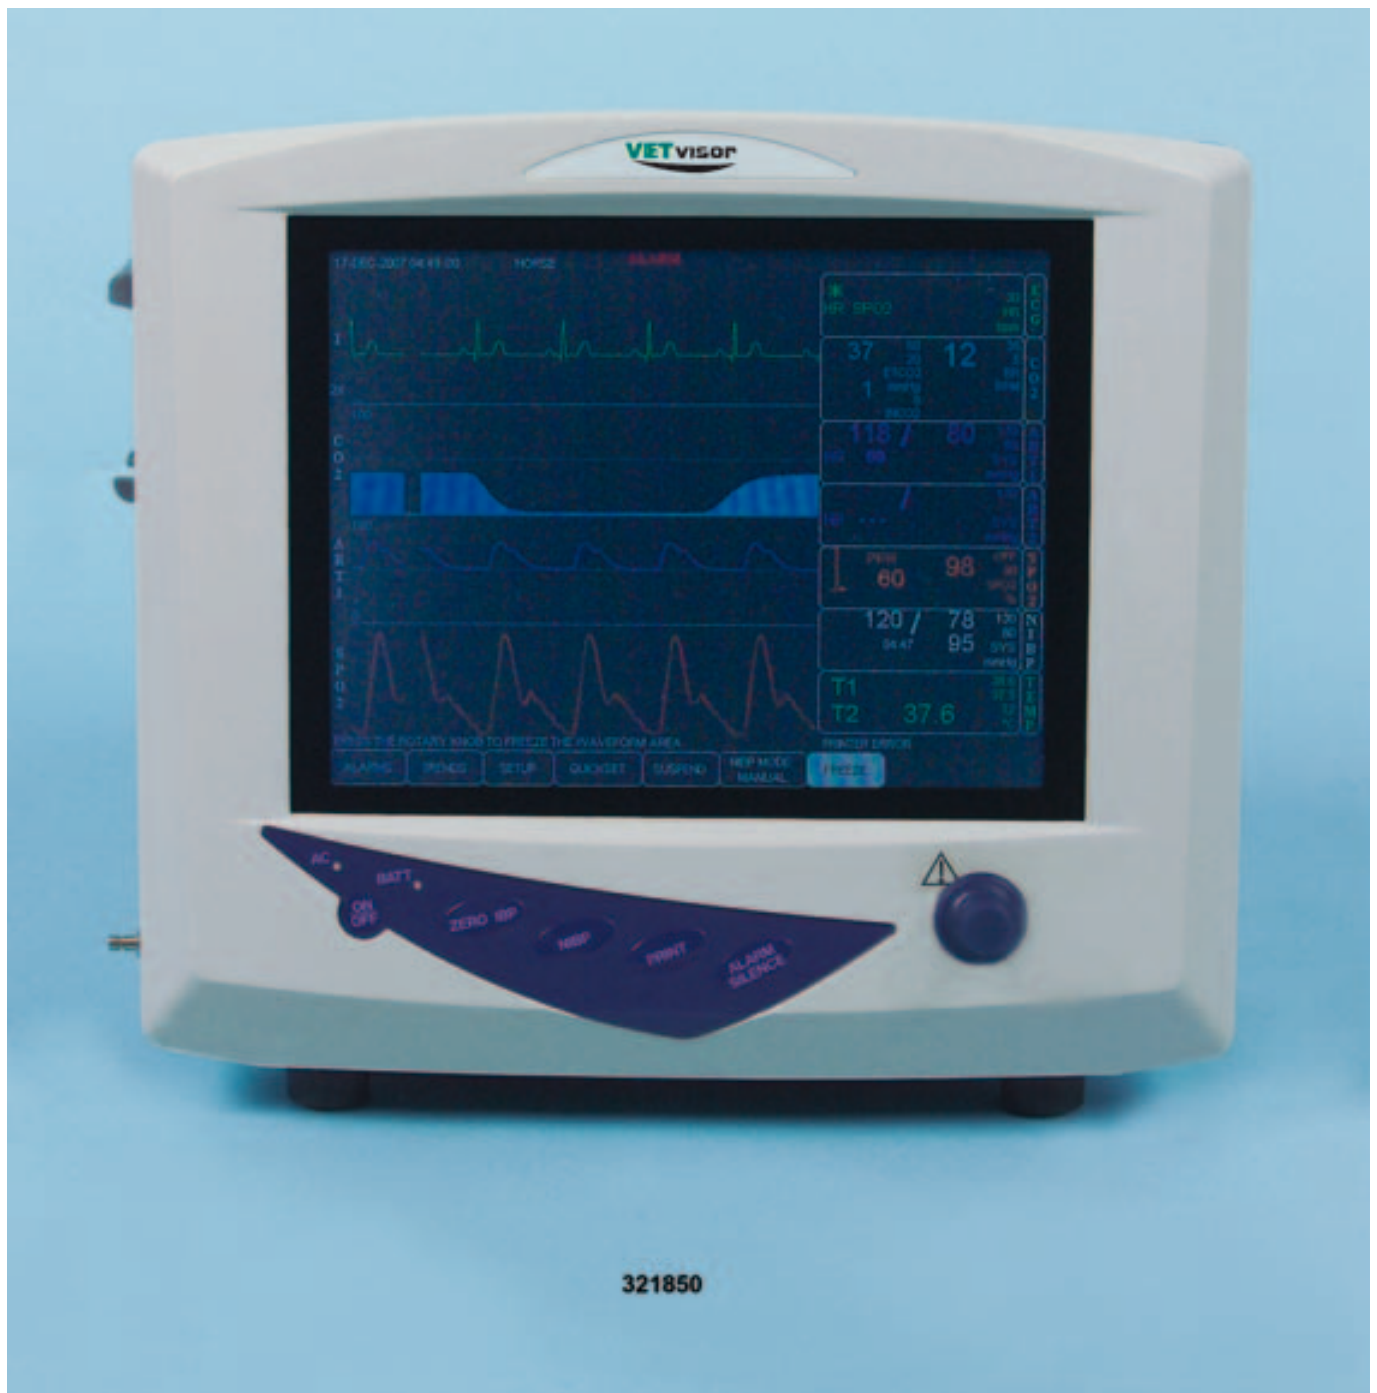

Connector-Set for small animals with Luer

- for tracheotubes with ID = 2/2.5/3/3.5/4mm

321382

CO_2 Absorber for CAPNOVET-PLUS 2/box

E32170002

HIGH END MULTI-PARAMETER-MONITOR VETVISOR

VetVisor light

321840

Combines ECG, invasive and non-invasive blood pressure, temperature, CO₂, SpO₂, heart and respiration rate

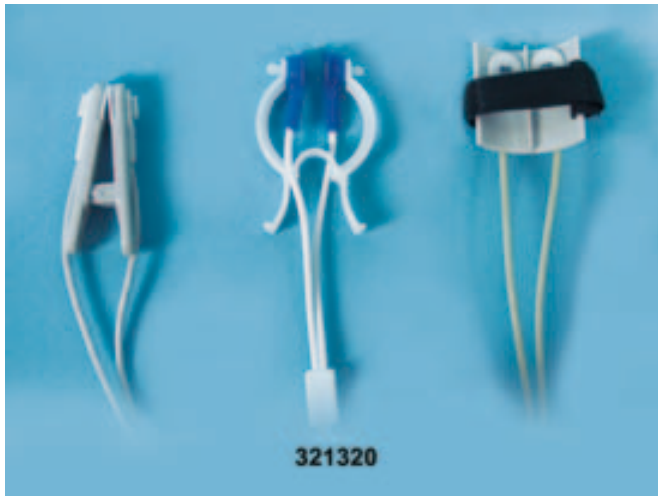

- End Tidal CO₂ with sidestream technology (also suitable for small animals)
- displays plethysmographic wave form of end tidal CO₂ values
- digital SpO₂ especially developed for veterinary use
- 3/5 lead ECG with display of the heart rate, dual temperature and respiration rate
- invasive and non-invasive blood pressure
- on-screen trending of all monitored parameters
- intuitive point and click user-interface
- data storage via flash-card possible
- 4-trace, 10.4" active matrix colour TFT display, built-in printer
- user selectable alarm limits all parameters
- mains or battery powered
- network compatible
- integrated handle enhances portability
- compact dimensions: 340x310x180mm, weight = 6.8kg

321850

Paper for printer 4/box

321855

Sensors for Pulse Oximeters, Anaesthesia Monitoring

SENSORS FOR PULSE OXIMETER

- especially designed for veterinary use
- fits all animals
- fits on 321408, 321800, 321500, 321400, 321390, 321700, 321850, 321860

Lingual Sensor

321330

Nasal C-Sensor, small, for foals

321320

Tail-Wrap-Sensor

321340

VETVISOR EASY

- Multi-Parameter-Monitor with ECG, non-invasive blood pressure, pulse-oximetry, Temperature, Respiration Rate
- user selectable alarm limits
 - state-of-the-art digital signal processing
 - Pulse strength indicator
 - 3 channel ECG
 - Temperature
 - Non-invasive blood pressure measurements (3 cuff sizes included)
 - large 8.4" colour display
 - battery or mains operated

321810

- Multi-Parameter-Monitor with ECG, non-invasive Blood pressure, Pulsoxymetry, Temperature, Respiration Rate
- user selectable alarm limits
 - state-of-the-art digital signal processing
 - Pulse strength indicator
 - 3 channel ECG
 - Temperature
 - Non-invasive blood pressure measurement (3 cuff sizes included)
 - large 8.4" colour display
 - battery or mains operated

321810V110

RESPIRATORY MONITOR RESPIVET

With new improved charging system,
SWIVEL Connector and Sensor

- indicates reliable apnea
 - sensor is placed inside the anaesthetic circuit
 - sterile
 - alarmstop with photo eye (no contact)
 - compact
 - long lasting battery
 - displays when battery is low
- 217100**

217100

AUDIO PATIENT MONITOR

Audio patient monitor with oesophagus
stethoscope to monitor heart- and respiration
sounds

- easy and reliable monitoring
- includes 3 Oesophageal stethoscopes
(D = 4/6/8mm)
- battery or mains operated

217600

Oesophageal Stethoscope D = 4mm, CH 12

217604

Oesophageal Stethoscope D = 6mm, CH 12

217606

Oesophageal Stethoscope D = 8mm, CH 24

217608

217600

Ultrasonic Doppler, Blowtube Systems

ULTRASONIC DOPPLER BLOOD FLOW DETECTOR

- Reliable and precise non invasive blood pressure measuring for small animals
- acoustical monitoring of blood flow during anaesthesia
- place probe over peripheral artery

Ultrasonic Doppler 811B, with Probe and Charger

217300

Sphygmomanometer with two Cuffs (width = 5.0cm and 7.5cm) for small animals

- in application with Doppler 217300

217301
Blood Pressure Cuff, width = 1.9cm, for small cats

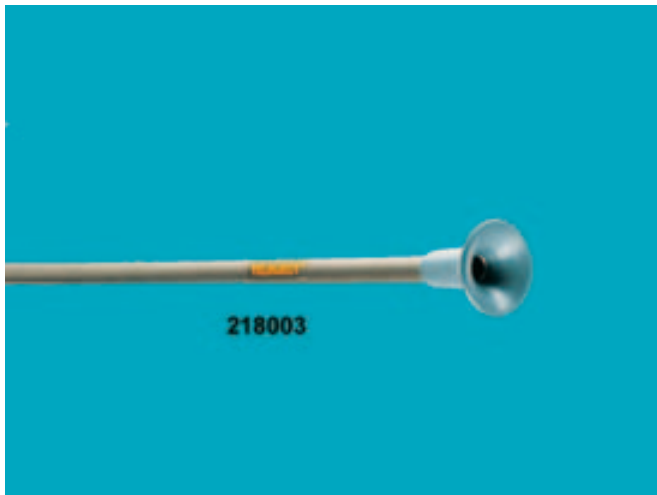

not illustrated

217307

Blood Pressure Cuff, width = 3.3cm, for cats and small dogs

not illustrated

217308

TELINJECT BLOWTUBES

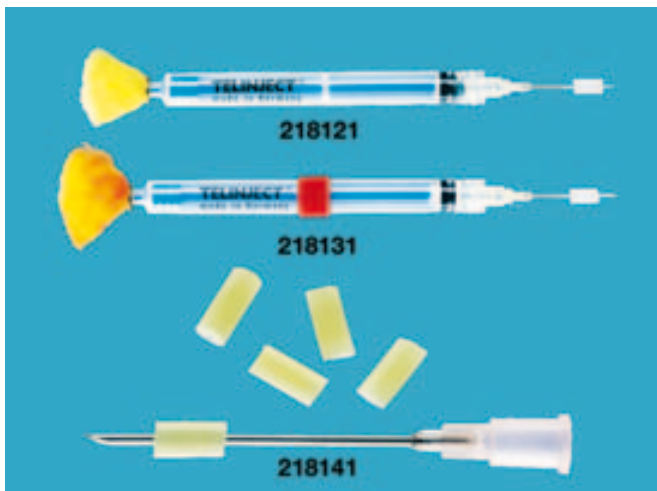

- including 10 syringes, 3.0ml, with needle 1.1x38mm
- with mouth piece

Blowtubes Set, length = 1m, distance = 5m

218003

Blowtubes Set, length = 2x1m, distance = 12m

218103

SYRINGES AND NEEDLES FOR TELINJECT BLOW TUBE SYSTEM

Lightweight syringe, 2ml, w/o needle (yellow)

218121

Lightweight syringe 3ml, w/o needle (orange)

218131

Needle for blowtubes, 0.9x25mm

218140

Needle for blowtubes, 1.1x30mm

218138

Needle for blowtubes, 1.1x38mm

218141

Needle for blowtubes, 1.2x38mm

218142

TELINJECT BLOWGUN VARIO

For large animals

- lightweight
- distance up to 25m
- easy targeting
- including pump

218200

SYRINGES AND NEEDLES FOR TELINJECT BLOWGUN VARIO

Syringe 3ml, w/o needle (red)

218204

Needle, 1.5x30mm

218205

Needle, 1.5x38mm

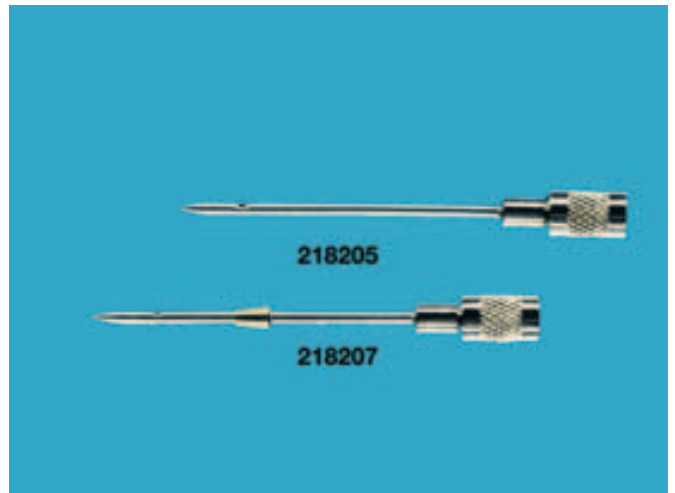

218206

Needle, 1.5x38mm

218207

VARIO-Kit, incl. 10 syringes, needles and accessories

218210

PROFESSIONAL-INHALATION SYSTEM FOR HORSES

Ultrasonic-Inhalator "Air-one"

- high nebulisation
- clear mask
- easy application of the mask
- compact and sturdy housing
- removable valves
- incl. wall mount

219270

INHALATION MASK FOR HORSES

Heavy duty transparent plastic

220190

STAINLESS STEEL RACK FOR COLLARS

For orderly storage of the collars according to size

220100

PLEXIGLAS COLLARS FOR PARROTS

- sturdy plexiglas construction
- protect wounds
- easy to apply
- long lasting

For grey parrots, ID = 35mm, height = 4cm

220400

For parrots, ID = 25mm, height = 3cm

220525

For parrots, ID = 30mm, height = 3.5cm

220530

For macow parrots, ID = 45mm, height = 5cm

220545

Bird Collars, Equine Neck Cradle, Battery Handles, Rechargeable Handle

BIRD COLLARS

Prevents the bird from picking feathers and wounds

- easy to apply
- set of 15pcs, includes:
5x8cm, 5x10cm, 3x14cm and 2x20cm

220215

NECK CRADLE

For horses, wooden

- restrains and protects the horse
- easy to apply

222000

HEINE RECHARGEABLE HANDLE SYSTEM BETA NT

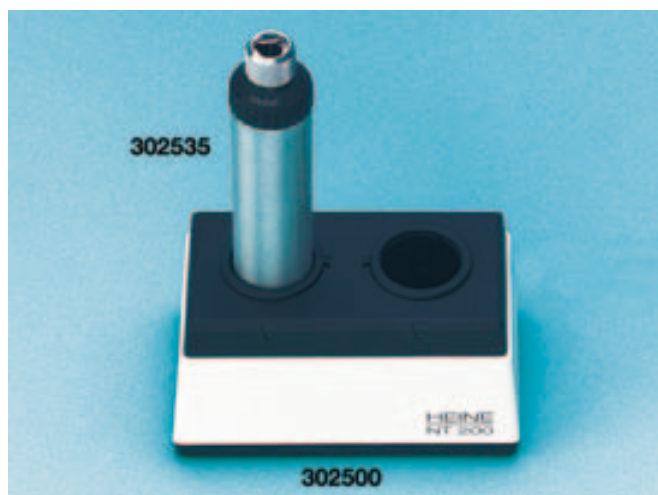

HEINE NT 200 Charger for two Handles

- for all HEINE rechargeable handles
- constant automatic charging
- reduced charging time, increased battery life
- cannot be over-charged
- w/o handle

302500

HEINE BETA NT 3.5V Rechargeable Handle

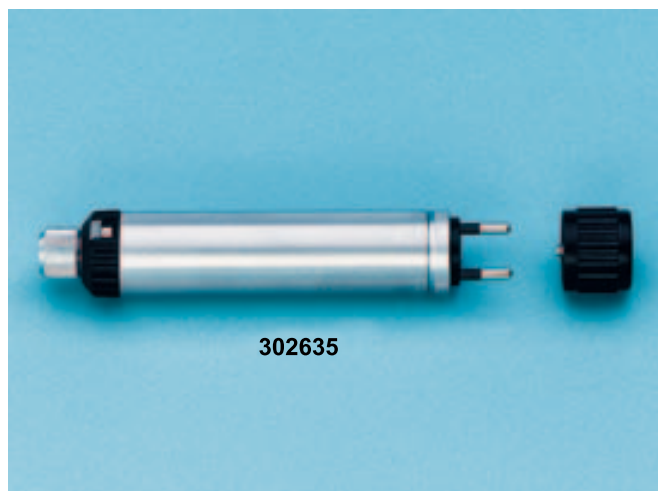

302535

RECHARGEABLE HANDLE HEINE BETA R 3.5V

- ideal for outdoor practice
- can be charged on any wall outlet

302635

Battery Handles, Slit Illumination Head, Speculas

HEINE BATTERY HANDLE MODULES

Handle module for BETA handle system

302400

Extension for Beta handle module to convert in 3.5V handle

not illustrated

302405

Bottom insert for battery handle module (2.5V), *not illustrated*

302425

Bottom insert for battery handle module (3.5V)

302435

Battery for BETA NT 3.5V handle

302436

Long-lasting lithium ion rechargeable battery for BETA NT 3.5V handle

- continuous use up to 120 minutes

302437

Bottom insert to charge directly on every 220V wall outlet

302637

VET Eickemeyer®

www.eickemeyer.de

HEINE SLIT ILLUMINATION HEAD

Ideal for catheterisation, foreign body removal, etc.

- solid metal construction

- 3.5V fiber optic illumination

- multi-coated, scratch-resistant swivel lens with 2x magnification

- double bayonet lock for specula

300035

Spare Swivel Lens with 2x magnification

300080

VETERINARY SPECULA, SANALON

- light weight, very durable

- easy to clean with standard germicides

- long-lasting, positive fit to the otoscope

- fits to Slit Illumination Head No. 300035

D = 2.2 x40mm

300122

D = 2.8 x40mm

300128

D = 3.5 x40mm

300135

D = 10mm

300410

D = 15mm

300415

SPREADABLE SPECULA

60mm, extra small specially designed to remove foreign bodies from ears

- fits to Slit Illumination Head No. 300035

300501

100mm, for general examination, also usable as a vaginoscope

- with ratchet and spring
- fits to Slit Illumination Head No. 300035

not illustrated

300502

OTOSCOPE SET ECONOMY

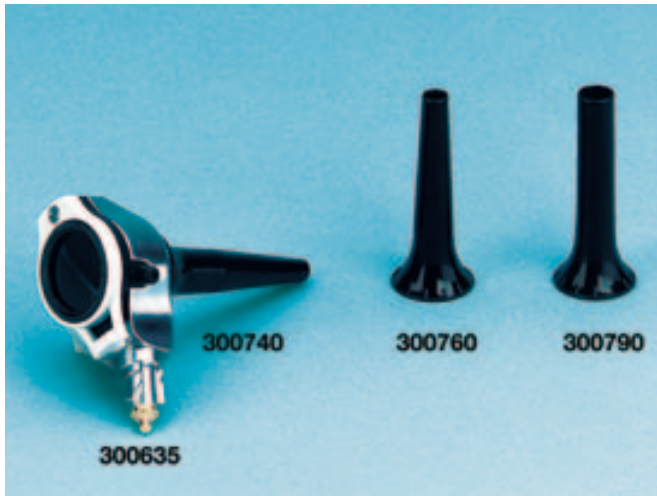

For daily use, contains:

- handle with 2 batteries
- otoscope head
- 3 specula's with D = 0.4 / 0.5 / 0.6mm, length = 4.5cm
- best price performance

300551

Otoscope Head, Veterinary Diagnostic Set, Vaginoscopes

HEINE BETA 200 VET OTOSCOPE HEAD

- 3.5V fiber optic illumination
- large, scratch-resistant, swivelling glass viewing window with 3x magnification
- durable metal body, matte chrome-plated
- reusable Sanalon specula

300635

Veterinary long speculum,
D = 4 length: = 61mm

300740

Veterinary long speculum, D = 6 length = 61mm

300760

Veterinary long speculum, D = 9, length: 61mm

300790

Set of 3 pieces (D = 4, 6, and 9mm)

300703

VETERINARY DIAGNOSTIC SET

G 150 complete with BETA R 3.5V handle,
rechargeable in every 220V wall outlet

301635

G 150 complete with BETA R 3.5V handle and
battery charger base
not illustrated

301535

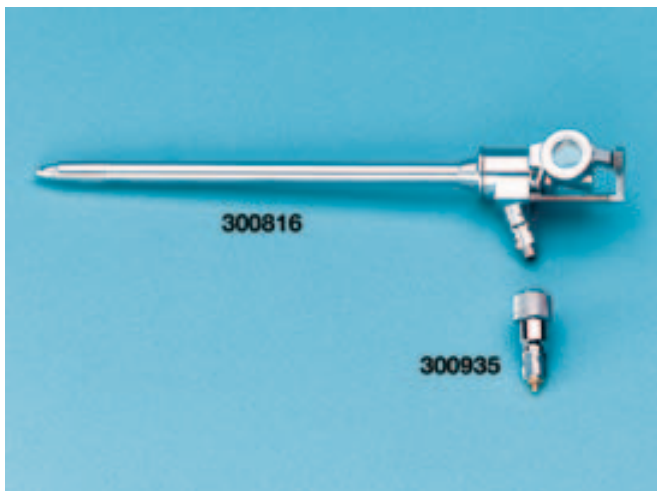

VETERINARY DIAGNOSTIC SET

G 148 complete with BETA R 3.5V handle,
rechargeable in every 220V wall outlet

301835

G 148 complete with BETA R 3.5V handle and
battery charger base
not illustrated

301735

CANINE ENDOSCOPE

Ideal for vaginal and rectal examination, can
also be used as a gastroscope

- brilliant halogen illumination for good visualisation
- with blunt trocar
- can be connected to fibre light cable

D = 11.4 length = 200mm

300811

D = 16 length = 250mm

300816

D = 20 length = 300mm

300820

Adaptor for fibre optic instruments, to connect
with HEINE 3.5V Battery Handles

300935

RIGID ENDOSCOPE FOR SMALL ANIMALS AND HORSES

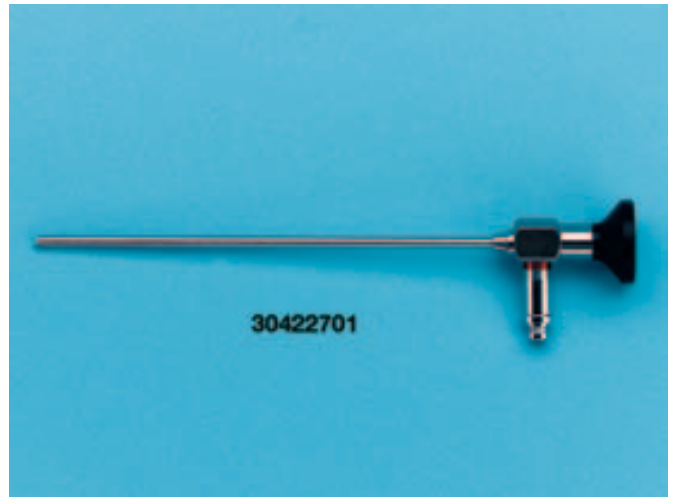

- precision optic, brilliant colours
- rod lens system
- 30° viewing angle allows greater field of view
- application areas: rhinoscopy, arthroscopy
- soakable
- autoclavable endoscopes on request

D = 1.9mm, length = 10cm, 30° Optic
30421901

D = 2.7mm, length = 11cm, 30° Optic
30432701

D = 2.7mm, length = 18cm, 30° Optic
30422701

Arthroscope for horses, D = 4.0mm, length:
18cm, 30° Optic
304340

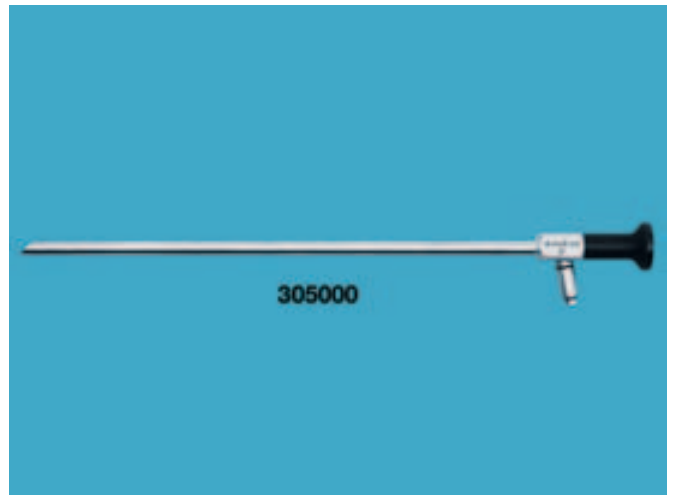

LAPAROSCOPES FOR MINIMAL INVASIVE SURGERY

- E.g. for laparoscopic surgery on bitches
- brilliant colours
 - rod lens system
 - precision optic
 - best visualisation

D = 10mm, length = 33cm, 30° Optic
305000

D = 10mm, length = 66cm, 0° Optic,
- specially for equine use
305010

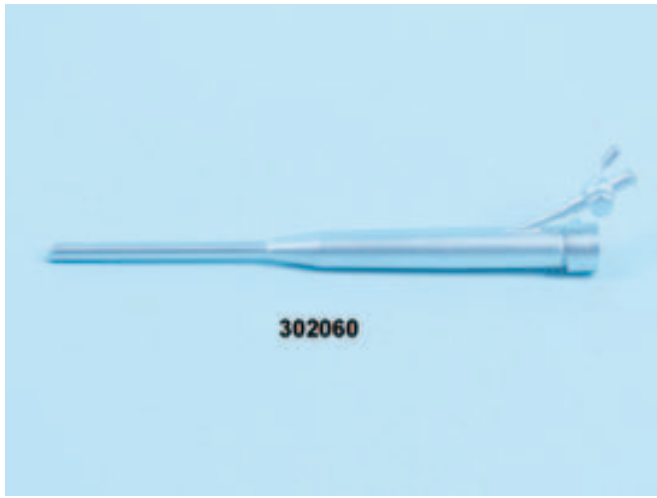

OPERATING SHEATH WITH INSTRUMENT CHANNEL

- with 2 ball valves for suction and flush
- with one blunt trocar
- integrated working channel for flexible forceps up to D = 1.8mm
- ideal for rhinoscopy and otoscopy on cats and dogs

For endoscopes with D = 2.7mm and
length = 11cm
30472802

Otoscope Sheath, Endoscope Sheaths, Arthroscopy Instruments

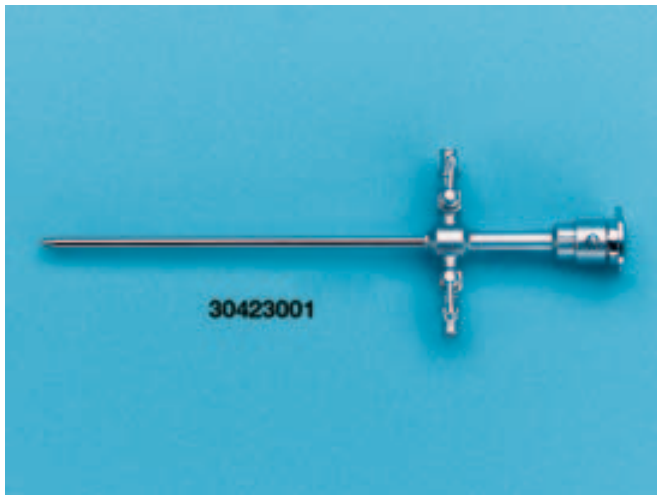

OTOSCOPE SHEATH

- Perfect for examination, removing foreign bodies and taking biopsies
- Luer lock with closure for flushing the ear
- robust and durable
- rounded edges
- with high flow

D = 5mm (distal end), with working channel
D = 2mm, length = 18cm, for rigid endoscope
No. I30422701

302060

ARTHROSCOPY SHEATHS

- high flow
- with stopcock
- Luer lock
- with one blunt and one sharp trocar

For endoscopes with D = 1.9mm, length = 10cm
30431901

For endoscopes with D = 2.7mm, length = 11cm
30433001

For endoscopes with D = 2.7mm, length = 18cm
30423001

For endoscopes with D = 4.0mm, length = 18cm
304345

Instrument-working-sheath, D = 5.5mm

- easy to use
 - for arthroscopic procedures
 - protects your endoscope
- not illustrated*

304732

VET Eickemeyer®

Our service – Your benefit

Our skilled instrument makers can fully inspect your instruments and take the necessary steps to return them to an excellent working condition.

ARTHROSCOPY INSTRUMENTS

Spoon Forceps, OD = 2.7mm, working length: 12.5cm

304742

Hook Scissors, OD = 5mm, straight, working length = 13cm

304743

Universal Grasping Forceps, OD = 2.7mm, working length = 12cm

304745

Biopsy Forceps, D = 3.4mm, working length = 13cm, handle with ratchet

304515

ARTHROSCOPY INSTRUMENTS

Fits through instrument working channel

Hook, 2mm

304755

Curette with round hole, delicate

304759

Curette, delicate

304758

Circular knife, straight, 3.5mm

304536

Knife for endoscopy, extremely sharp

304756

Knife, double-edged, very sharp

304757

Elevator, 2.8mm

304761

Meniscus knife

304760

Hook knife

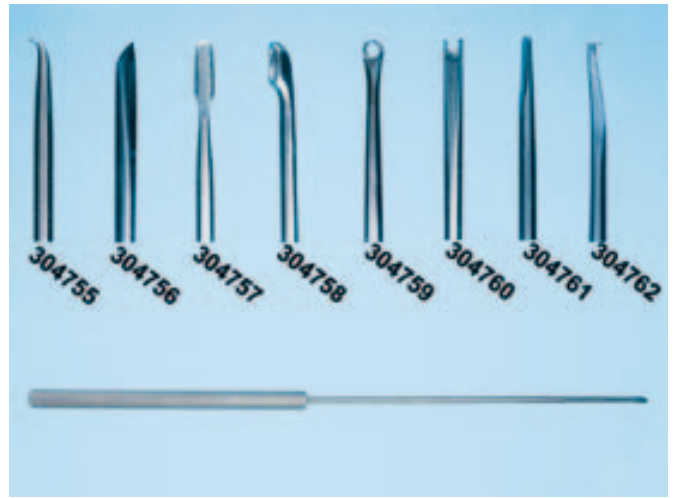

304762

Knife, retrograde, very sharp

304738

Hand milling cutter

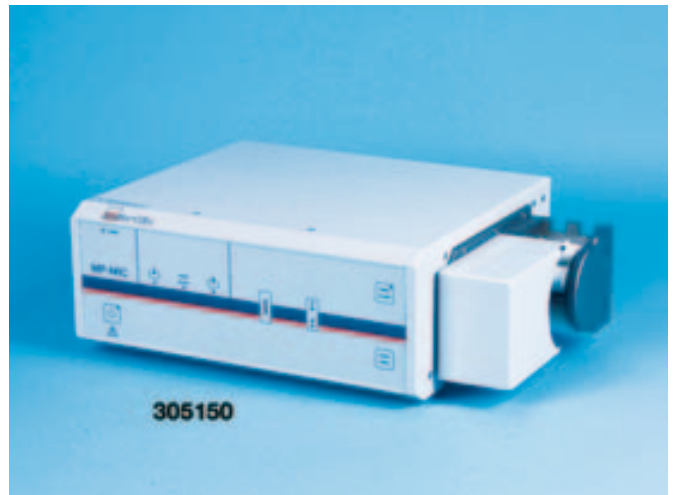

304744

SUCTION- AND IRRIGATION PUMP MIC

Pump for silicone tube, with foot switch, demonstration model

305150

ARTHROSCOPY INSTRUMENTS FOR HORSES

Extra strong sheaths guarantees the long life for your instruments.

- Length = 23 cm

Hook and retractor, 3.5mm

304535

Chisel, straight, 4mm

304564

Chisel, 6mm

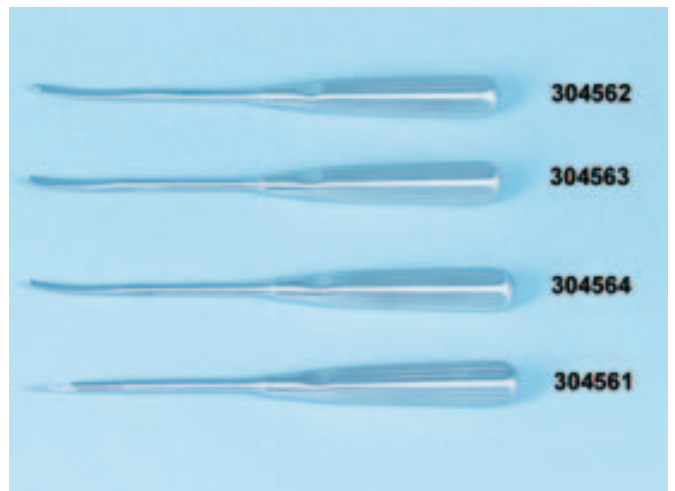

304563

Special knife, heavy model

304561

Elevator, curved, 6mm

304562

Arthroscopy Instruments, Pressure Infusor, Rigid Endoscopes

ARTHROSCOPY CURETTES FOR HORSES

Extra strong sheaths guarantees the long life for your instruments.

Length = 23.5 cm

Suction curette, straight, oval spoon
6.5x3.8mm, with suction hole (Luer lock)

304565

Suction curette, straight, oval spoon,
5.0x2.8mm, with suction hole (Luer lock)

304566

Spoon, oval, 3.0x2.0mm

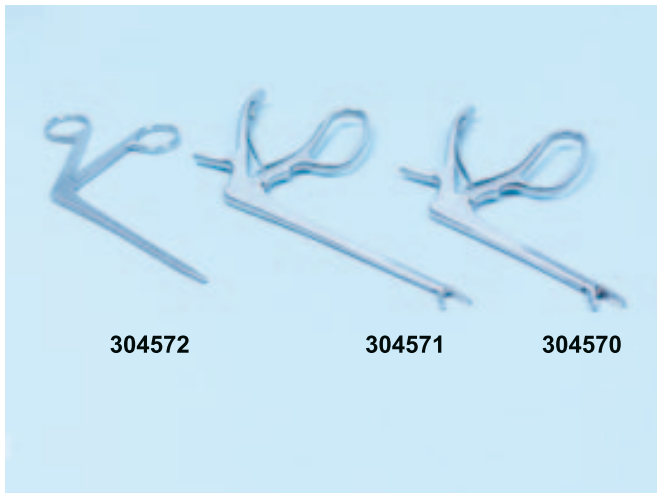

304567

Spoon, oval, 5.0x3.0mm

304568

Spoon, oval, 7.0x5.0mm

304569

ARTHROSCOPY RONGEURS FOR HORSES

Extra strong

Hook scissors 4x10mm, length = 150mm, very sturdy

304574

Rongeur, 3x10mm, length = 180mm, very sturdy

304570

Rongeur, 5x10mm, length = 140mm, very sturdy

304571

WAGNER modified, heavy model, shaft-length = 9cm, mouth 5x7mm

184705

Rongeur "Chip-Remover", 5x15mm, length = 12cm, with teeth

304572

PRESSURE INFUSION CUFFS

For Veterinary Arthroscopy

- with pressure gauge
- for collapsible IV bags
- IV bag fits inside mesh and nylon bag

For infusion bag 500–1000ml, with hand pump

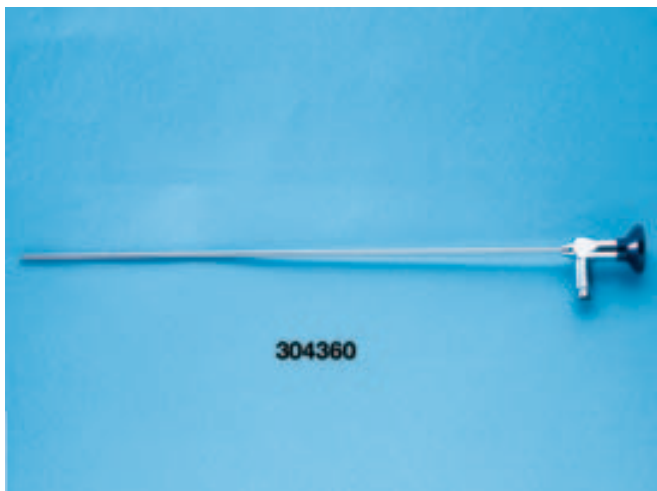

402040

For infusion bag 3000ml, with hand pump

402043

For infusion bag 3000ml, with foot pump

402045

RIGID ENDOSCOPE

Especially designed for artificial inseminating bitches

D = 4mm, length = 36cm, 30° optic

304360

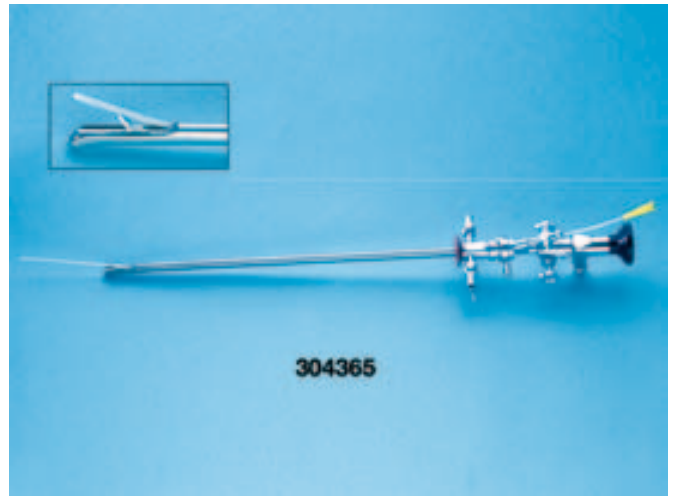

Sheath, Pressure Infusor, Inflow Cannula, Sheaths and Trocars

SHEATH WITH ALBARRAN STEERING ARM

For Endoscope No. 304360

- with working channel
- with two cocks
- with one blunt and one sharp trocar

304365

CO₂ / PRESSURE INFUSOR

Ideal for the CO₂ and/or supply of liquid during endoscopic and arthroscopic surgery for better illustration e.g. large joints with synoviti

- up to 300mm Hg pressure
- automatic pressure control
- easy to operate
- reliable

304573

INFLOW CANNULA WITH SHARP TROCAR

- with stopcock
- for irrigation of joints

D = 3.2mm, length = 7cm

304532

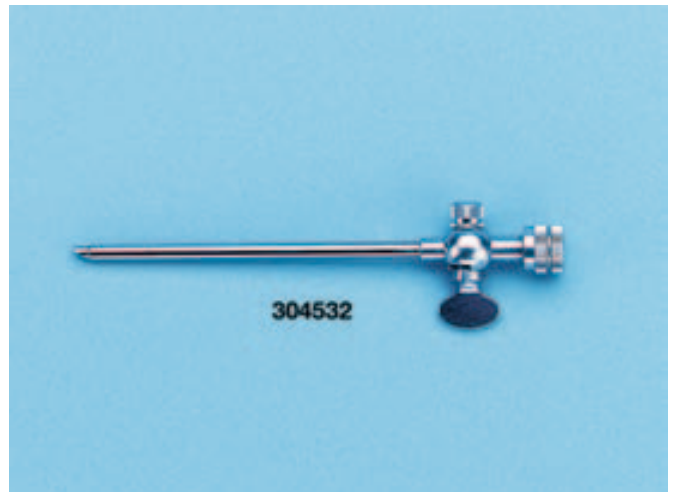

D = 4.5mm, length = 7cm

304545

Silicon tube, length = 2m

not illustrated

304645

AUTOMATIC-TROCAR SHEATHS WITH STOPCOCK

- automatic closure after removing the trocar
- trocar pin with pyramidal tip

ID = 5mm, with stopcock and pin

- for laparoscopes and instruments up to D = 5mm

305021

ID = 10mm, with stopcock and pin

- for laparoscopes and instruments up to D = 10mm

305020

Reduction piece, plastic, from 10 to 5mm, for No. 305020

305019

Sheaths and Trocars, Laparoscopy Instruments, CO₂-Insufflator

SAFETY ENDOSCOPE SHEATHS

Automatic protection of the sharp tip after foramination of the abdominal wall

- with valve
- Luer lock connection
- with one blunt and one sharp trocar

ID = 5mm, with stopcock and pin

305023

ID = 10mm, with stopcock and pin

305022

Reduction piece for safety trocar, from 10 to 5mm

- for No. 305022

305024

LAPAROSCOPIC INSTRUMENTS

Tissue forceps, ratchet, D = 5.0mm, length = 33cm

305015

Tissue forceps for threads (MARYLAND-Dissector), ratchet, D = 5.0mm, length = 33cm

305025

METZENBAUM scissor with ratchet, D = 5.0mm, length = 33cm

305035

Hook scissors, D = 5.0mm, length = 33cm, w/o ratchet

305030

METZENBAUM scissor with ratchet, curved, D = 5.0mm, length = 33cm, handle insulated

305036

Biopsy forceps with ratchet, D = 5.0cm, length = 33cm

305039

Knot Guide

305040

CO₂-INSUFFLATOR

Incl. pressure-tube and insuflation-tube

- automatic gas flow adjustment
- constant intra-abdominal pressure
- pressure pre-selection 4–25mm Hg

305250

Cylinder Attachment fits for 0.75 l CO₂-Cylinder
not illustrated

305202

CO₂-Cylinder 0.75l
not illustrated

305207

VERESS pneumoperitoneum needle
D = 2.0mm, length = 100mm, Luer lock
not illustrated

305002

UNIVERSAL FIBRE OPTIC CABLE

- fits on any light source or endoscope with optional adapters
- autoclavable and soakable

3.5×1800mm, grey

306518

3.5×2300mm, grey

306523

4.9×1800mm, grey

Large fibre optic cable offers bright light

306520

3.5×1800mm, grey

Especially for Xenon light source

306525

FIBRE OPTIC CABLE ADAPTORS

Lightsource Channel ,EICKEMEYER‘

LIGHT SOURCES VETLUX

VETLUX – 150 Watt bright halogen

- compact halogen light source with variable output
- quiet running
- optional adapters for other manufacturers available
- great value

302950

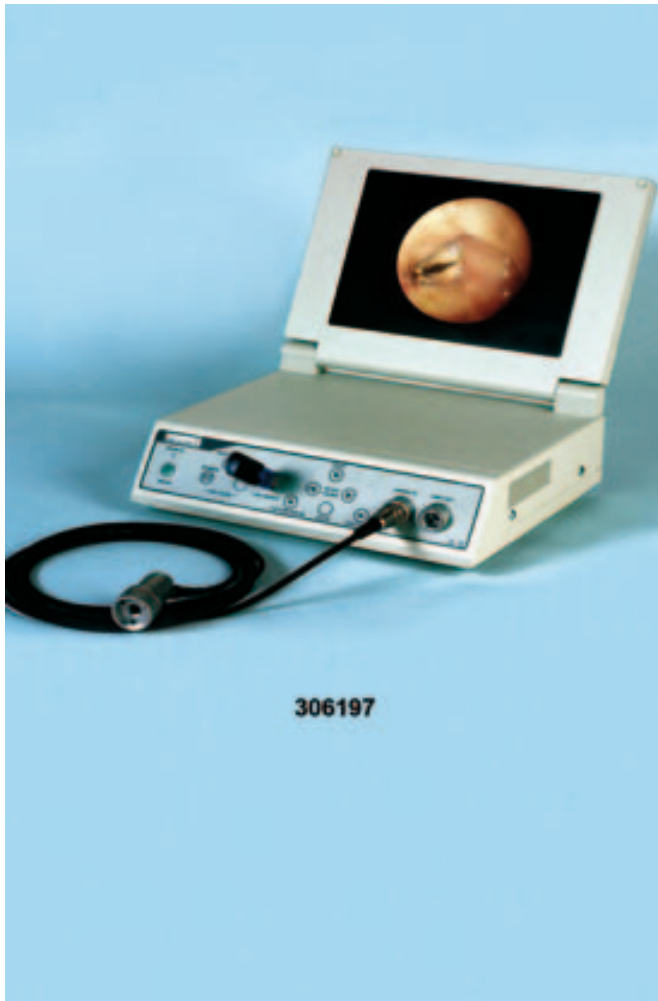

VETLUX PLUS 150 W bright halogen with air insufflator

- ideal for rigid endoscopes
- automatic air
- optional adapters for other manufacturers available
- great value

302960

Multifunction Videosystem, Light Source, CCD-Cameras

306197

XENON MULTIFUNCTIONAL VIDEOSYSTEM

Multifunction Videosystem with xenon lightsource, 24 Watts

- high resolution CCD color camera
- easy to operate
- large 10.4 " color LCD monitor
- incl. Insufflation pump for flexible endoscopes
- Images can be stored on an USB stick and easily transferred to the PC
- with standard endoscopic coupler
- please indicate Endoscope brand when ordering

306197

Multifunction Videosystem (Motion), see 306197, with video capture capability *not illustrated*

306198

302987

LIGHT SOURCE XENOVET PLUS

180 Watt XENON, with air insufflator for flexible endoscopes

- improved high intensity white light for pure colour reproduction
- automatic air for insufflation
- long-life lamp, easy to change
- for brighter illumination around the peripheral area
- optional adapters for other manufactures available

302987

306180

VET-CCD CAMERA

A high resolution CCD-chip guarantees brilliant, sharp and high clarity pictures

- PAL/NTSC system
- waterproof camera head
- easy handling
- with adaptor for endoscopes with standard optic

306180

VET-CCD PRO CAMERA

incl. endoscope-adaptor

For flexible endoscopes with length of more than 1.50m, incl. endoscope and TV-adaptor

- high resolution CCD-Chip guarantees best pictures
- PAL system
- easy handling with OnScreen-Display
- electric Anti-Moiree-Filter

306182

ENDOSCOPE ADAPTER

C-Mount water resistant

- fits on almost every endoscope

306206

VET Eickemeyer®

Your reliable source for
innovative products

Image Capture System, Lightsource with CCD-Camera

306195

USB BASED IMAGE CAPTURE SYSTEM

- Image digitalisation for Endoscopy, Sonography, Microscopy etc.
- simply connects between camera and monitor
 - foot operated switch takes a full image
 - automatic conversion to a jpeg
 - automatic storing on USB Stick
 - quick and easy transfer to your computer

306195

Type "motion".

Saves analog still- and motion videos
not illustrated

306201

Footswitch for 306201

30620101

306185

CAMLIGHT 150

Powerful light source in combination with a high resolution CCD-Camera

- bright light source (150 W)
- brilliant colours
- compact all in one
- incl. TV-Adaptor
- best value

306185

HIGH RESOLUTION SONY LCD MONITOR

- provides high resolution images
- up to 16.7 Mio colors
- PAL/SECAM/NTSC
- operation settings by using the on-screen menu
- 35cm diagonal diameter

30621003

VIDEO OTOSCOPE

With integrated working channel, endoscope ocular and standard adapter for light source

- to connect to standard CCD-Cameras
- brilliant focusing with variozoom
- can be connected to standard fibre optic cable
- instrument channel for foreign body forceps, irrigation and suction
- working length = 55mm, D = 5mm

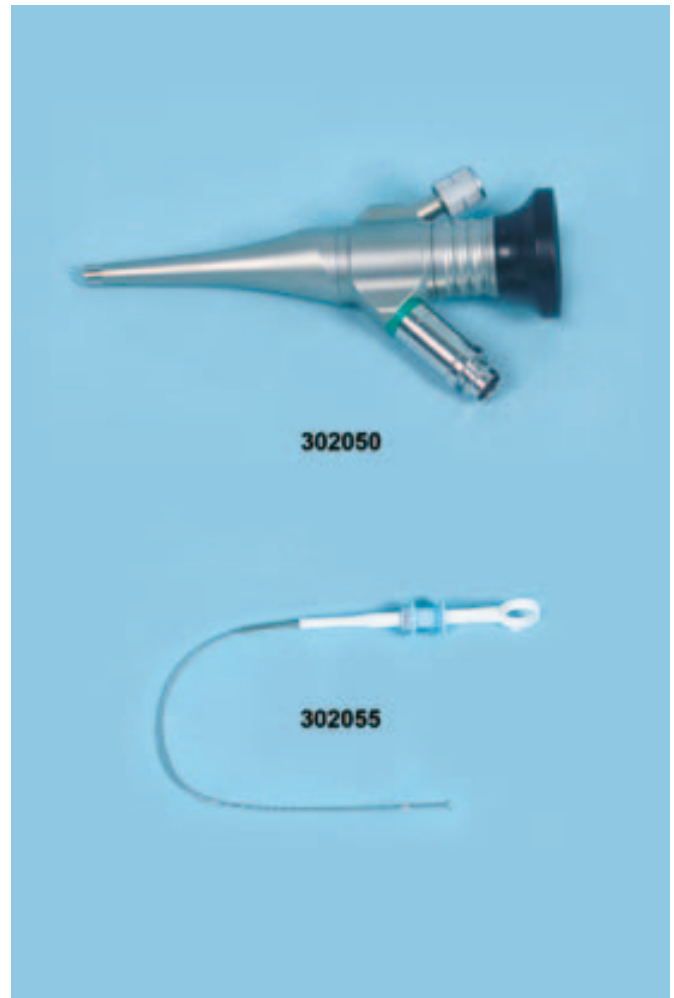

302050

Flexible foreign body forceps for video-otoscope, D = 1.8mm, length = 250mm, *not illustrated*

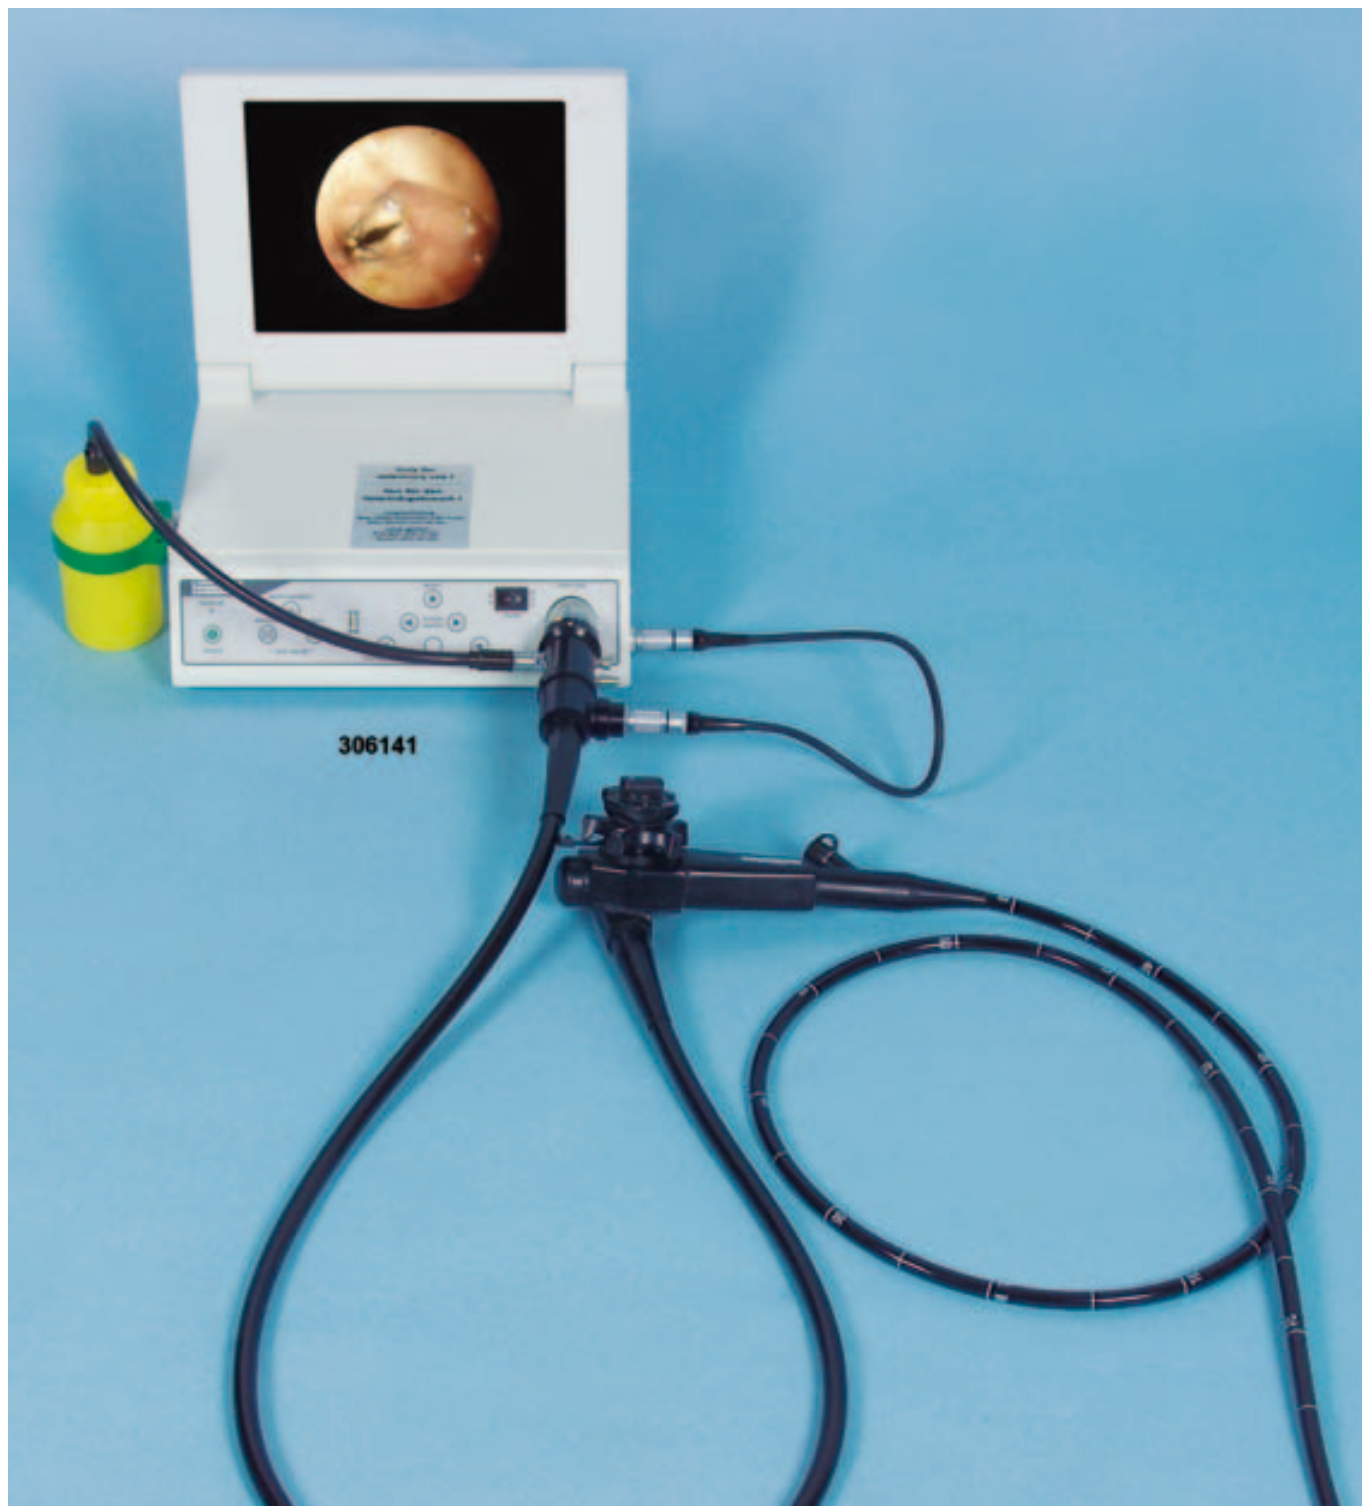

302055

Cleaning brush for video-otoscope *not illustrated*

302056

Videoendoscope

VIDEOENDOSCOPE WITH MULTIFUNCTION-VIDEOSYSTEM

- with Xenon lightsource, 24 Watt
- high resolution ccd colour camera
- large 10.4 " color LCD monitor
- incl. Insufflation pump for flexible endoscopes
- Images can be stored on an USB stick and easily transferred to the PC

OD = 9.5mm, working channel D = 2.8mm, length = 150cm for small animals with multifunction system "still"

306144

FLEXIBLE ENDOSCOPE VFS 2A / VFS B

Specially designed for small animals

- shaft length = 100cm
- operating channel: 2.0mm
- including accessories

VFS-2A

- two way end tip deflection, 120° up/down
- shaft diameter: D = 6.4mm
- field of view: 70°

306102

VFS-2B

- end tip deflections 180° up, 120° down/left/right
- shaft diameter: D = 6.6mm
- field of view: 95°

306103

FLEXIBLE ENDOSCOPE VFS-8

For cytoscopy, rhinoscopy and urology

- shaft length = 86cm
- shaft diameter: D = 3.0mm
- field of view 95°
- operating channel: 1.3mm
- with fibre light cable

306108

FLEXIBLE ENDOSCOPES FOR HORSES

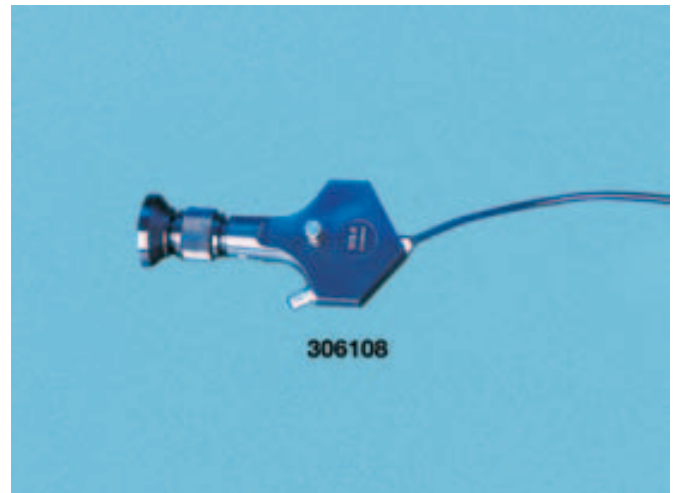

Ergonomically designed handle with automatic air, water and suction valves are ergonomically placed for comfortable single handed operation For Bronchoscopy and Gastroscopy

Flexible Endoscope VFS-300

Technical Details:

- shaft length = 300cm
- shaft diameter: D = 9.9mm
- field of view: 100°
- end tip deflection: 180° up/down, 160° right/left
- operating channel: D = 2.8mm

306130

Ultrasound Machines

ULTRASOUND MACHINE EICKEMEYER MAGIC 1100

Portable Ultrasound Unit for the Equine Practice, including transducer 5.0 MHz and charger.

- picture mode: B, B/B, B/M, M
 - grayscales: 256
 - screen with over 14cm screen diagonal
 - flicker-free SVGA screen for sharp pictures
 - Cine Memory for 64 pictures
 - 8 pictures can be permanently memorised
 - multi-frequency probe connection
 - weight = 4.5kg
 - Dimensions: L = 275 x B = 304x H = 160mm
- 303800**

ULTRASOUND MACHINE EICKEMEYER MAGIC 1000 PLUS

- Scanning Method: Electronic linear
 - Display Modes: B, B+B, B+M, M;
 - Display: 10" non-interlaced monitor
 - Gray Scale: 256
 - Linear rectal probe
 - Transducer Connector: 1
 - Dynamic Imaging Technology:
Digital-Beam foaming (DBF)
 - Cine Loop: 128-frame cine loop memory
 - Storage Media: Internal flash and USB stick
 - Built-in Image Archive: Permanent Storage
up to 90 images
 - Dimensions:
270 mm (H) x 320 mm (L) x 360 mm (W)
 - Weight: 9.5 kg;
- 303810**

303700

ULTRASOUND MACHINE EICKEMEYER MAGIC 5000 DIGITAL

Digital and compact!

- portable unit with exceptional image quality
- fully digital beam-former technology
- ideal for use in the clinic and for outdoor examinations
- image mode: B, B/B, B/M, M
- grey scale: 256 levels
- 10-inch SVGA high resolution monitor
- cine memory of 128 frames
- permanent storage on built-in memory, and USB disk
- Measurements: distance, circumference, area, volume, ratio, angle, histogram, profile
- patient information management
- software package: canine, feline, equine, bovine and ovine
- dimension: H = 680x W = 390xT = 530mm
- weight = 11kg

303700

Trolley for MAGIC 5000 Digital

Multifrequency probe 5.0 MHz linear rectal for
MAGIC 5000 Digital

- frequency change over from 4.0/5.0/6.5 MHz
303712

COLOUR DOPPLER MAGIC 8000

- Colour doppler technology at b/w prices
- including multifrequency transducer micro-convex (5.0/6.0/8.0 MHz)
- including multifrequency transducer T-shaped (5.0/7.5/10.0 MHz)
- Display Modes: B, B/B, B/M, M, Color mode, PW
- Greyscales: 256
- TGC Control: 8 Steps
- extensive measurement capabilities
- large 14" monitor
- Cine Memory for up to 1024 images
- internal memory, CD RW
- Comprehensive Patient Data Management
- 2 USB Ports, Ethernet port
- Dimensions H = 1250 x W = 630 x T = 1440 mm
- Weight = 135kg

ULTRASOUND MACHINE ALOKA SSD-500

The ALOKA SSD 500 offers high quality resolution for precise diagnosis. An unmatched combination of performance and portability makes the SSD 500 the versatile ultrasound unit for both large and

- image modus: B, B/B, B/M, M
- grey scale: 256
- focus: 4-point-focusing
- probes: linear, micro-convex and convex
- clear flicker free 7" monitor
- dimensions: D = 290 x W = 250 x H = 320mm
- weight = 10kg
- Monitor: 18cm diagonal

303901500

TRANSDUCER 5.0 MHZ LINEAR

For ALOKA SSD 500

- slim rectal probe
- for rectal examination of mares and large animals

303906

TRANSDUCER 5.0 MHZ CONVEX

For ALOKA SSD 500

- for complete abdominal sonography on small animals

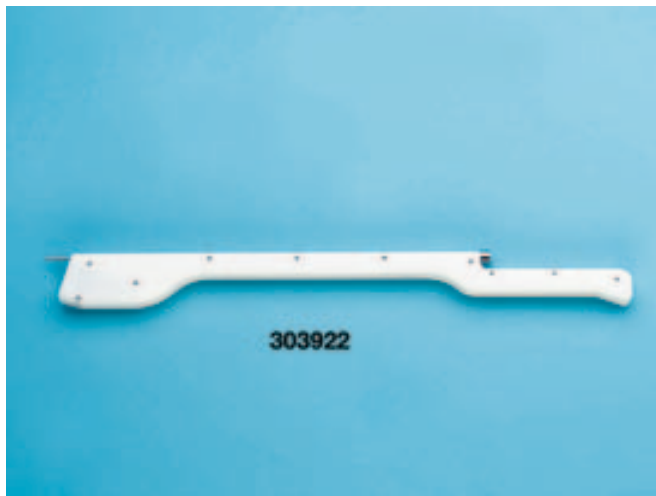

303908

ASPIRATION SYSTEM

For bovine follicle puncture under ultrasound diagnostics

- easy to use
- for reproductive medicine
- attachable to probe 5.0 MHz No. 303908

303922

HAND SWITCH FOR ALOKA SSD 500

Easy freezing or printing of image

- to clip on jacket
- ideal for rectal exams
- just press desired button

OFFSET FOR PROBES

To show tendons with 5.0Mhz linear probe

- excellent coupling
- robust aluminium case
- ergonomic design

For ALOKA and EICKEMEYER Magic probes

303927

EICKEMEYER

Magic 9000

Brilliant color imaging capability and excellent 2D performance, with impressive THI (tissue harmonic imaging) for better contrast and spatial resolutions

Ultrasound Made Portable

Scan Method Electronic linear, convex, micro convex, phased array • **Gray Scales** 256 • **Display Modes** B, B+B, B+M, M, Color mode, Power mode, PW Mode, CW • **Broadband & Multifrequency probes** 5,0 / 6,5 / 8,0 MHz (mikro-konvex) 5,0 / 7,5 / 10 MHz (linear T-shaped) 2.0/2.5/3.0 MHz/H 3.5/H4.0MHz (phased array) • **TGC control** 8 Stufen • **Measurements** Distance, area, volume, circumference, angle, EDD, kardiologische Messung • **Screen** 15" Monitor • **Patient Information** Comprehensive Patient Data Management • **Cine Memory** 1024 Frames • **PC-Connectivity** USB-Port (2), VGA, Serial Port, Audio Port, Mic Port • **Power Supply** Netz-und Akkubetrieb möglich • **Video Output** Composite video / VGA / S-VIDEO / RGB • **Transducer Connectors** 3 • **Dimensions** H = 361 x B = 357 x T = 75 mm • **Gewicht** 6 kg

Scan Depth: up to 30cm deep.

Complete imaging modes:

2D, M, PW, HPRF, CW, Free Xros™ (anatomical M mode), Color, Power and DirPower.

iScape™ View (panoramic imaging) and trapezoidal imaging expands to a wider field of vision

iBeam™ function, which is a spatial compounding imaging technology, increases spatial resolution without any compromise in frame rate, thus collecting more useful information to generate higher quality images.

Quickly optimize the image quality with one button iTouch™ (intelligent image optimization) for better whole field grayscale and uniformity

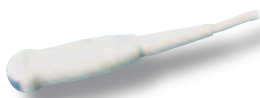

- I- P (image processing) for balanced parameter groups
- Soft keys for direct menu function on the interface
- Small size – easy to transport
- Weight: 6kg

Stethoscopes

3M LITTMANN STETHOSCOPES

Known worldwide for superior acoustics

LITTMANN CLASSIC II S.E., 71cm

- dual head chestpiece with "Dual-Frequency" membrane
- single tube
- internal spring
- diaphragm diameter = 47mm
- bell diameter = 36mm

310035

LITTMANN CLASSIC II, 71cm for small animals

- dual head chestpiece with "Dual-Frequency" membrane
- single tube
- internal spring
- diaphragm diameter = 23mm
- bell diameter = 30mm

31004002

Ear-tips for stethoscope LITTMANN, pair

310037

EICKEMEYER STETHOSCOPES

Tube length = 40cm

- very good diagnostic quality
- chestpiece with 2 changeable diaphragms
- accessories included
- good price performance

310044

With long tubes, 60cm

310046

LITTMANN MASTER FOR CARDIOLOGY

- 69cm
- unique patented chestpiece with 'Dual*frequency' membrane (D = 50mm)
- suspended diaphragm
- two*tubes*in*one*design
- internal spring

31004003

3M LITTMANN STETHOSCOPE FOR CARDIOLOGY DIAGNOSTICS

LITTMANN Master for cardiology, 69cm
- unique patented chestpiece with Dual-frequency membrane (D = 50mm)
- suspended diaphragm
- two-tubes-in-one-design
- internal spring
31004003

CLINICAL THERMOMETER

Veterinary, extra solid tip, with strong plastic case
- with fixation knob
310130

Digital, water resistant, with beeper, switches off automatically
310140

Probe covers for digital thermometer, 1000/pkg.
- soft foil
- one size fits all
not illustrated
310145

Thermometer jar, stainless steel 30x90mm
- convenient storage and for disinfecting glass thermometres
310170

REFLEX HAMMERS

TRAUBE, 17cm, 100g, metal handle
310217

TRAUBE, 19cm, 190g, wooden handle
310219

TAYLOR, 20cm, rubber, wedge shaped
- ideal for neurological examination of small animals
310220

PLEXIMETERS

HANNOVER pattern, S-shaped, 16cm
310402

Spatula-shaped, for horses
310403

PC-Based Electrocardiogram

PC-BASED ELECTROCARDIOGRAM

Standard with serial port

- 6 lead ECG
- with long ECG recording time (up to 1 hour)
- automatic measurements and storage
- integrated database for patient data
- easy to connect and install
- ECG can be send as an E-Mail
- including 5-lead patient cable and alligator clamps
- easy USB connection

321018

3-lead patient cable with breathing sensor for Monitoring and ECG

321022

Software Installation for the PC-ECG

321025

ECG-Analysing-Service. Our experienced cardiologists analyse your ECG via E-Mail.

- saves time and money

S321020000

Long-term ECG software update (recording up to 1 hr)

321019

ECG RECORDER CARDIETTE

- with 5 lead patient cable
- 60mm paper width
- compact and lightweight (1000g)
- with filter for muscle/net interferences
- optional pc software available

321150

ECG ACCESSORIES

Alligator Clips for ECG recorders, 5/pkg.

321605

Alligator Clips for horses

321606

SURGICAL CO₂ LASER

The ‚Workhorse‘ of Human Laser Surgery now available to the Veterinary Clinic. The laser is an intense beam of light that replaces a scalpel in a number of procedures. It is a multipurpose tool because it cuts, cauterises, vaporizes or sterilises the tissue. The way a laser beam reacts with tissue is what makes such an exceptional instrument. A laser seals nerve endings and blood vessels as it cuts. As a result, the patient feels less pain and there is nearly no bleeding. The energy of the CO₂ beam is emitted in the upper tissue which leads to less infraction of the lower tissue.

Evident Advantages:

- high precision
- reduced blood loss
- clear and dry operation field
- highly sterile surgery
- decreased pre and post-operative pain
- decreased swelling and inflammation
- reduced post-operative irritation
- quicker recovery
- increased survival rate
- powerful: 15 Watt
- small dimensions: L = 61 x W = 36 x H = 21cm
- weight = 12kg

325000

Smoke Evacuation Unit for Laser Surgery

325010

Replacement Filter for 325010

325015

RADIOSURGERY UNIT SURGITRON

- The SURGITRON features a continuously linear intensity setting for precise,
- predictable control to minimise tissue destruction and charring. This promotes faster healing with minimal scarring and serves to eliminate unfavourable post operative conditions such as trauma, pain, swelling and infection.
 - the unique feature is that the entire shaft of the electrodes can be bent or contoured for easy accessibility in all areas
 - the antenna plate does not require direct skin contact.
 - ideal in dermatology, gynaecology, facial (dental/eyes)

140W / 3.8MHz, complete set with Foot Switch, Hand Piece, Antenna Plate and one Set of Electrodes
323000

Electrodes, Depilatory Needles, Radiosurgery Accessories

ELECTRODES FOR BLACK HAND PIECE

- shaft diameter 1/16"
- bendable
- easy to clean

Medizintechnik für Tierärzte

Autoclaves

MELATRONIC 23

- fully automatic sterilising cycle
- all characteristics for a safe sterilisation like ventilation or increase of pressure is done automatically
- more safety: The electronics check automatically if all necessary parameters for a successful sterilisation have been fulfilled
- error-recognition system displays reports of any deviations from complete successful sterilisation process
- long service life through high equipment quality
- insert rack
- includes 1 tray
- internal dimensions: D = 230mm, depth 420mm
- volume: 19 litres
- holds 5 trays (42x19x2cm)
- external dimensions: W = 51cm, H = 38, D = 55cm
- weight: 30kg

50002301

MELATRONIC 23 EN

With fractionated gravity system

- sterilisation programs "Class N" and "Class S"
- high grade electronic microprocessor control
- pressure and temperature sensors for recording and monitoring
- display to show all important informations
- built-in water storage tank
- water quality and dosing is verified fully automatically
- documentation with printer, flashcard or software
- external dimensions: W = 44cm, H = 33cm, D = 50cm
- internal dimensions: D = 23, depth = 45cm
- chamber volume: 19 litres
- incl. 1 tray: W = 19cm, D = 42cm, H = 2cm
- weight = 30kg
- 230 Volt / 50 Hz / 1.600 Watt

50002302

MELAG EUROKLAV 23VS+

- complies european norm "Class S" EN 13060
- microprocessor controlled fully automatic processing
- effective drying
- chamber depth = 45 cm
- PC connectable
- inkl. 1 tray (42 x 19 x 2 cm)
- chamber dimensions: D = 230 mm, depth = 450 mm, Volume = 23 litres
- Outside dimensions:
W = 42.5 x H = 48.5 x D = 66cm
- up to 4kg instruments, 700g textiles
- weight = 35kg

500032

MELAG VACUKLAV 23B+/24B+

- VAKUKLAV 24 B+ for Tap water connection
- works according to the fractionated pre-vacuum method
 - easy, fully automatic operation
 - 4 programs (universal, gentle, quick, prion); 2 test programs (Bowie & Dick, vakuum)
 - the deep post-vacuum ensures optimal drying of wrapped materials and large quantities of textiles
 - automatic water evaluation system
 - inkl. 1 tray (42 x 19 x 2 cm)
 - quick program (only 11 min)
 - Chamber dimensions: D = 230 mm, depth = 450 mm; Volume = 23 litres
 - Outside dimensions:
W = 42.5 x H = 48.5 x D = 66 cm
 - up to 7kg instruments, 2.5kg textiles
 - weight 48Kg

500060

VAKUCULAV 23B+ "stand alone", no tap water connection

500065

Vakuum Autoclave, Trays for Autoclaves, Water-Treatment Systems

500050

VACUCLAV 44B

Class B autoclaves work according to the fractionated pre-vacuum method. For maximum safety and speed.

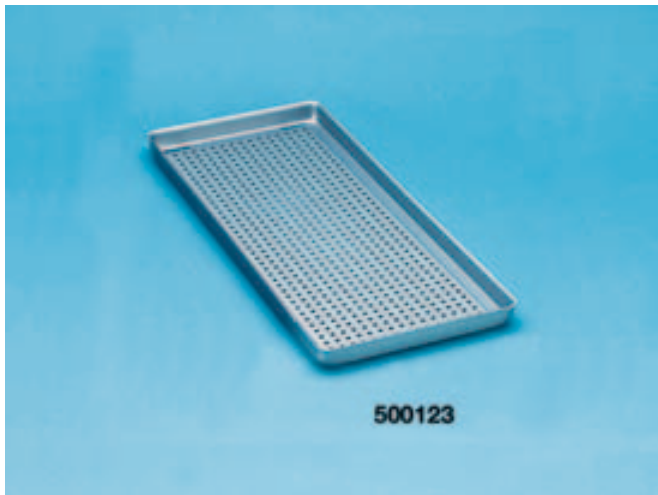

- simple, fully automatic operation
- 5 programs (universal, gentle, quick, prion); 2 test programs (Bowie & Dick, vakuum)
- the deep post-vacuum ensures optimal drying of wrapped materials and large quantities of textiles
- automatic water evaluation system
- Speed program (11 min only)
- Chamber dimensions: D = 250 mm, Depth = 450 mm; Volume = 22 Litre
- Outer dimensions:
W = 46 x H = 50 x D = 68 cm
- up to 7kg instruments, 2.5kg textiles

With tap water connection

500050

Stand alone, no tap water connection

500055

500123

AUTOCLAVE TRAYS

For MELAG, Type 23 and 24 (Type 23 takes 5 trays, Type 24 takes 6 trays)

500123

Tray handle for autoclaves MELAG

E50002402

506510

MELADEM 40 WATER-TREATMENT SYSTEM

To connect to EUROKLAV 23-S and VAKUKLAV 24-B

- the cost-effective ion exchanger
- the MELAdem40 can be directly connected to the MELAG autoclaves
- permissible water pressure 10 bar
- considerable saving of time and money
- the MELAG autoclaves VACUKLAV and EUROKLAV use built-in conductivity meters to automatically check the quality of the water produced
- protect and extend the service life of your autoclave
- optional MELAJet Spray Pistol to clean your instruments

506510

MELADEM 47 WATER-TREATMENT SYSTEM

To connect to your autoclave

- extraordinarily, environmentally-friendly cleaning which follows the reversal of the physical principle of osmosis
- the produced demineralised water assures uniformly high levels of water quality
- considerable saving of time and money
- automatic control of water quality
- enduring fresh water guarantees the longevity of instruments

506530

WATER DISTILLATOR

- easy water container transport
- inexpensive production of Aqua Dest
- highest quality water
- long life warranty for your instruments

506500

Autoclaves, Containers for Sterilisation

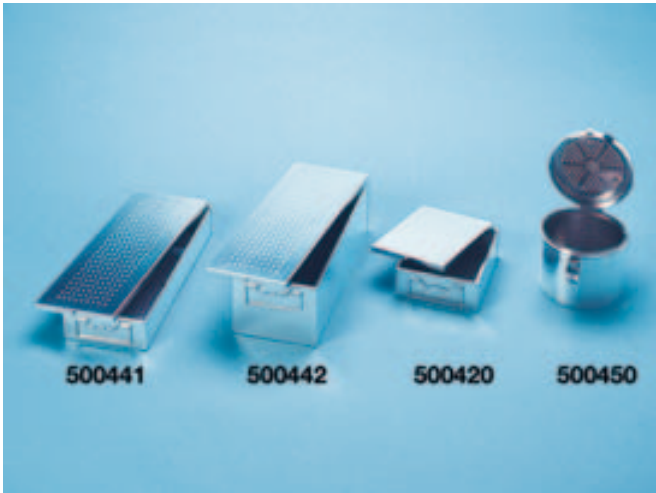

MELAG CLINIKLAV 25

The big one from MELAG!

- internal dimensions:
W = 32cm, H = 65cm, D = 65cm
- chamber volume: 67 litres
- safety door contact switch
- redundant process monitoring which is independent of the control system
- PT 1000 temperature sensor for exact closed-loop control, loop control and monitoring
- cost-effective water-ring vacuum pump
- high-quality vacuum pumps, innovative steam generator and top-quality stainless steel
- integrated printer for documentation
- outer dimensions:
W = 62cm, H = 80cm, D = 84cm
- lower cabinet option available

500026

STERILISING CONTAINER FOR MELAG AUTOCLAVES

- for a secure storage of instruments during and after sterilisation
- stainless steel
- sizes designed to fit into MELAG autoclaves
- replaceable anti-germs cloth filter

For MELAG 17, L = 19cm, W = 14cm, H = 4cm
500319

For MELAG 17, L = 40cm, W = 14cm, H = 4cm

With hydraulic pump height elevation

602070

HYDRAULIC SURGERY TABLE BASIC

With stainless steel table top 60x130cm

- height adjustable 63–115cm
- tilt mechanism/one direction appr. 80°
- rubber plate 124x64cm
- powder-coated base
- convenient for examinations
- easy to clean and disinfect
- safe stand

602355

SURGERY TABLE TOPS

- stainless steel table top
- anti-drip edges and drain hole
- silicon sealed
- table top with wooden plate underneath for low-noise operation
- easy to clean and disinfect

Stainless steel table top 50x130cm

602650

Stainless steel table top 60x130cm

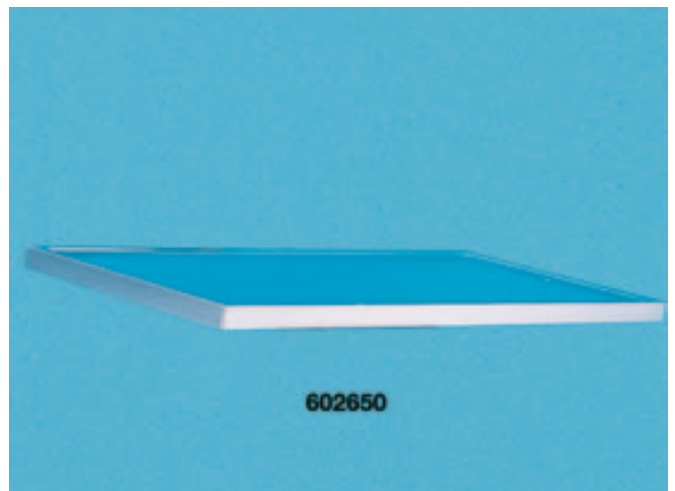

602660

Stainless steel table top, flat 60x130cm without illustration

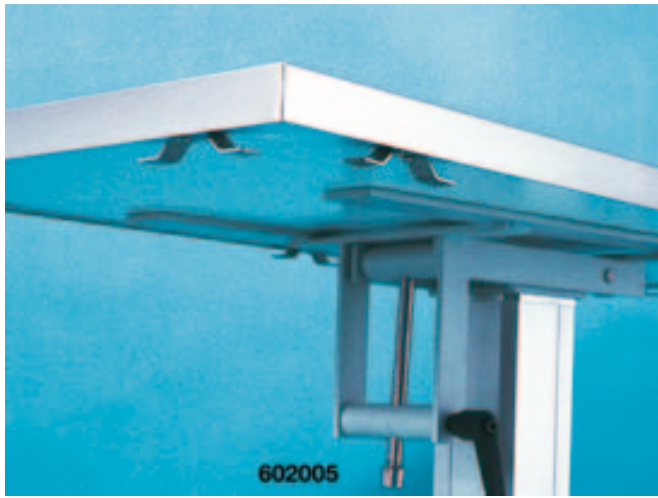

60419502

White polyethylene table top, 60x130cm

602760

Rail Systems, Tie Down Attachments, Tray and IV Stand

TIE DOWN ATTACHMENTS

- Safe restraint of the animals, set of 10 clamps
 - on each side of the table – 3 sideways and 2 crosswise
 - provides easy patient positioning
 - stainless steel
- 602005**

RAIL SYSTEM

- to hold quick release tie down attachments
- for fast, secure and variable restraint of animals on the table
- to apply further accessories

Sidewise, length = 120cm
605025

Crosswise, length = 50cm
605060

QUICK RELEASE TIE DOWN ATTACHMENTS

- Quick release tie down cleat for ropes
- fits on all rail systems

603800

- Quick release tie down cleat for ropes and IV stands, etc.

- D = 12mm
- fits on all rail systems

603802

Nylon ropes, D = 4mm, length = 100cm, 10/box
603841

TRAY AND IV STAND

To apply to a surgery table with rail system

Tray, 35x35cm, with attachment
605135

IV Stand, 120cm, with attachment
not illustrated
605200

Operating Table Frame, Stainless Steel Box, Rubber Mat, Buckets

OPERATING TABLE FRAME

- For table top with width = 50cm
- with two quick release cleats
- for secure tie down of extremities
- fits to rail system

605202

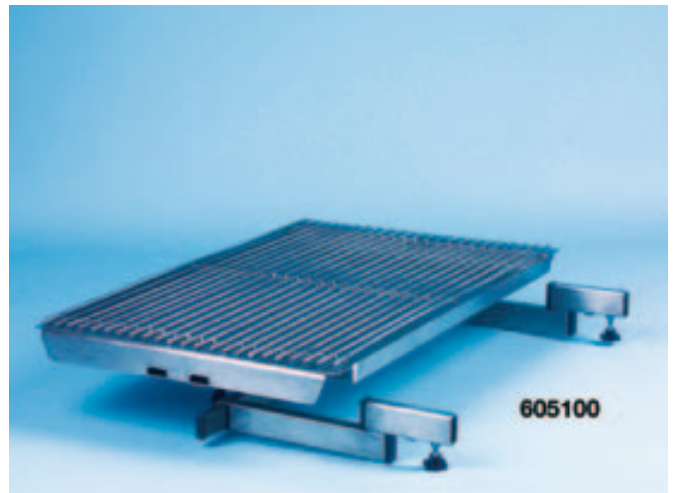

STAINLESS STEEL TRAY WITH REMOVABLE GRATE

For mounting on surgery tables with rail system

- height adjustable
- can also be used as an instrument tray

605100

RUBBER MATS FOR SURGERY TABLES

- protects the table top
- non-slip
- comfortable for the patient
- round corners

Rubber mat, grey, 125x45.5cm for table tops 50x130cm

602150

Rubber mat, grey, 125x55.5cm for table tops 60x130cm

602160

Plastic mat, transparent, 125x45.5cm, for table tops 50x130cm

602250

Plastic mat, transparent, 125x55.5cm, for table tops 60x130cm

602260

STAINLESS STEEL BUCKET

- With free swinging handle
- easy to clean and disinfect

6 litre

602505

10 litre

602510

Hydraulic Surgery Table SHOR-LINE, Surgery Tables HEDO

603452

HYDRAULIC SURGERY TABLE SHOR-LINE

Stainless steel flat table top with hydraulic elevation

- height adjustable from 78 to 104cm
- table top is formed from one piece of heavy-gauge stainless steel with rounded corners
- drain outlet on the end with hook for attachment of an optional collecting pail
- 360° rotation
- complete stainless steel
- attachment rail system runs continuously along the sides and ends of the table
- for sliding, quick release, tie-down attachments are provided and can be tightened in any position along this rail

152x56cm

603452

603618

SURGERY TABLES HEDO

Surgery Table HEDO

Electric height adjustment on both ends: 72.5 to 92.5cm

- detachable, radiolucent table top, 134x39cm
- 4 fixation rails
- 4 lockable castors
- lifts up to 150kg
- 1 animal positioner
- 1IV Stand
- 4 quick release tie-down attachments
- 10 ropes, length = 1m
- option: electric tilt mechanism

603618

Surgery Table HEDO ,MIC'

Electric tilt, 30° both sides, electric height adjustment from 72.5 to 92.5cm

- specially designed for laparoscopic surgery
- detachable, radiolucent table top, 134x39cm
- 4 fixation rails
- 4 lockable castors
- lifts up to 150kg
- 1 animal positioner
- 1IV Stand
- 4 quick release tie-down attachments
- 10 ropes, length = 1m

603619

FOLDING WALL MOUNT SURGERY TABLE

Wall mounted and constructed completely in stainless steel

- easy to clean and disinfect
- The table measures 50cm long and 23cm wide
- perfect size for small animal procedures
- small and compact
- allows the surgeon easy access to the patient multiple adjustment of both height and operating angle
- 9 different height positions
- 8 different operation angles
- provides a comfortable operating position for the surgeon
- saving space

BREUER pattern
606020

CAT SURGERY TABLE ZIPS

Proven for decades!

- fits on every table
- non-slip stand
- fast and secure restraint with 4 elastic strips
- for cats and tomcats
- stainless steel

606000

Set of 4 rubber fixation strips

606004

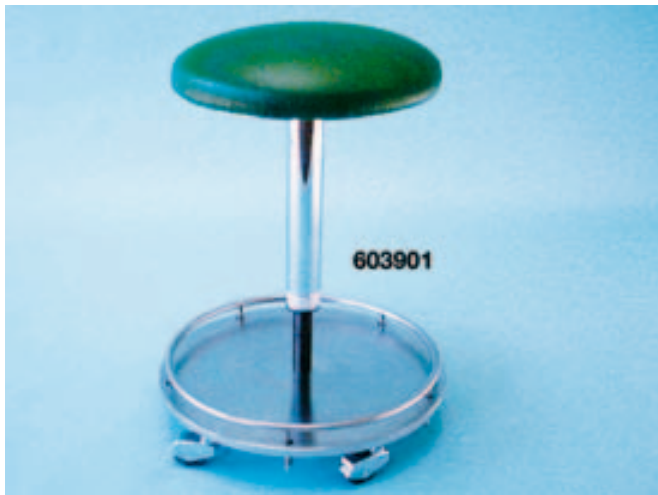

Practitioner Chairs, Practitioner Stools

PRACTITIONER CHAIRS

- Practitioner Chair COBURG, round seat with backrest, black
 - foot controlled gas elevation from 60 to 83cm
 - anti-fatigue cushioning
 - large seat, D = 38cm
 - backrest adjustable in height and depth
- 610456**

PRACTITIONER STOOL HEDO

- heavy baseplate, 27kg
 - extremely durable
 - foot controlled hydraulic elevation from 53 to 77cm
 - chrome-plated
 - mobile
 - coating material: velour or sleek leather, green or gray
- 603901**

PRACTITIONER STOOLS

- round seat, black
- comfortable seat
- easy height adjustment
- with 5-point mobile castor chrome base

Height adjustable from 45 to 55cm

610145

Height adjustable from 54 to 73cm

not illustrated

610173

Height adjustable from 46 to 62cm with foot ring

not illustrated

610154

PRACTITIONER CHAIRS

- adjustable backrest, black
- height adjustment from 46 to 62cm
- foot ring
- comfortable seating
- double castors for hard floors

610054

PRACTITIONER STOOL JOLLY

- height adjustable by gas elevation from 59 to 85cm
- easy to clean artificial leather cover
- smooth-running double castors

610150

PRACTITIONER STOOL JUMPER

- height adjustable by gas elevation from 59 to 85cm
- easy to clean artificial leather cover
- smooth-running double castors
- ergonomic construction provides comfortable seating

610155

PRACTITIONER CHAIR BARRAGE

- height adjustable by gas elevation from 52 to 72cm
- easy to clean artificial leather cover
- smooth-running double castors
- seat and backrest black
- armrest optional

Practitioner Chair

610160

Arm rest for Practitioner chair Barrage

610161

Practitioner Standing Aid, Practitioner Chairs, GAYMAR T/Pump

PRACTITIONER STANDING AID STEADY S

- height adjustable by gas elevation from 59 to 85cm
- seat adjustable (angle)
- easy to clean and to disinfect
- space saving storage due to fold-away base
- with foot rest

610165

PRACTITIONER CHAIRS MEDICAL

- height adjustable by gas elevation from 49 to 69cm
- comfortable seating
- easy to clean artificial leather cover
- smooth-running double castors
- seat and backrest black

GAYMAR T/PUMP HEATING SYSTEM

For keeping your patient's temperature normal during surgery

- more safety during anaesthesia
- temperature can be adjusted from 25° to 41°C
- easy fill adapter

GAYMAR T/PUMP including water pad, 53x38cm

648060

Water pad, 53x38cm

648061

HEATING PAD

- more safety during anaesthesia
- temperature can be adjusted from 25° to 42°C
- constant heat distribution
- sturdy pad

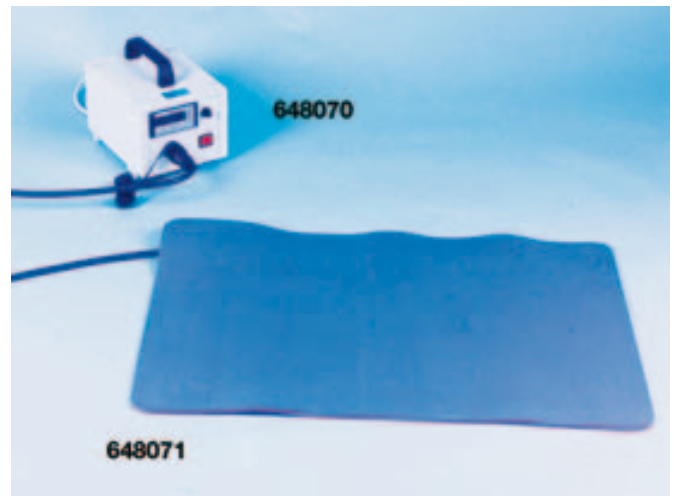

Control unit for heating pad

648070

Heating Pad 440x680mm for control unit

648070

648071

VACUUM SUPPORT

V-form, ideal for positioning during eye surgery

- reinforced nylon for high tear resistance
- smooth edges

605911

HEATING PAD

- more safety during anaesthesia
- temperature can be adjusted from 28°/32°/36°/41°C
- autoclavable
- 180x70 cm

648050

Cover for 648050

648051

VACUUM SUPPORT

Holds patients in position for surgery and helps prevent heat loss. With safe and durable nylon cover

30x60cm

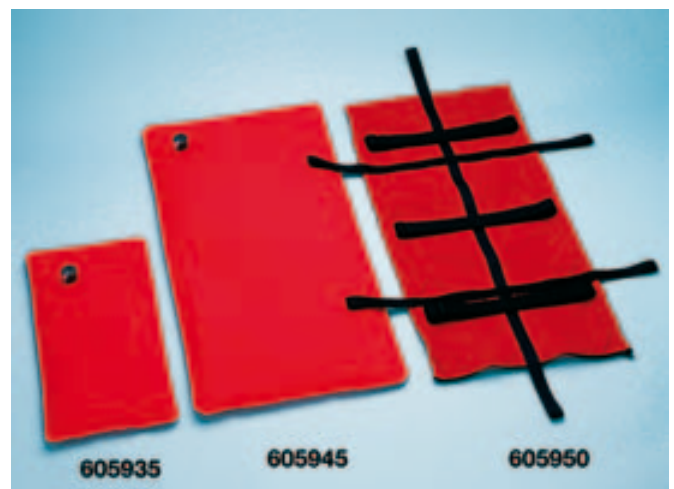

605935

50x100cm

605945

Carrying cover for vacuum support 50x100cm (605945)

605950

Vacuum Supports, Vacuum Support Pump, Animal Stretcher

VACUUM SUPPORT

Holds patients in position for surgery and helps prevent heat loss

- safe and durable nylon
- 4 handles to carry the animal
- 3 Velcro straps for additional restraint of the patient
- 80x100cm

605980

VACUUM SUPPORT PUMP

Fits on every EICKEMEYER vacuum support

- robust and durable PVC
- for easy extraction of air by suction

605990

ANIMAL STRETCHER WITH FRAME

For small animals, 120x52.5cm

- ideal for emergencies, after surgery transport and injury
- dirt-resistant, durable reinforced nylon cover
- Velcro restraint straps
- collapsible lightweight frame

605995

ANIMAL STRETCHER WITH MOBILE PLATFORM

L = 120 x W = 52.5 x H = 80cm, with

- 4 swivelling castors (two lockable castors)
- large wheels, easy to manoeuvre
- removable top

605998

EQUINE SURGERY TABLE EICKEMEYER

- Equine surgery at it's best. Height adjustable from 32cm to 112cm
- designed by surgeons for surgeons
 - easy access to patient due to slim centre port
 - seamless padding for easy cleaning
 - extra thick padding
 - stepless height adjustable and tilt up to 25° – ideal for laparoscopy
 - battery powered (with charger)
 - easy to move
 - 4 lockable castors
 - 4 leg poles
 - dimension: length = 290cm, width = 105cm
 - lifting capacity = 1.300kg
 - weight = 420kg
- 608750**

Transport Slings, Inflatable Support, Equine Head Protection

TRANSPORT SLING FOR EQUINE SURGERY TABLE

Small, pair
608660
Large, pair
608670

INFLATABLE SUPPORT FOR EQUINE SURGERY TABLE

- durable, black rubber
- prevents neural paralysis during operation

Custom design –

608502

EQUINE HEAD PROTECTION

Complete leather, handmade, modified by
GROSSE-LEMBECK

- protects the head during surgery, recovery etc.
- fits all horses
- heavy duty leather
- durable and long lasting

211400

EXAMINATION LIGHT HEINE HL 5000

- bright, white light
- 140.000 Lux at 30cm
- solid construction with high-specification 120cm radius
- gooseneck design provides easy handling and precise positioning
- economical halogen bulb which lasts at least 4000 hours
- increased safety during examination due to a UV-filter

Wall mounted model

611100

Rail mounted model

611110

Mobile stand model, heavy

611120

EXAMINATION LIGHT MACH 120 / 120F

Lamp for practice and hospital with superior colour rendering

- high quality, easy-to-use universal examination lamp
- housing diameter: D = 150mm
- MACH 120: 26.000 Lux at 80cm
- illumination field: D = 14cm at 100cm
- light system: R86
- MACH 120F: 30.000 Lux at 80cm
- focusable illumination field: D = 10 to 23cm at 100cm
- light system: R96

MACH 120F, stand model "Swing"

611257

Surgery Light

SURGERY LIGHT TRIAFLEX / TRIAFLEX R96

Operating lamp for minor and middle surgery with superior colour rendering

- 3 halogen bulbs, 40 Watt each, for high illumination
- brightness adjustable with a 2-step-switch
- housing diameter: D = 40cm
- economical long-lasting halogen bulbs
- working distance: 70 to 140cm
- also available as duo-light
- TRIAFLEX: 50.000 Lux at 100cm
- illumination field: D = 20cm at 100cm
- light quality: R86
- TRIAFLEX R96: 60.000 Lux at 100cm
- focusable illumination field: 15 to 23cm at 100cm
- light quality: R96

TRIAFLEX, stand model with swivel arm, range = 80cm

612020

TRIAFLEX, wall mounted model with swivel arm, range = 175cm

612120

TRIAFLEX, ceiling mounted model, up to 2.5m ceiling height, range = 165cm

612628

TRIGENFLEX R96, ceiling mounted model, up to 3m ceiling height, range = 165cm

612627

Surgery Light

SURGERY LIGHT MACH M3 F / M3 DF

Operating lamp for minor and middle surgery with superior colour rendering

- illuminate specific points in the deepest wound channels with high-intensity light from 3 halogen bulbs, 50 Watt each
- precise adjustment of the illumination field
- single handed adjustment of the merging of luminous fields and focusing as well as the activation of the Auto-Focus function (only M3 DF) with sterilisable handle
- light system: R96
- integrated video system option available
- MACH M3 F: 100.000 Lux at 100cm
- focusable illumination field: 17 to 28cm at 100cm
- working distance: 70 to 140cm MACH M3 DF: 130.000 Lux at 100cm
- focusable illumination field: 12 to 30cm at 100cm
- working distance: 60 to 150cm

MACH M3 F, ceiling mounted model, for 2.71m up to 3m ceiling height

612801

MACH M3 DF, ceiling mounted model, from 2.71m up to 3m ceiling height

612802

612805

On/Off switch, integrated arm mount, for MACH 380/400/500 and M3

612808

SURGERY LIGHT WITH LED-TECHNOLOGY

MACH M3 LED

- Light intensity (lux): 130.000
- Colour rendering index R(a) general: 95
- Colour rendering index R(9) red: ≥ 90
- Focusable light-field size (mm): 170-280
- Colour temperature (Kelvin): 3750, 4000, 4250, 4500, 4750
- Electronic light intensity control at lamp head: standard
- Temperature increase in head area: 0,5°C
- Number of LEDs: 112
- Power consumption: 120 VA
- Working distance (mm): 700-1400
- Height adjustment (mm): 1180

612900

SURGERY LIGHT WITH LED-TECHNOLOGY

MACH M5 LED

- Light intensity (lux): 160.000
- Colour rendering index R(a) general: 95
- Colour rendering index R(9) red: ≥ 90
- Focusable light-field size (mm): 200-320
- Colour temperature (Kelvin): 3750, 4000, 4250, 4500, 4750
- Electronic light intensity control at lamp head: standard
- Temperature increase in head area: 0,5°C
- Number of LEDs: 160
- Power consumption: 160 VA
- Working distance (mm): 700-1400, 600-1500
- Height adjustment (mm): 1180

612950

CEILING MOUNT RING

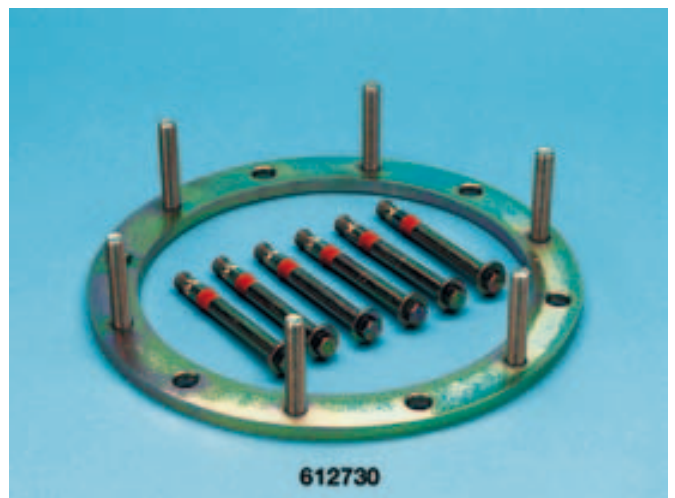

- necessary for all ceiling mount lights
- for secure mounting of lights on the ceiling
- easy installation

D = 300mm, for single lights

612730

D = 400mm, for dual lights

612731

MEDICAL CABINET WITH NARCOTIC SAFE

White powder coated steel

Dimensions: H: 56cm × W: 46cm × D: 18cm

- complete with double door protection for narcotics
- individual key for each door
- economical price

620510

Instrument Cabinet, Syringe and Cannula Dispenser, Instrument Tables

INSTRUMENT CABINET

With two folding doors

Dimensions:

H = 175cm × W = 100cm × D = 45cm

- metal cabinet with two glass doors
- 3 adjustable glass trays
- surface easy to clean and to disinfect

621200

SYRINGE AND CANNULA DISPENSER

- for storage of syringes and needles
- stackable
- swivelling containers
- white

Syringe and cannula dispenser, one each

62400001

Canula dispenser, 5 boxes

W = 60×D = 10×H = 16cm

62400101

Syringe dispenser, 3 boxes

W = 60×D = 16×H = 24cm

62400201

INSTRUMENT TABLE

Stainless steel

- height: 80cm
- 4 swivelling castors
- easy to clean and disinfect
- safe stand
- Dimensions = 65×45 cm

625050

VARIOCAR ALL-PURPOSE SIDE TABLE

With one drawer, white, H 83×W 60×D 45cm

- options of up to 4 drawers available

625083

Side Table ECONOMY with one drawer

625084

MEDICAR – FOR MORE SPACE AND ORGANISATION

- with 2 pivoting drawers

- dimensions: H = 74 × W = 43 × D = 41cm

- 5 swivelling castors

625095

MAJO INSTRUMENT TABLE

Stainless steel

- top: 40×60cm

- height adjustable from 90 to 132cm

- with 4 lockable castors

- easy to clean and disinfect

625160

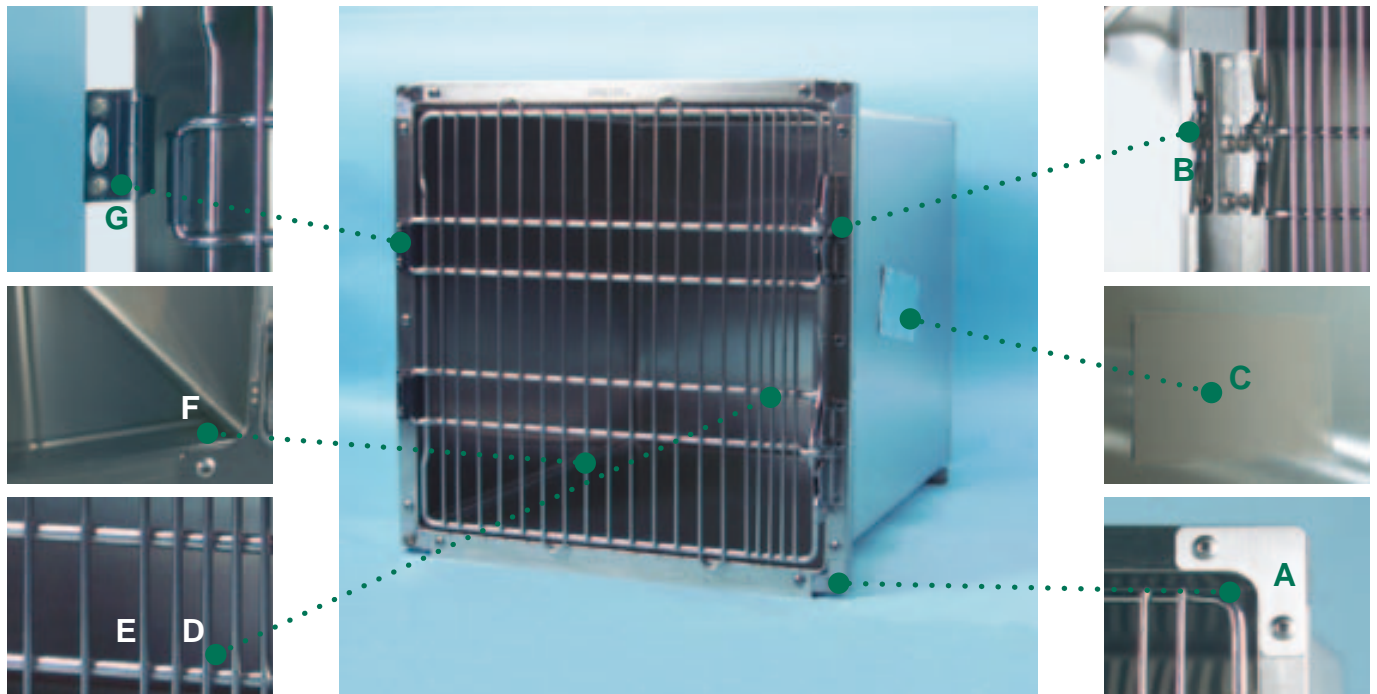

Built to last a lifetime

SHOR-LINE kennels are fabricated in an exclusive 2-piece unitized construction process, minimizing the number of welded seams. Less seams mean stronger kennels that are built to last. Only finest stainless steel material being used to provide you with a lifetime of service.

Kennel Sizes

(A) Trim Hardware

All trim plates and trim strips are solid stainless steel with rounded corners-no sharp edges or points. Patents pending.

(B) Patented Latch

Our latch is designed to be durable, secure and quiet. Acetal bushings provide smooth operation and sound dampening qualities. Concave latch bar allows cage door to be opened with your forearm when handling a sedated or fractious pet with both hands. Shor-Line has been granted U.S. Patent #5,097,796 for this unique latch design.

(C) Sound Dampening

New sound and vibration absorbing technology. Standard equipment on all Shor-Line cages.

(D) World's Mightiest Cage Door

The one piece frame and wrap around hinge/latch bars are formed from 3/8" diameter solid stainless steel rods. All additional horizontal rods are 1/4" in diameter and all vertical rods are 3/16" in diameter. Every intersection of horizontal and vertical rods are welded, providing incredible strength. Electro polishing is the final process resulting in a smooth and bright finish that looks great and is easy to clean...and practical too! Loops on the door prevent paper, pads or towels from sliding out the front of the cage.

(E) Fully Rounded Corners and Fluid Retaining Lip

No 90° corners to trap germs and debris. A smooth rounded cove transitions the back and all internal sides of the cage. A slightly raised, fluid retaining lip prevents drainage out the front of the cage.

(F) Stainless Steel Frame

All frame members are heavy duty stainless steel channel to provide you many years of solid structural support for your cage assemblies. All edges and corners on our frames have been radiused and de-burred.

(G) New, Patent Pending Hinge Design

The hinge is constructed of 14 gauge austenitic stainless steel that is encapsulated by an injection molded, fiberglass reinforced 6/6 thermoplastic polymer. The snap together bushing on the door frame is also molded from 6/6 thermoplastic polymer with permanent, self-lubricating properties resulting in a silky smooth and silent swing...truly "cutting edge" technology.

SHOR-LINE Kennel Accessories

SHOR-LINE STATIONARY PLATFORMS

Designed as a part of the modular system, these stainless steel stationary platforms are equipped with adjustable feet in each leg, to easily facilitate levelling. For planning purposes, allow for a 23.5 height increase when adjustable feet are fully extended

SHOR-LINE Kennel Accessories

IV HOLDER

Easily attached to kennel door and holds standard infusion bags. A special spring loaded locking device allows convenient, single handed height adjustment

Small, length = 483mm

637000

Large, length = 889mm

637005

DELUXE WATER & FEED BOWLS

These heavy-duty polished stainless steel bowls are easy to clean. They are designed with a slight taper to be nested for maximum storing convenience.

Including mounting brackets for SHOR-LINE Kennel doors.

636018

CAT PERCHING SHELF

Adjustable to fit 457mm, 610mm & 762mm Kennels, depth = 178mm

636645

OXYGEN THERAPY DOORS

Can easily be hung on the existing door
- for intensive care and oxygen therapy
- with humidity and temperature display
- to connect to oxygen cylinders or oxygen concentrators

610×760mm, for SHOR-LINE Kennels 632712 and 631961 (2×)

636695

610×610mm, for SHOR-LINE Kennel 631861

636696

VETARIO INTENSIVE CARE UNITS

The VETARIO Intensive Care Unit provides the ideal environment to give your patients the best possible chance of a successful recovery

- infinite variable temperature adjustment from 20 to 45°C
- heating is held constant by an advanced proportional band controller
- temperature is digitally displayed
- air is gently fan circulated through a dust filter to ensure sufficient filtered fresh air and even temperature
- observation of patients is aided by a low power internal light
- easy to clean, durable and quick to set up
- lightweight, assures high flexibility

VETARIO S10, Floor = 370mm dia,
minimum height = 345mm

219020

VETARIO S20, Floor = 680×430mm,
minimum height = 450mm

219025

219020

DISINFECTING AND CLEANING AGENT

For stainless steel kennels, 5 litre bottle

637500

637500

SHOR-LINE Polykennel, Tub/Tables

SHOR-LINE "QUICK CLEAN" PLASTIC KENNELS

Precisely engineered to meet your requests for an alternative approach to animal cages. Using technically advanced materials for durability and sanitation, the corrosion-resistant Shor-Line plastic cages are the perfect alternative for your animal holding areas. These cages are ideal for animal holding after bathing or grooming, or to add to your existing holding cage system

- good value alternative
- rounded edges
- sturdy plastic
- zinc plated doors
- one-hand lock Including:
- 2 kennels 616×717mm
- 1 kennel 1232×875mm with double door
- 1 divider
- 1 mobile platform

634803

TUB/TABLE SHOR-LINE

Many procedures in your practice require extensive clean-up like dentistry, surgery prep, minor surgery, necropsy, hydro-therapy and grooming, just to name a few.

All of these procedures become easier, cleaner and more efficient when performed on a SHOR-LINE Multi-purpose Tub/Table.

- special "knee-space design" improves comfort during procedures
- stainless steel tub, depth = 152mm
- wooden corpus
- lower cabinet provides you with roomy storage
- optional table top No. 639060

639053

TUB/TABLE SHOR-LINE

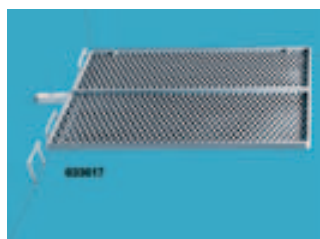

- special "knee-space design" improves comfort during procedures
- all components made of stainless steel
- lower cabinet provides you with roomy storage (3 drawers, 1 cupboard)
- removable grid allows use as a bath tub for dogs
- easy to clean and disinfect
- shapely design
- w/o lavatory taps

639054

KENNEL RUNS – THE SOLUTION FOR YOUR KENNEL PROBLEMS

You can select from our broad range of standard sized gates, side panels, back panels and accessories. And, we've got designs to fit your every need. Raised floor systems and block wall systems are available, or order 'A la Carte' modular components.

Whatever your situation, you can be assured we'll work with you to provide the most effective set-up for your facility. And, all our run components are guaranteed to provide you the highest quality product available in the industry.

FOLD FLAT CAGES

With tray, zinc plated for a long life

L = 64 × W = 48 × H = 55cm

641053

L = 79 × W = 56 × H = 63cm

641276

L = 94 × W = 64 × H = 71cm

641290

PET CARRIER

Excellent carrier for cats, small dogs, puppies, hamsters, rodents etc.

- white plastic coated wire for extra durability

- with handle for easy carriage.

- easy to clean L = 45 × W = 30 × H = 30cm

- w/o plastic tray

642000

Cat Restraint

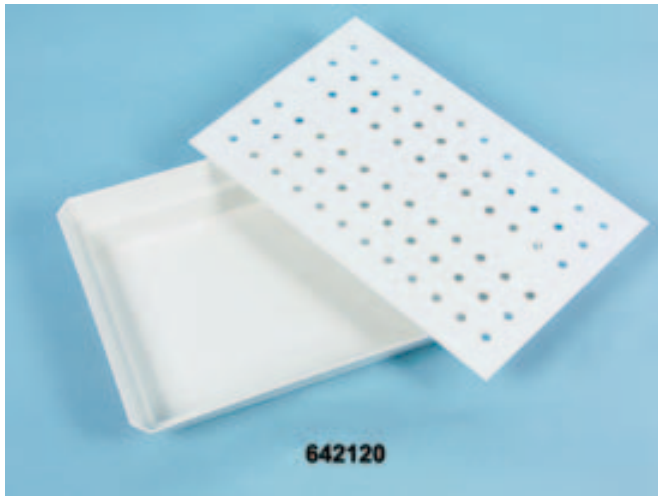

- helps to restrain cats in the pet carrier

- ideal for immunisation of uncooperative patients

404385

Trays for Pet Carrier, Mobile Stand for Pet Carriers, Pet Carriers, Cats Cradle

TRAYS FOR PET CARRIER

Fits perfectly into the pet carrier and collects litter

High Plastic insert with perforated, removable bottom
642120

MOBILE STAND FOR PET CARRIERS

For 4 Pet Carriers

- stainless steel
- 4 lockable castors
- easy removal of each kennel

643050

PET CARRIERS

Ideal for the transport by car, aeroplane, bus or train

- lock mechanism
- 2 removable spacious storage possibilities
- the door can be opened from both sides
- colour: beige
- accepted by nearly all airlines

Size 4, for dogs up to 25kg, 71×50×51cm
642564

Size 5, for dogs up to 40kg, 82×57×60cm
642565

Size 6, for dogs up to 50kg, 93×65×68cm,
642566

Size 7, for dogs more than 50kg, 105×75×79cm
642567

CATS CRADLE

To hang on the radiator

- soft padding
- easy to clean
- cats love it!

644560

HEATING PAD

- For small animals, 40×35cm
- maintains animal temperature
 - max. temperature equals the skin temperature of the animal
 - water resistant
 - long term usage
- 648040**

VET BED

- Ideal padding for your patients in kennels
- machine washable
 - absorbs fluids
 - keeps your patients dry
 - white

HIGH FREQUENCY X-RAY UNIT HIRAY PLUS

One of the smallest and most powerful portable High Frequency X-Ray Units in the world!

- high output: max 100kV, max 30mA, 2kW inverter system
- compact and lightweight: 28×16.3×16cm / only 7.8kg
- easy and quick kV and mAs selection with rotary switches
- kV settings from 40–100kV (2kV steps) with illuminated LCD-Display
- 32 mAs settings, 0.3–20mAs, with illuminated LCD-Display
- anatomical programming of 8kV/mAs combinations
- focus = 1.2×1.2mm
- extra bright collimator light (100 lux at 1m) with automatic timer
- integrated laserpointer for distance measuring
- with 2-step manual control switch with curled cable, length = max 2.5m
- CE-Certificated
- supplied in a sturdy aluminium case

701115

Foot switch for HiRay Plus

not illustrated

701121

701100

HIGH FREQUENCY X-RAY UNIT HIRAY HIPOWER

Portable high power for brilliant X-Rays

- high output: max 100kV, max 32mA, 3.5kW inverter system
- easy and quick kV and mAs selection with rotary switches
- large display to adjust kV and mAs
- kV settings from 40–100kV (1kV steps) automatic mAs control
- 24 anatomical programmes, easy to control with one button each
- focus: 2×2mm
- two integrated laserpointer for precise distance measuring
- extra bright collimator halogen light with automatic timer
- compact and lightweight: L = 35 × W = 22 × H = 22cm / 18kg
- CE-Certificated
- supplied in a sturdy aluminium case

701100

HIGH FREQUENCY X-RAY UNIT HIRAY LIGHT

Ultra compact and lightweight portable X-Ray Unit – ideal for equine practitioners

- output: 16mAs / 40–60kV, 15mAs / 40–80kV
- ultra compact and lightweight: 27×14×15cm / only 5kg
- easy and quick kV and mAs selection with slide switches
- display to adjust kV and mAs
- mAs settings, 0.32–30 mAs
- anatomical programming of 8kV/mAs combinations
- focus: 1mm
- bright collimator light with automatic timer
- integrated laserpointer for distance measuring
- with 2-step manual control switch with curled cable
- CE-Certificated
- supplied in a sturdy aluminium case

701110

X-RAY STAND FOR PORTABLE X-RAY MACHINES

- height adjustable
- safe stand
- 4 locking castors
- complete stainless steel

X-ray Stand, large

701118

Short rod for X-Ray Stand, 120cm, for horses

701411

X-RAY STAND WITH LIFTING SUPPORT

- for portable X-Ray machines
- lifts up your X-Ray machine easily
- with long and short rod
- will dismantle for easy transportation
- stainless steel
- 4 lockable castors
- easy to clean
- lightweight

X-Ray Stand, 195cm

701400

X-Ray Stands, X-Ray Tables

X-RAY STAND

- for portable X-Ray machines
- height adjustable
- will dismantle for easy transportation
- stainless steel
- 4 lockable castors

701410

Long rod for X-Ray Stand, 180cm, for small animals

701412

WALL MOUNTED X-RAY STAND WITH X-RAY TABLE

Wall Mounted Stand

- for portable X-Ray machines
- height adjustable
- self centred cassette tray for perfect alignment

701450

X-Ray Table for 701450

- radiolucent table top
- stainless steel frame
- 4 lockable castors
- L = 120 × W = 60 × H = 86cm
- colour: white

701455

X-RAY TABLE WITH STAND

For all major portable X-Ray machines

- radiolucent table top, 160×76cm, height: 67cm
- stainless steel frame
- self-centering cassette tray
- stand and cassette tray on runners cover more than 80% of the length of the table

701470

STATIONARY HIGH FREQUENCY X-RAY UNIT EICKEMEYER

- High-capacity stationary X-Ray Unit with touch-screen control
- very powerful 32kW, 100kHz, 425 mAs
- kV selection 40–99kV (1kV steps)
- mAs selection 0.2–100 mAs
- standard Pre-Sets for different animals (automatic anatomical programming)
- standard power supply 220V / 16 A, condensor backed
- includes grid 8:1, aluminium
- large focus: (1.3×1.3mm) 40–80kV / 400 mA 81–100kV / 320 mA
- small focus: (0.6×0.6mm) 40–50kV / 200 mA 51–60kV / 160 mA
- 4 way floating table top, 75×150cm

EICKEMEYER X-RAY PROCESSOR

All parameters of the EICKEMEYER x-ray film processor influencing image quality are factory set to optimal values. This makes the operation easier and reduces operator error

Just plug in the new processor and fill it with chemicals and the ECOMAX is ready for operation.

- perfect processing machine for the veterinary practice
- pre-sets assure easy handling and operation
- guarantees optimal image quality
- permanent chemicals recirculation
- regeneration adjusts automatically on the flow rate
- economical
- low maintenance level
- dimensions: L = 88 × W = 66 × H = 42cm

DIGITAL X-RAY SYSTEM PROSCAN

X-Ray developing – a thing for the past. PROSCAN is a modern, high resolution scanner for imaging plates (IP). It transfers X-ray information saved on the IP into a digital signal

Simple application:

- exposure of the IP (with existing unit and familiar settings)
- removal of the IP from the cassette
- placement of the IP on the PROSCAN, scanning starts automatically
- image data is automatically erased, IP can be used again right away
- data transferred to PC/Notebook for immediate diagnosis and image editing The image editing and managing software operates the CR-Scanner and routes the images automatically to a PACS-Software

Cleaning solution kit for imaging plates

708081

Direct Digital X-Ray DIGIVET

708200

DIRECT DIGITAL X-RAY DIGIVET

The DIGIVET combines excellent spacial resolution with an unmatched dynamic range, making it the perfect choice for all your critical radiographic imaging applications

- saves money: no developing, no chemicals
- saves time: after only 4 seconds you can see the X-Ray on the monitor
- improved diagnostic possibilities due to image editing (brightness, contrast, size, zoom, measuring etc.)
- comfortable: automatic archiving with image managing software
- modern: X-Ray can be discussed directly with the pet owner
- telemedicine: transmit your images via email
- compatible: fit all well-established X-Ray units

Standard delivery includes:

- powerful high end PC
- large diagnostic X-Ray monitor
- picture editing, managing and archiving software (PACS), DICOM 3.0 compliant

708200

708080

X-RAY FILM SCANNER RDC

The Radiograph Digital Converter (RDC) is an exciting innovation for veterinary radiology! This state of the art system allows you to capture high quality digital images of your X-Rays

- digitise X-Rays in less than 5 seconds
- capture high quality images of your X-Rays
- state of the art image editing software (brightness, contrast, size, zoom, measuring etc.)
- save your digitised X-Rays directly to your client file or send them by e-mail
- supports DICOM format
- easy USB connection
- for digital picture editing of X-Ray films up to 35×42cm

DIGITAL DENTAL X-RAY SYSTEM EVA-VET

EV-Vet is a film-less, digital dental imaging radiology system that produces highest resolution, diagnostic quality images. Utilising patented "Active Column" CMOS technology, EVA produces high efficiency, low noise images which are digitalised and transmitted to your computer via a standard USB port and is compatible with laptop or desktop systems

EVA-VET with sensor No. 2 (3x4cm), USB connection and Software

- high resolution, diagnostic quality images
- easy to connect via USB
- convenient to use, state of the art software package (included)
- easy installation and operation
- supports DICOM format

Wall mounted with 80cm overhang

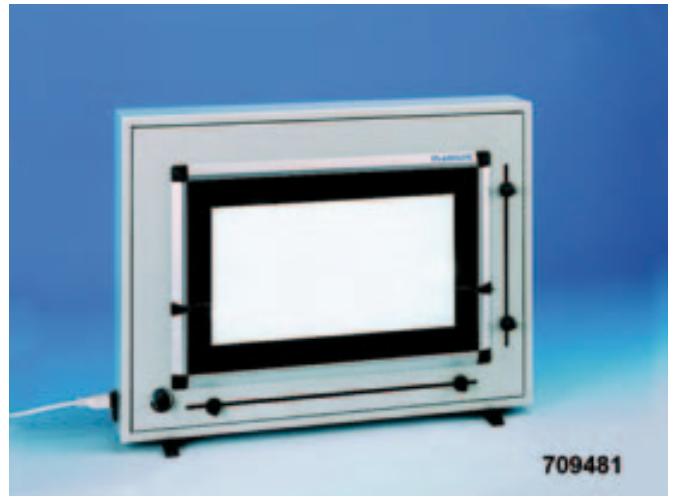

176500

X-RAY FILM VIEWER PLANILUX

- High quality X-Ray film viewers for film reading
- 4 individually movable shutters for glare-free film reading
 - flicker-free, energy-saving high-frequency light (3 lamps)
 - variable electronic brightness control, control range approx. 90%

Viewing area: 400×430mm
 Housing: W = 600×H = 625×D = 105mm
709441

Viewing area: 800×430mm
 Housing: W = 1000 × H = 625 × D = 105mm
709481

X-RAY FILM VIEWER SLIMLINE

- TFT-LCD Backlight Technology distributes the light evenly
- the uniformity of light distribution is more than 90% which guaranties an accurate film reading
- blue type light (CCFL-Technology) which is suitable for reading x-ray films
- economical, efficient and convenient
- long lamp lifetime

498 x 482 x 28 mm, viewing area:
 356 X 423 mm
709840

854 x 482 x 28 mm, viewing area:
 711 x 443 mm
709880

X-RAY FILM VIEWER EICKEMEYER

- film grip retainer
- table or wall mount
- bright light
- best price performance

Viewing area: 350×450mm
 Housing: W = 400 × H = 510 × D = 110mm
709571

Two viewing areas: 350×450mm each
 Housing: W = 800 × H = 510 × D = 110mm
709570

IRIS LAMP 100

- with flange and swivel arm, to fix to the wall or on the X-Ray Film Viewer
- indispensable accessory for the safe detection of small contrasts in the higher density ranges ($D > 2.2$) for a better evaluation of overexposed X-Rays
- extremely high luminous density of max. 70.000 cd/m².
- luminous density can be stepped down continuously to near extinction
- precision-type iris lamps smoothly adjust from 5–70mm and 5–100 diameter
- collimation of very small image areas with neatly contoured edges

709310

Microscopes

710060

MICROSCOPE EICKEMEYER

- binocular tubus
- wide field oculars WF 10x (18mm)
- Achromat objective 4x/0.1, 10x/0.25, 40x/0.65, 100x/1.25 oil
- Köhler illumination, halogen 6V/20W
- blue filter
- Abbe condensator 1.25 N.A.

710060

710002

MICROSCOPE MOTIC B1 VET

High quality combined with attractive pricing!

Microscope MOTIC B1 VET

Features:

- binocular head with wide field WF10x (18mm) eyepiece
- full range of achromatic (and semi-plan) objectives, PL4x/0.1, A10x/0.25, A40x/0.65, A100x/1.25, oil spring
- movable ABBE condensor N.A. 1.25, iris diaphragm for resolution and contrast control
- built-in ball bearing mechanical stage provides a travel range of 76mm x 50mm in the X and Y direction respectively with graduations read up to 0.1mm for accurate positioning of specimen
- standard halogen illumination (12V/20W)
- trinocular head available

710002

Heating table (warm stage) for MOTIC-Microscope

- 30 to 60°C, with digital display
- fixed with a knurled screw

not illustrated

710004

Phase Objective (plan) 40x/PH

not illustrated

710006

Phase Ring 40x

not illustrated

710007

Darkfield Lens for MOTIC Microscope

not illustrated

710008

MICROSCOPE MOTIC B3 VET

Top quality for a top price!

- Siedentopf binocular tube 30° inclined
- special 5-holes turret type condenser
- widefield eyepiece AWF10x (FN 20)
- plan objective: PL4x/0.10, PL10x/0.25, PL100x/1.25, oil spring
- phase contrast plan objective PL40xPH/0.65
- darkfield lens
- 1.25 ABBE condenser with rack and pinion focusing
- KOEHLER illumination, 12V/20W halogen
- standard blue, green, yellow and frosted filter for brightfield and phase application

710000

**DIGITAL MICROSCOPE MOTIC DMBA 200,**

with integrated, high resolution CCD camera, software, USB- and TV- connection

- simultaneous connection to PC or monitor possible
- possibility to send pictures via internet
- easy handling due to the "plug and play"
- software with extensive application
- binocular tubus, selectively 30° and 45° angle of view adjustable
- wide field oculars 10x (18)
- Plan Achromat objective 4x/0.1, 10x/0.25, 40x/0.65.100x/1
- cross table
- Abbe condenser with iris diaphragm
- halogen illumination 12V/20W, stageless adjustable

710005

MICROSCOPE ZEISS "PRIMO STAR"

- High end CARL ZEISS quality
 - 4x objective nosepiece
 - halogen illumination 6V/30W
 - cross table 75x30 cm
 - binocular tubus 30°/20
 - Plan-Achromat objectives A4x, A10x, A40x and A100x1.25 oil
 - height adjustable and possibility to center the condenser 0.9 / 1.25
 - Oculars 10x/19
 - easy handling
 - absolutely reliable
- 712060**

ACCESSORIES FOR MICROSCOPES

Cleaning Set for microscopes
not illustrated
710011

Immersion oil, 10ml, free of PCB
not illustrated
710010

Microscope slides, 26×75mm, 50/box
712026

Slide dispenser, for 50 microscope slides
712150

Cover slides 18×18mm, 1000/box
712518

STAINING RACK

Glass, 15×22cm
712715

SHAKER FOR BLOOD PIPETTES

Simultaneous and proportionate pipette mixing
713420

COUNTING PIECE

THOMA, separation in 400 squares with 0.05mm
- fast and easy counting of leukocytes and erythrocytes

713510

NEUBAUER, separated in 9 large squares
713520

TUERK
713540

Cover glasses for counting piece 0.4mm,
20×26mm, 10/box

713620

TEST TUBES / RACK

- with round bottom

Test Tubes with round bottom, 16mm×16cm,
100/box
714016

Test Tube Rack for 12 Tubes,
white epoxy-coated wire
714112

Centrifuges

718200

EICKEMEYER STANDARD CENTRIFUGE

For 6 × 15ml

- true running steel angle rotor
- infinite variable speed from 0–4500 rpm
- built-in timer, running time up to 60 minutes
- safe and easy to operate
- safety latch stops motor when lid is open
- best price performance

718200

Reduction Piece to 2ml

not illustrated

718322

718320

HETTICH EBA 20 TABLE-TOP CENTRIFUGE

Practical and handy, the EBA 20 is the ideal centrifuge for small sample volume.

- complete with an 8-place angle rotor
- microprocessor-controlled
- input of rotation speed in increments of 100, max. 6000 rpm
- ergonomically designed display elements
- built-in timer, running up to 99 min
- impulse key for very short centrifugal operations
- during centrifuging the actual values of the parameters are displayed
- variable: it accommodates various tubes as well as glass tubes w/o adapters

718320

HETTICH EBA 21 TABLE-TOP CENTRIFUGE

Maximum performance in microlitre centrifugation coupled with reliability in daily laboratory routine

- powerful, versatile and reliable
- maintenance free, stepless adjustable motor
- RCF of 23.907 at a speed of 18.000 rpm
- metal case, rotor-detection, cover-locking assures a high level of safety
- with timer
- multi-programming (3×)
- the rotor-detection limits the rotor to its maximum rotation speed
- precise and easy parameter entry via water resistant keypad
- w/o rotor

718321

Angel Rotor 45°, 12-part with cover

718326

Haematocrit Rotor with cover and evaluation disc

For 24 haematocrit-capillaries

718327

Angel Rotor 35°, 6-part with cover

718328

718321

HETTICH HAEMATOCRIT 210 CENTRIFUGE

HAEMATOCRIT 210 w/o rotor

- easy parameter entry via foil keypad
- during centrifuging the actual values of the parameters are displayed
- impulse key for very short centrifugal operations
- input of the rotation speed in increments of 100
- built-in-timer, running up to 99 min
- easy to read digital display
- fitted to latest safety requirements

718430

Haematocrit Rotor with cover and evaluation disc

24 haematocrit-capillars

718431

718430

MOBILE MINI HAEMATOCRIT CENTRIDUGE

EICKEMEYER Mini Haematocrit centrifuge

- for mobile use
- including rotor for 6 capillars
- fully automatic operation
- self-sealing mechanism
- silent
- small dimensions (L×W×H = 13×13×8cm)

718400

718400

Accessories for Centrifuges, Ampoules Rack

CAPILLARY TUBES

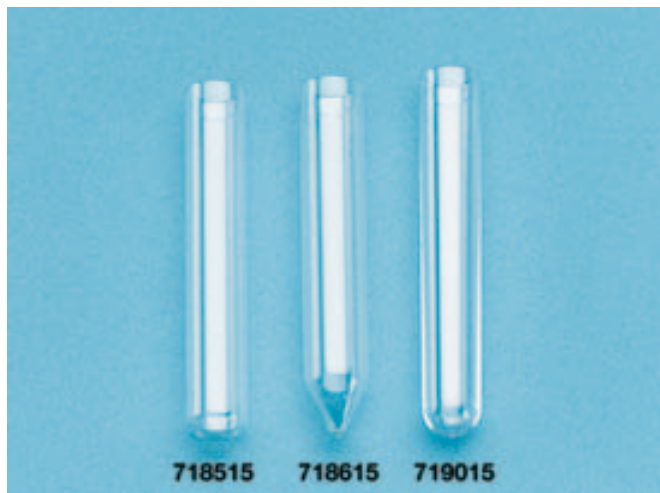

- capillary to take up blood and sealing material to close

MELAG INCUBAT 80 INCUBATOR

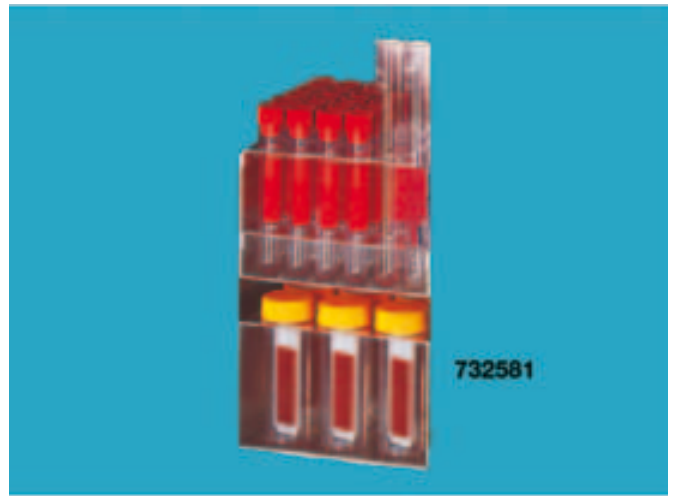

- designed for all veterinary labs which require reliable and inexpensive methods of incubating cultures
- large capacity
- temperature range: 10°–60°C
- excellent temperature stability
- large glass door
- internal dimensions: W = 15cm, H = 30cm, D = 12cm
- external dimension: W = 27cm, H = 42cm, D = 14cm
- wall mounting

INCUBAT 80

732580

INCUBAT 80 ACCESSORIES

- Insert tray
732581
- Urine diagnosis rack for 9 micro slides
732582
- Rack for 30 test tubes
732583
- Rack for 6 Petri Dishes
732584

THERMOCULT INCUBATOR

- Approved and inexpensive Incubator
- temperature stability: 35 +/- 2°C (adjustable up to approx. 42°C)
- easy-to-read thermometer column
- 2 control lamps, mains and heating
- lightweight and handy
- OD: 30×17×17cm
- ID: 21×14.5×11 cm

- Thermocult Incubator
732590
- Insert tray
732591

BLOOD GAS ANALYSER I-STAT

The i-STAT is portable, easy to use, and performs a complete panel of tests from a single platform enabling you to quickly and effectively monitor and manage your patients

- fast and accurate
- precise and reliable with the most recent technology
- stores 50 test results
- no daily maintenance procedures
- only 65–100 microlitres of fresh whole blood sample
- automatic calibration
- equivalent to lab based systems
- optional printer available

- 733000**
- HP-printer
733010
- Printer paper for HP-printer I-STAT, pack of 3 rolls
733012
- Attachment for printer I-STAT
733011
- Software Update, 24hr replacement
- free software updates
- replacement in case of problems
- for 12 month
733017

Tests for Blood Gas Analyser, Forceps, Emasculators

TESTS FOR BLOOD GAS ANALYSER I-STAT

Self-contained i-STAT cartridges allow you to perform a number of critical care assays

- 25 test/box
- store between 6–8°C
- max. 3 months shelf life

Test G3+

For ph, PCO₂, PO₂, Bicarbonate, Total Carbon Dioxide, BE, O₂-Saturation

733003

VET Eickemeyer®

Our service – Your benefit

We sharpen your clipper blades.
Within 5–7 days our skilled craftsmen
will service and sharpen your clipper
blades

ACCESSORIES FOR FAVORITA II

Cable roller, wall and ceiling mountable, 3m

- cable always ready at hand

902509

Wall Mount for clipper

- safe and practical storage

902510

Rack for clipper blades

- for optimal storage of clipper blades

902511

Vacuum device

- for a clean working field

- fits on almost every vacuum cleaner

902512

Special oil for clipper blades

- lubrication after cleaning

902514

CLIPPER SPRAY

400ml

- cleans blade while clipping

- lubricates

- disinfects

- cools

- extends the working life of your blades

902513

CLIPPER PANASONIC

Ideal for small areas

- battery powered

- including clipper head

- variable cutting length

- small and silent

- modern design

909010

LONG SAGITTAL SEC. (FRONTLIMB)

Exceptional value and quality represented in this instructional specimen. Meticulously prepared and preserved. The internal structures of the hoof, limb and knee are undistorted and easily identifiable. Whether teaching or talking to clients in the field, the veterinarian will appreciate the detail of this sagittal selection.
178385

ULTRA LIMB

An invaluable tool for teaching or a handy reference for ultra-sound study. Equine lower limb is cross-sectioned from the Coronary Band to the proximal end of the Cannon Bone. The hoof is divided sagittally and hinged. Everything is connected with a tough flexible strap.
178380

CANINE STIFLE

Shows
- patella
- meniscus
- cross bars
909033

SPINAL COLUMN

- Shows intervertebral discs and normal vertebrae
909035

Osteo Models, Ear Model (Dog), Small Animal Scales

ELBOW

- avulsed anconeal process (painted red)
 - fractured coronoid process (painted red)
 - osteochondritis dissecans (painted red)
 - articulated with elastic cord
 - demonstrates: flexion, extension and rotation
- 909036**

HIP-MODEL

- right cox of femoral joint – normal
 - left cox of femoral joint – arthritis/hip dysplasia
 - lumbar sacral (L/S) joint – ventral spondylosis
 - intervertebral disc (L6/L7) – normal
 - intervertebral disc (L/S joint) – dorso-laterally herniated
 - yellow flexible spinal cord and nerves
 - all joints fully articulated with elastic cord
 - demonstrates: full range of motion for hip joints, lumbar sacral joint and vertebra
- 909034**

EAR MODEL (DOG)

- cutaway shows canine ear canal, tympanic membrane
 - ear canal shows wax, inflammation, infection, tox tail and polyp
- 173935**

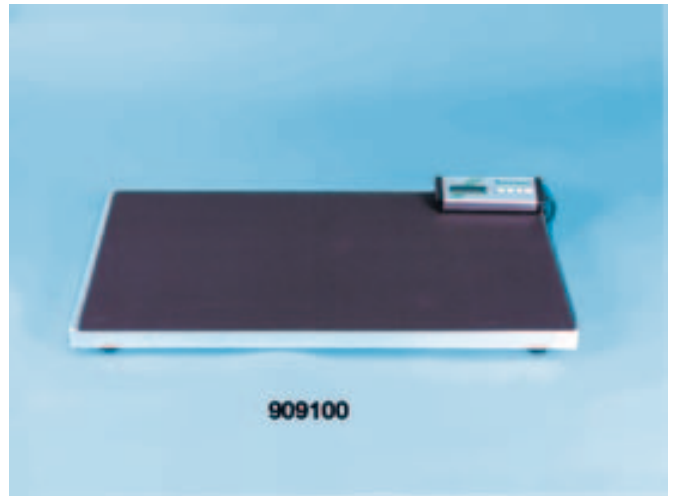

SMALL ANIMAL SCALES

- Up to 20kg
- large, easy-to-read LCD-Display
 - easy to handle with one key
 - push button zero/tare-function
 - battery operated and auto-off automatic
- 909050**

WALK-ON PLATFORM SCALE SLIM-LINE

- flat walk-on scale, extremely space-saving
- large easy-to-read LCD-display with wall mounting
- HOLD button (precise weight even if the animal shakes)
- 0–150kg scale (100g steps)
- dimensions: 90×55×4.5cm
- stainless steel cover
- battery or mains operated
- including anti-slip mat, grey
- best price performance

909100

MOBILITY CARTS FOR DOGS
